Tourism History Swaziland Culture Tradition:

A History of Tourism in Africa Todd Cleveland, 2021-02-23 An engaging social history of foreign tourists dreams the African tourism industry's efforts to fulfill them and how both sides affect each other Since the nineteenth century foreign tourists and resident tourism workers in Africa have mutually relied upon notions of exoticism but from vastly different perspectives Many of the countless tourists who have traveled to the African continent fail to acknowledge or even realize that skilled African artists in the tourist industry repeatedly manufacture authentic experiences in order to fulfill foreigners often delusional or at least uninformed expectations These carefully nurtured and controlled performances typically reinforce tourists reductive impressions formed over centuries of the continent its peoples and even its wildlife In turn once back in their respective homelands tourists accounts of their travels often substantiate and thereby reinforce prevailing stereotypes of exotic Africa Meanwhile Africans staged performances not only impact their own lives primarily by generating remunerative opportunities but also subject the continent's residents to objectification exoticization and myriad forms of exploitation

Tourism, Tradition and Culture David Harrison, 2020-11-18 David Harrison has contributed to the academic study of tourism over the last 30 years This book brings together a collection of his published material that reflects the role played by tourism in development both in societies emerging from Western colonialism and in societies previously part of the Soviet system The overarching theme looks at how promoted as a tool for development tourism can lead to conflict between competing elites but can also empower groups previously subject to constraint by traditional authorities Tradition is intensely manipulatable and always reflects power relations Such pressure on tradition is but one aspect of tourism's wider social impacts This includes changes in economic and social structure which for many constitute social problems that need to be addressed At the same time sustainability though apparently a worthy aim can be a problematic concept especially when applied to traditional cultures and may conflict with such ideals as egalitarianism
