Year Jubilee George Gissing:

In the Year of Jubilee George Gissing, 2024-01-02 George Gissing's classic novel *In the Year of Jubilee* centers on the lives of two sisters, Nancy and Jessica Lord, and vividly depicts late 19th-century English society. The novel, which takes place in the made-up town of Polchester, examines the sharp differences in the lives of the two sisters. The older sister, Nancy, is married to wealthy businessman Samuel Barmby and lives a traditional life. Nancy is comfortable in monetary terms but she yearns for something more significant and feels stuck in a loveless marriage. As the story progresses, Nancy and Jessica's lives unexpectedly cross paths, resulting in tense times as well as moments of self-discovery and reconciliation. The book provides a complex picture of Victorian England by delving into themes of class, gender, family, and social change via their experiences. *In the Year of Jubilee* explores the intricacies of interpersonal relationships and the pursuit of personal fulfillment in an insightful and poignant story. Readers are still enthralled and provoked to debate by George Gissing's perceptive observations on the social and cultural dynamics of his day.

In the Year of Jubilee, by George Gissing a Novel New Edition George Gissing, 2016-06-18 *In the Year of Jubilee* is the thirteenth novel by English author George Gissing. First published in 1894, in the summer of 1893 Gissing returned to London after living for two years in Exeter and took lodgings with his second wife at 76 Burton Road, Brixton. He realised that in South London there was a new territory open to a novelist's exploitation. From Burton Road he went for long walks through nearby Camberwell, soaking up impressions of the way of life he saw emerging there. This led him to writing *In the Year of Jubilee*, the story of the romantic and sexual initiation of a suburban heroine, Nancy Lord. Gissing originally called his novel *Miss Lord of Camberwell*. George Robert Gissing (22 November 1857 – 28 December 1903) was an English novelist who published 23 novels between 1880 and 1903. Gissing also worked as a teacher and tutor throughout his life. He published his first novel, *Workers in the Dawn*, in 1880. His best-known novels, which are published in modern editions, include *The Nether World* (1889), *New Grub Street* (1891), and *The Odd Women* (1893). Gissing was born on 22 November 1857 in Wakefield, Yorkshire, the eldest of five children of Thomas Waller Gissing, who ran a chemist's shop, and Margaret nee Bedford. His siblings were William, who died aged twenty; Algernon, who became a writer; Margaret; and Ellen. His childhood home in Thompson's Yard, Wakefield, is maintained by The Gissing Trust. Gissing was educated at Back Lane School in Wakefield. His serious interest in books began at the age of ten when he read *The Old Curiosity Shop* by Charles Dickens and was subsequently encouraged by his father and inspired by the family library. His literary interest grew. *Juvenilia*, written at this time, was published in 1995 in *The Poetry of George Gissing*. He was also skilled at drawing. Gissing's father died when he was 12 years old, and he and his brothers were sent to Lindow Grove School at Alderley Edge in Cheshire, where he was a solitary student who studied hard. In 1872, after an exceptional performance in the Oxford Local Examinations, Gissing won a scholarship to Owens College, forerunner of the University of Manchester. There he remained solitary, continued his intense studies, and won many prizes, including the Poem Prize in 1873 and the Shakespeare

scholarship in 1875 Gissing's academic career ended in disgrace when he fell in love with a young woman Marianne Helen Harrison known as Nell. She is often described as a prostitute but there is no evidence for this. It is reported that he gave her money in an attempt to keep her off the streets but again there is no evidence. What is known is that when he ran short of money he stole from his fellow students. The college hired a detective to investigate the thefts and Gissing was prosecuted, found guilty, expelled and sentenced to a month's hard labour in Belle Vue Gaol, Manchester in 1876. Gissing's early novels were not well received but he achieved greater recognition in the 1890s both in

