Walking in Line James D. Croone, 2025-03-28 As a Black American James Croone can speak to many of the dismays of racism Through years of teaching in Bible colleges and pastoring he remains perplexed how one can hold on to biases against those of other ethnicities and proudly proclaim to be a follower of Jesus Christ However this has been a standard fixture throughout history from those who have interpreted God's word to enslave oppress and extort those made in his image One would only believe that through advanced developments in studies of resources archeology and linguistics analysis and most importantly being in tune with God's Spirit we would have a better grasp of the gospel ridding ourselves of these pseudo interpretations Much of what is touted in media publications or friends with opinions conveys solutions that are irrational and fueled by anger and reprisal Civil unrest reforms laws and financial retribution are shortlived external solutions bias is an internal problem No matter how stringent laws can be there are always loopholes There are no loopholes internally though if one truly walks in line with the gospel This book aims to assist in transforming the hearts of those wrestling with bias and lead them to the path of restoration *Princeton Alumni Weekly* Jesse Lynch Williams, Edwin Mark Norris, 1994 Walking a Straight Line Christopher Danielson, 2005 **Gardens of the High Line** Piet Oudolf, Rick Darke, 2025-04-08 If you can't get to the High Line this is the next best thing The Washington Post Before it was restored the High Line was an untouched abandoned landscape overgrown with wildflowers Today it's a central plaza a cultural center a walkway and a green retreat in a bustling city that is free for all to enjoy This beautiful dynamic garden was designed by Piet Oudolf one of the world's most extraordinary garden designers Gardens of the High Line by Piet Oudolf and Rick Darke offers an in depth view into the planting designs plant palette and maintenance of this landmark achievement It reveals a four season garden that is filled with native and exotic plants drought tolerant perennials and grasses that thrive and spread It also offers inspiration and advice on recreating its iconic naturalistic style Featuring stunning photographs by Rick Darke and an introduction by Robert Hammond the founder of the Friends of the High Line this large trim photo driven book is a must have gem of nature of design **Proceedings of 6th International Conference on Civil Engineering and Architecture, Vol. 2** Thomas Kang, Youngjin Lee, 2024-07-13 The book presents the selected and peer reviewed papers of 2023 6th International Conference on Civil Engineering and Architecture ICCEA 2023 held in Bali Island Indonesia on December 16-18 2023 This volume of proceedings includes a lot of smart and green solutions for challenges on civil infrastructure construction and architectural design The book highlights attempts made by the researchers and practitioners to solve architectural planning issues by using state of the art technologies and engaging in a lot of case studies and practices This volume provides a valuable and useful reference for the people from both in academia and industry who are working in the field of civil engineering and architecture **A Text-book of the diseases of the ear for students and practitioners** Adam Politzer, 1902 **A Jurisprudence of Movement** Olivia Barr, 2016-02-22 Law moves whether we notice or not Set amongst

a spatial turn in the humanities and jurisprudence more specifically this book calls for a greater attention to legal movement in both its technical and material forms Despite various ways the spatial turn has been taken up in legal thought questions of law movement and its materialities are too often overlooked This book addresses this oversight and it does so through an attention to the materialities of legal movement Paying attention to how law moves across different colonial and contemporary spaces this book reveals there is a problem with common law s place Primarily set in the postcolonial context of Australia although ranging beyond this nationalised topography both spatially and temporally this book argues movement is fundamental to the very terms of common law s existence How then might we move well Explored through examples of walking and burial this book responds to the challenge of how to live with a contemporary form of colonial legal inheritance by arguing we must take seriously the challenge of living with law and think more carefully about its spatial productions and place making activities Unsettling place this book returns the question of movement to jurisprudence
