A Walking Life Antonia Malchik, 2019-05-07 For readers of On Trails this is an incisive utterly engaging exploration of walking how it is fundamental to our being human how we've designed it out of our lives and how it is essential that we reembrace it I'm going for a walk How often has this phrase been uttered by someone with a heart full of anger or sorrow Or as an invitation a precursor to a declaration of love Our species and its predecessors have been bipedal walkers for at least six million years by now we take this seemingly arbitrary motion for granted Yet how many of us still really walk in our everyday lives Driven by a combination of a car-centric culture and an insatiable thirst for productivity and efficiency we're spending more time sedentary and alone than we ever have before If bipedal walking is truly what makes our species human as paleoanthropologists claim what does it mean that we are designing walking right out of our lives Antonia Malchik asks essential questions at the center of humanity's evolution and social structures Who gets to walk and where How did we lose the right to walk and what implications does that have for the strength of our communities the future of democracy and the pervasive loneliness of individual lives The loss of walking as an individual and a community act has the potential to destroy our deepest spiritual connections our democratic society our neighborhoods and our freedom But we can change the course of our mobility And we need to Delving into a wealth of science history and anecdote from our deepest origins as hominins to our first steps as babies to universal design and social infrastructure *A Walking Life* shows exactly how walking is essential how deeply reliant our brains and bodies are on this simple pedestrian act and how we can reclaim it

Nomadic Modernisms and Diasporic Journeys of Djuna Barnes and Jane Bowles Pavlina Radia, 2016-09-07 This book traces the artistic trajectories of Djuna Barnes and Jane Bowles examining their literary representations of the nomadic ethic pervading the twentieth-century expatriate movements in and out of America The book argues that these authors contribute to the nomadic aesthetic of American modernism its pastoral ideographies post-colonial ecologies as well as regional and transcultural varieties Mapping the pastoral moment in different temporalities and spaces Barnes representing the 1920s expatriation in Europe while Bowles comments on the 1940s exodus to Mexico and North Africa this book suggests that Barnes and Bowles counter the critical trend associating American modernity primarily with urban spaces and instead locate the nomadic thrust of their times in the post-colonial history of the American frontier

Documenting the American Student Abroad Kelly Hankin, 2021-01-15 1 in 10 undergraduates in the US will study abroad Extolled by students as personally transformative and celebrated in academia for fostering cross-cultural understanding study abroad is also promoted by the US government as a form of cultural diplomacy and a bridge to future participation in the global marketplace In *Documenting the American Student Abroad* Kelly Hankin explores the documentary media cultures that shape these beliefs drawing our attention to the broad range of stakeholders and documentary modes involved in defining the core values and practices of study abroad From study abroad video contests and a F B I produced docudrama about student espionage to reality television inspired

educational documentaries and docudramas about Amanda Knox Hankin shows how the institutional values of global citizenship intercultural communication and cultural immersion emerge in contradictory ways through their representation By bringing study abroad and media studies into conversation with one another Documenting the American Student Abroad The Media Cultures of International Education offers a much needed humanist contribution to the field of international education as well as a unique approach to the growing scholarship on the intersection of media and institutions As study abroad practitioners and students increase their engagement with moving images and digital environments the insights of media scholars are essential for helping the field understand how the mediation of study abroad rhetoric shapes rather than reflects the field s central institutional ideals

accompanied by a series of short engaging essays on the many dimensions of walking **Born to Walk** Dan Rubinstein, 2015-04-01 The case for getting back on our feet The humble act of putting one foot in front of the other transcends age geography culture and class and is one of the most economical and environmentally responsible modes of transit Yet with our modern fixation on speed this healthy pedestrian activity has been largely left behind At a personal and professional crossroads writer editor and obsessive walker Dan Rubinstein travelled throughout the U S U K and Canada to walk with people who saw the act not only as a form of transportation and recreation but also as a path to a better world There are no magic bullet solutions to modern epidemics like obesity anxiety alienation and climate change But what if there is a simple way to take a step in the right direction Combining fascinating reportage eye opening research and Rubinstein's own discoveries **Born to Walk** explores how far this ancient habit can take us how much repair is within range and guarantees that you'll never again take walking for granted **Parallax** Igor Cassar, Mark Dawson, Eve Kalyva, 2020-08-13 This book presents themed issues to provoke exploratory interdisciplinary thinking and response It provides a forum for a wide spectrum of perspectives on a topical question or concern The book will be of interest to those working in cultural studies critical theory and cultural history **Walking in Cities** Evrick Brown, Timothy Shortell, 2016 Walking connects the rhythms of urban life to the configuration of urban spaces As the contributors and editors show in **Walking in Cities** walking also reflects the systematic inequalities that order contemporary urban life Walking has different meanings because it can be a way of temporarily taking possession of urban space or it can make the relatively powerless more vulnerable to crime The essays in **Walking in Cities** explore how walking intersects with sociological dimensions such as gender race and ethnicity social class and power Various chapters explore the flâneur or female urban drifter in Tehran's shopping malls Hispanic neighborhoods in New York San Diego and El Paso and the intra neighborhood and inter class dynamics of gentrification in Greenpoint Brooklyn The essays in **Walking in Cities** provide important lessons about urban life **Walking in the European City** Timothy Shortell, Evrick Brown, 2016-02-24 Sociologists have long noted that dynamism is an essential part of the urban way of life However walking as a significant social activity and crucial research method in spite of its ubiquity as part of urban life has often been overlooked This volume considers walking in the city from a variety of perspectives in a variety of places and with a variety of methods to engage with the question of how walking can contribute to the sociological imagination and reveal sociological knowledge Bringing together new research on sites across Europe **Walking in the European City** addresses the nature of everyday mobility in contemporary urban settings shedding light not only on the ways in which walking relates to other social institutions and practices but also as a method for studying urban life With attention to intersections of race and ethnicity gender and class as well as the manner in which processes of gentrification transform urban space this book examines questions of access to public places exploring the ways in which urban dwellers use of and relation to neighbourhood spaces are shaped by inequalities of status and power As such it will appeal to scholars of

sociology geography and anthropology with interests in urban studies mobility and research methods Wanderlust
