My Home Is Where My Heart Is Edith Gross Prigge, 2018-03-05 My Home is Where My Heart Is and my heart is right here in the Northwoods of Wisconsin Yet part of me will always belong to the old country since two of my kids and their families still live in Switzerland I am remarried now and also have four stepchildren and five step grandchildren All together we have eight kids now and four of them live within sixty miles from us How much better could I have it Some of my great grandkids live in the area too and so we can also be part of their lives But being retired gave us the time to visit the others more often Dennis Prigge and I were married in July 2002 He lived in Missouri and I was here in the Northwoods At first I thought I would move to be with him after I retired Then one day Dennis asked me What would you say if we stay right here in Wisconsin He said I lit up like a Christmas tree Oh yes I would like to stay right here where I have lots of family and friends So in November 2002 we bought this little log cabin I retired in February 2004 and now we have the rest of our lives to remodel our little log cabin in the woods It is still a work in progress But I now can sit back and enjoy the last years of my life however many it will be My heart has finally found peace and happiness *Phishing for Phools* George A. Akerlof, Robert J. Shiller, 2016-08-16 Why the free market system encourages so much trickery even as it creates so much good Ever since Adam Smith the central teaching of economics has been that free markets provide us with material well being as if by an invisible hand In *Phishing for Phools* Nobel Prize winning economists George Akerlof and Robert Shiller deliver a fundamental challenge to this insight arguing that markets harm as well as help us As long as there is profit to be made sellers will systematically exploit our psychological weaknesses and our ignorance through manipulation and deception Rather than being essentially benign and always creating the greater good markets are inherently filled with tricks and traps and will phish us as phools *Phishing for Phools* therefore strikes a radically new direction in economics based on the intuitive idea that markets both give and take away Akerlof and Shiller bring this idea to life through dozens of stories that show how phishing affects everyone in almost every walk of life We spend our money up to the limit and then worry about how to pay the next month's bills The financial system soars then crashes We are attracted more than we know by advertising Our

political system is distorted by money We pay too much for gym memberships cars houses and credit cards Drug companies ingeniously market pharmaceuticals that do us little good and sometimes are downright dangerous Phishing for Phools explores the central role of manipulation and deception in fascinating detail in each of these areas and many more It thereby explains a paradox why at a time when we are better off than ever before in history all too many of us are leading lives of quiet desperation At the same time the book tells stories of individuals who have stood against economic trickery and how it can be reduced through greater knowledge reform and regulation
