York Ycal Manual:

New Critical Nostalgia Christopher Rovee, 2024-01-02 New Critical Nostalgia weighs the future of literary study by reassessing its past. It tracks today's impassioned debates about method back to the discipline's early professional era when an unprecedented makeover of American higher education with far-reaching social consequences resulted in what we might call our first crisis of academic life. Rovee probes literary study's nostalgic attachments to this past by recasting an essential episode in the historiography of English: the vigorous rejection of romanticism by American New Critics in the new light of the American university's tectonic growth. In the process, he demonstrates literary study's profound investment in romanticism and reveals the romantic lyric's special affect nostalgia as having been part of English's professional identity all along. New Critical Nostalgia meticulously shows what is lost in reducing mid-century American criticism and the intense quirky and unpredictable writings of central figures such as Cleanth Brooks, Josephine Miles, and W. K. Wimsatt to a glib monolith of New Critical anti-romanticism. In Rovee's historically rich account grounded in analysis of critical texts and enlivened by archival study, readers discover John Crowe Ransom's and William Wordsworth's shared existential nostalgia, witness the demolition of the immature Percy Shelley in the revolutionary textbook *Understanding Poetry*, explore the classroom give and take prompted by the close reading of John Keats, consider the strange ambivalence toward Lord Byron on the part of formalist critics and romantic scholars alike, and encounter the strikingly contemporary quantitative studies by one of the mid-century's preeminent poetry scholars, Josephine Miles. These complex and enthralling engagements with the romantic lyric introduce the reader to a dynamic intellectual milieu in which professionals with varying methodological commitments, from New Critics to computationalists working in radically different academic locales from Nashville and New Haven to Baton Rouge and Berkeley, wrangled over what it means to read with nothing less than the future of the discipline at stake.

Moody's Manual of Investments, American and Foreign, **Letters** William C. Bryant, 1992

Twenty-First Century Marianne Moore Elizabeth Gregory, Stacy Carson Hubbard, 2017-12-07 This collection represents a new range of critical awareness and marks the burgeoning of what is a twenty-first-century Marianne Moore renaissance. The essays explore Moore's participation in modernist movements and communities, her impact on subsequent generations of artists, and the dynamics of her largely disregarded post-World War II career. At the same time, they track the intersection of the evolution of her poetics with cultural politics across her career. Drawing on fresh perspectives from previously unknown biographical material and new editions and archives of Moore's work, the essays offer particularly interesting insights on Moore's relationships and her late-career role as a culture icon.

Curious Disciplines Sarah Hayden, 2018-04-15

Foregrounding Loy's critical interrogation of Futurist, Dadaist, Surrealist, and Degenerate art, and exploring her poetic legacies today, *Curious Disciplines* reveals Loy's importance in an entirely novel way.

The Buddha in the Machine R. John Williams, 2014-06-24 The writers and artists described in this book are joined by a desire to embrace Eastern aesthetics.

as a means of redeeming Western technoculture The assumption they all share is that at the core of modern Western culture there lies an originary and all encompassing philosophical error and that Asian art offers a way out of that awful matrix That desire this book attempts to demonstrate has informed Anglo and even Asian American debates about technology and art since the late nineteenth century and continues to skew our responses to our own technocultural environment **Georgia O'Keeffe** Elizabeth Hutton Turner, Georgia O'Keeffe, Marjorie P.
