Creating Sustainable Communities Rik Scarce, 2015-02-23

Explores efforts aimed at creating sustainable communities throughout the Hudson River region From Mount Marcy to Manhattan and beyond the Hudson River region has become an incubator for rich and varied experiments in sustainable living In this fascinating book Rik Scarce showcases some of these efforts by telling the stories of dynamic individuals and organizations that are remaking the region s landscape through ecosystem stewardship nurturing agricultural practices and urban renewal for the twenty first century along with those promoting creative land use planning richly functioning communities and green businesses Together their achievements point to the potential for other areas of the country to forge sustainable futures and also remind us of the sobering realities and daunting challenges that await us as we attempt to remake our relationships with the planet and with each other Powerful massively inspiring stories from one of the loveliest spots on the planet this is the new Hudson River School and we all should be taking notes Bill McKibben author of Deep Economy The Wealth of Communities and the Durable Future Unlike the bulk of environmental writing from the post World War II era dominated as it is by dystopian works and pessimistic predictions this book offers hope We meet good people doing good things and doing them effectively as models for others to imitate Mark Hamilton Lytle author of The Gentle Subversive Rachel Carson Silent Spring and the Rise of the Environmental Movement

Urban Sustainability Ann Dale, William Dushenko, Pamela J. Robinson, 2012-09-24 Given ongoing concerns about global climate change and its impacts on cities the need for sustainable planning has never been greater This book explores concrete ways to achieve urban sustainability based on integrated planning policy development and decision making Urban Sustainability is the first book to

provide an applied interdisciplinary perspective on the challenges and opportunities that lay ahead in this area Bringing together researchers and practitioners to explore leading innovations on the ground this volume combines the theoretical underpinnings of urban sustainability with current practices through highly readable narrative case studies The contributors also provide fresh perspectives on how issues related to sustainable urban planning and development can be reconciled through collaborative partnerships and engagement processes

Emerging Perspectives on Anti-oppressive Practice Canadian Association of Schools of Social Work. Meeting, Wes Shera, 2003 This book consists of 27 chapters developed from papers originally delivered at a recent conference at the University of Toronto on anti oppressive practice in social work Dr Shera has gathered expert contributors to discuss define and analyse theories of social work practice pedagogical issues fieldwork practice models of education of social work practitioners and current critical issues These selected conference papers lay the groundwork for anti oppressive practice in a way that will generate discussion and inspire researchers and practitioners

Urban Affairs Caroline Andrew, Katherine A. Graham, Susan D. Phillips, 2002 Issues of urban policy are increasingly complex and important Whether considered from a social demographic or economic perspective Canada is overwhelmingly an urban nation and healthy prosperous cities are the key to its well being What then is our national policy toward urban affairs In Urban Affairs leading experts in a variety of disciplines explore this question

Recovering Resources - Recycling Citizenship Jutta Gutberlet, 2016-04-08 Environmental awareness and social mobilization is a growing issue in Latin America This book discusses how co operative recycling practices have been increasingly used as a strategy to contest both the waste problem and urban poverty Selective waste collection and sorting materials out of the garbage stream has become a widespread survival strategy for the economically excluded population While severe and chronic occupational health problems and risks are very common among the recycling workers thousands of people exclusively depend on accessing these resources By examining experiences from Brazil and other Latin American countries this book questions what can be done to improve the environment and livelihoods for these excluded citizens examines the specific health and risk implications and looks at the many innovative recycling co ops and associations which have recently emerged creating an exciting new form of solidarity economy In doing so it uncovers the landscapes of despair populated by the urban marginalized but also the landscapes of hope where solidarity and collaboration make a pathway to a better way of life

Just Sustainabilities Julian Agyeman, Robert Doyle Bullard, Bob Evans, 2003 An examination of the links between environmental sustainability and human equality and the implications for domestic and international policy

Reshaping Regional Planning Brita Olerup, 2017-11-30 This title was first published in 2002 Uniting scholars from across the full range of social sciences this distinctive volume provides a unique overview of northern European planning It examines all the key issues as well as the evolution traditions current innovations and future developments in the field of planning Focusing on how planning impacts upon social issues such as employment social exclusion and quality of life the volume also looks at

innovations in planning policy and practice in particular the challenge of sustainability The contributors analyze the built environment's relationship with culture and take a critical look at the creative rethinking currently taking place in Nordic planning

Life Rules Ellen LaConte, 2012-10-16 Analyzes the effects of corporate capitalism on the environment and suggests making changes in the way of local self reliance resource conservation and mutual interdependence as solutions to the problem

The Ecology of Learning John Blewitt, 2010-09-23 Your house is flooded by unseasonal heavy rain What do you learn from this experience Do you shrug your shoulders and call your insurer Or do you choose to learn about climate change switch to renewable energy and lobby politicians In this insightful book John Blewitt explores the possibilities for developing a sustainable society through lifelong learning that is learning that happens in everyday environments and activities as diverse as shopping community edutainment information and communication technology the internet broadcasting people's experience of place and space green building social networks and consumer culture Drawing on a range of sociological anthropological and educational studies as well as new research *The Ecology of Learning* is ideal for educators teachers corporate trainers and consultants working to integrate environmental education sustainability and innovation in non traditional learning situations The coverage is extensive with an accessible but informed engagement with both theory and practice and a wide range of examples Throughout the voices stories and experiences of many people are used to illustrate the ways people may reshape our understanding of learning and sustainability

Introduction to Residential Layout Mike Biddulph, 2007-03-30 *Introduction to Residential Layout* is ideal for students and practitioners of urban design planning engineering architecture and landscape seeking a comprehensive guide to the theory and practice of designing and laying out residential areas Mike Biddulph provides a clear and coherent framework from which he offers comprehensive practical advice for designers of housing developments Referring to a wealth of international examples this is a richly illustrated accessible resource covering the whole range of issues that should be considered by anyone engaging in the planning and design of a new residential scheme A successful residential development must work on many levels financial social and environmental This book includes analysis of commercial viability the importance of place making environmental sustainability and designing accessibility Mike Biddulph details successful approaches to designing out crime and maximising permeability as part of an integrated approach to urban design Highly illustrated throughout this work will show you how to turn design aspirations and principles into practical design solutions Written without preconceptions *Introduction to Residential Design* highlights the strengths and weaknesses of particular design solutions to encourage both depth of thought and creativity Mike Biddulph is Senior Lecturer in Urban Design at Cardiff University
