The Barefoot Book L. Daniel Howell, 2011-01-01 Americans are chronic shoe wearers We wear shoes almost constantly certainly in public spaces and often within the comfortable walls of our own homes We need shoes We need them for warmth and for protection We wear shoes to be fashionable and because it's expected And what's wrong with that The Barefoot Book explores this question and provides a surprising answer What's wrong is that chronic shoe wearing is negatively affecting our health and especially the health of our feet According to author L. Daniel Howell the warm moist environment of a shoe clad foot makes a perfect condition for fungus and bacteria to grow Poorly fitting shoes cause or exacerbate a host of foot issues from hammer toes bunions and ingrown toenails to fallen arches and Hallux valgus And high heeled shoes are the worst culprits of all with chronic use damaging the knees spine and posture In fact continuous wearing of shoes any shoes is a problem Howell explains how shoes redistribute weight alter joints weaken foot muscles decrease foot flexibility and eliminate sensory feedback from the sole and shock absorption of the arch This leaves feet weak fragile and even more dependent on shoes BR If shoes are causing such problems the solution is obvious take them off In The Barefoot Book Howell describes the best and healthiest kinds of shoes to wear for the times we must wear shoes For the rest of the time he suggests we go barefoot and gives tips for getting started on a more barefoot lifestyle He suggests ways to ease into

going barefoot more often defines the best conditions and situations for going barefoot identifies the risks and provides ways to explain to people why you're going barefoot particularly if you venture into public areas where shoes are expected Howell would like us to experience healthier feet and fewer trips to the podiatrist's office to develop feet that are strong flexible and comfortable After learning about the dangers of chronic shoe wearing and the health benefits of going barefoot readers will likely agree