England and overseas The increase in popularity was linked not just to his novels but to the short stories he wrote in this period and his friendships with influential and respected literary figures such as the journalist Henry Norman author J M Barrie and writer and critic Edmund Gosse By the end of the 19th century critics placed him alongside Thomas Hardy and George Meredith as one of the three leading novelists in England Sir William Robertson Nicoll described Gissing as one of the most original daring and conscientious workers in fiction Chesterton called him the soundest of the Dickens critics a man of genius George Orwell was an admirer and in a 1943 Tribune article called Gissing perhaps the best novelist England has produced He believed his real masterpieces were the three novels *The Odd Women* *Demos* and *New Grub Street* and his book on Dickens The central theme can be stated in three words not enough money

George Gissing: In the Year of Jubilee , Mitsuharu Matsuoka presents the full text of *In the Year of Jubilee* a book by English novelist George Robert Gissing 1857 1903 The book was published in 1894 **The Twentieth-Century World of Henry James** Adeline R. Tintner, 2000-05-01 Conventional analyses of Henry James conclude with the completed novels of the major phase and the revisions of the New York Edition 1907 1909 However James lived on to write vigorously for nearly a decade longer In this compelling study Adeline R Tintner perhaps the foremost living James scholar focuses her expertise on the writer's final years exploring how his work developed and how his ideas changed in response to events in the twentieth century As Tintner illustrates despite his age and the long career behind him James heralded in his later works the modernism that would be most fully represented by Joyce Eliot and Proust The twentieth century came to life for James during his long delayed visit to America in 1904 and 1905 This trip resulted in his critical look

at his native country *The American Scene* 1907 a book Tintner argues is only now beginning to be appreciated The trip also revitalized his review of his body of work in the famed New York Edition Tintner explores James's revisions of his earlier novels especially of Roderick Hudson *The American* and most important the retouched *Portrait of a Lady* in which he refined Isabel Archer's aesthetic tastes to match his own She also reads James's late autobiographical writings as a form of experimental fiction that would be the hallmark of twentieth century modernism Indeed Tintner explains that James's final writings demonstrate how he thoroughly embraced the new century and anticipated several of the chief ideas that would dominate modern literature He reacted to the new economy and to the preoccupation with money in his unfinished novel *The Ivory Tower* explored the idea of the interaction between historical time and the present with his uncompleted *The Sense of the Past* and expressed concern with the deprivation of culture among the lower middle classes The flying machine the cinematograph and the Kodak entered his twentieth century vocabulary and he parodied his own usurping consciousness in his *Monologue for Ruth Draper* James even relaxed his treatment of sexuality as is apparent in his suggestion of autoeroticism in *The Figure in the Carpet* and in what seems to be a description of the gay scene in *The Sacred Fount* He became a propagandist during World War I devoting the end of his career to urging American entry into the conflict His last published writings before he died of a stroke on February 28 1916 were emotional tributes to casualties of the war A fitting finale to Tintner's five astonishing works on the world of Henry James *The Twentieth Century World of Henry James* will stand as one of the most significant volumes on the writer's last years Through an amazing excavation of James's life and work Tintner uncovers many of the modernist themes that preoccupied him as he entered the new century and that in turn were to preoccupy many of the writers who came to maturity in the first half of the twentieth century

Dress and Identity in British Literary Culture, 1870-1914 Rosy Aindow, 2016-12-05 Rosy Aindow examines the way fiction registered and responded to the emergence of a modern fashion industry during the period 1870-1914 She traces the role played by dress in the formation of literary identities with specific attention to the way that an engagement with fashionable clothing was understood to be a means of class emulation The expansion of the fashion industry in the second half of the nineteenth century is generally considered to have had a significant impact on the way in which lower income groups in particular encountered clothing many were able to participate in fashionable consumption for the first time Remaining alert to the historical specificity of these events this study argues that the cultural perception of the expansion of the industry namely a predominantly bourgeois fear that it would result in a democratisation in dress had a profound effect on the way in which fashion was approached by contemporary writers Drawing on existing cultural analogies that associated fashion with women and artifice it concludes that women were particularly implicated in fictional accounts of class mobility This transgression applied not only to women who wore fashionable clothing but to those working in the fashion industry itself An allusion to fashion has a socio specific meaning one which gained a new potency in late nineteenth and early twentieth century
