

Follow these steps to draw young Anakin Skywalker. Remember to start by sketching with loose, light lines; add details and darker lines as you progress.

1) Draw a circle for the top part and a rectangle with a wide triangle below for the lower half of his head. Draw a vertical line down the middle and horizontal lines to show where his eyes, nose, and mouth will go.

2) Lightly sketch the lines of his upper torso. Various lines indicate his spine, collarbone and arms; the small circles show the balls and joints of his shoulders, elbows, and hands.

3) Sketch his lower body; add circles for knees. Make his back leg shorter to show that his body is twisted.

4) Give the figure more shape and muscle tone by fleshing it out.

5) Lightly sketch in the Jedi robe, belt, boots, lightsaber, and finer facial attributes. Erase the lines you initially used as guides. Darken other lines to add contour and depth.

6) Finally, add shading. This technique (discussed on page 22) takes a lot of practice so don't worry if it doesn't look like this illustration. Just give it a go!
