Yes There Is Hell, Evil, Karma Samael Aun Weor, 2015-12-03 **Yes There Is Hell Evil Karma The Buddhist Catechism** Henry Steel Olcott, 1915 **Pastimes of the Unseen** Dean Vyas, 2013 There are forces around us good and evil that have total involvement in our lives and yet we have no knowledge of them These forces from a realm of spirit are helping or damning us simultaneously from the present day to far into the future the line of the Priest family from generation to generation are siding with the forces of good But what will be the outcome of this allegiance with these forces Will their beliefs and actions be futile or efficacious in the greater scheme of things Similarly the progress of humanity is split some venerating the benevolent forces while a faction veers away into the hands of those evil and these two aspects of the human race are in conflict the Priests therefore are also embroiled Wars result and consequentially a renegade portion of humanity becomes a breed of cold monsters half machine They enact a final war But who will emerge triumphant Whose philosophy is right whose is wrong and what to speak of the far reaching consequences for the spirit of these antagonistic facets of humanity the humble Priests find themselves implicated they are to play a vital role in the evolution of humanity and an oppressed race enslaved by the cyborgs where interstellar space travel the terraforming of planets and extreme genetic engineering become possible where events of Biblical magnitude take place *Pastimes of the Unseen* is a story describing those forces around us invisible that are vying for our very body and soul wanting to destroy it or glorify it and the consequence of our relationship to one or other of these forces *Of the Devil?* Gilligan Milligan, 2020-09-02 Book Delisted

Jones,MR David Jones,2007-08 Buddha Nature and Animality is about peaceful living In discussions about the relation between humans and their animal relatives a central theme is that Buddhism represents the most viable philosophical religious alternative to the malaise surrounding us when we confront ecological problems This recognition points to the notion of compassion The author seeks beyond the limits imposed by discourses of ethics and assumes a more radical approach to seek the roots of the perspectives that allow the conceptual space for the problematic dialogues in the first place Rather than viewing animals as distinct beings sharing our environs the author attempts to give the animals soul back to spirituality Ringling True Robert Morrow,2010-11-29 It is the summer of 2005 the year of fear and loathing in America Seattle resident Justin Raines wants to do something about the deplorable state of the human race When his friend Shelby

The Soul and Secrets of Its Structure Larisa Seklitova, Ludmila Strelnikova, 2011-04-04 Since ancient times people have known about existence of the soul Every present religion on the Earth acknowledges that the man has it and all religions confirm that the soul is immortal and its loss is equal to death People offer prayers about salvation of their souls as the greatest value Many religions accept the reincarnation theory i e incarnating of the soul when the soul leaves human body after death and moves to newly born human body to proceed its development Thus what is the soul and whats the structure Our Heavenly Teachers have decided that it is time to give the humanity of third millennium new knowledge about the soul as people of sixth race who will live on the Earth in this period of time will be able to accept and understand these revealed truths This book is devoted to this topic New knowledge about the soul is shown up with care not to shock by the avalanche of new concepts For the first time they revealed that the soul is not only the eddy of invisible spirit but it has like the human body its own structure The first chapter of the book is about the structure of the soul Creation of Soul Jesus Christ says in the Bible In my Fathers house there are many rooms This means there are many inhabited worlds in the Cosmos Souls for these worlds are created by God himself and his aides special Hierarchical Systems It takes 9 cosmic years to create one soul One cosmic year is approximately equal to 1 billion earthly years because time of God and time on the Earth flies differently God creates the soul and makes it spiritual The only God governs the Great Secret of vivification Without vivification there cannot be life as well When we asked God What is the soul He answered The soul is the integral part of the Absolute Many souls are sort of its interior filling They are its main Units like cells in your body All souls piece out the huge nature of the Absolute and God Structure of Soul The Soul is the complex energetical construction It is a volumetric favose structure matrix where one volume enters another and all are merged Cells of the matrix are completely digits which carry out energy Total volume of the soul is called

configuration Types of soul configurations vary greatly The self construction principle is laid in the matrix Every soul while developing builds its configuration basing on energetical volumes which fill up cells of the matrix Qualitative and quantitative composition is different within all matrices That is the reason why there are no two absolutely similar souls The matrix is of great importance for every individual because a personality is not personality without it Individual ceases existing without the matrix as an inspired creation The soul is triune It consists of 3 principles plus minus and managerial When a soul has just been created all these three principles are equal and every part occupies 1/3 of total matrix volume In the course of development the balance between its parts constantly changes although if the managerial part reaches half the volume it maintains this balance This is a program of soul construction Soul Development Development and improvement of soul in everyday life consist in acquisition of life experience new knowledge evolving feelings and intellect but on energetical plane it is enlargement of own energetical potential The sense of life and any existence in any world is development of soul There are only two ways of soul development for the man plus direction to God and minus one to Devil Ways of virtue creativity development through medicine and additionally way of computation and programming connected with creativity lead to God Ways of evil degradation automatism and programming without creativity principle lead to Devil Development of soul in any world is based on a program Program of development is drawn up per one incarnation in the material body It is saved on one of hum
