diverse market. However, without the existence of good corporate governance in these economies, small enterprise will cease to exist in developing countries. *Corporate Governance Models and Applications in Developing Economies* is a collection of innovative research that contributes to the better understanding of corporate governance models by documenting the structures, principles, tenets, case studies, and applications for the development of good business practices in developing economies. While highlighting topics including risk management, financial distress, and insider trading, this book is ideally designed for corporate managers, executives, economists, strategists, investors, shareholders, students, researchers, academicians, business professionals, and policymakers.

Handbook of Research on Connecting Philosophy, Media, and Development in Developing Countries Okocha, Desmond Onyemehi, Onobe, Melchizedec J., Alike, Mirian Ngozi, 2022-05-13. Developing nations have been experimenting with different models and theories in their quest for development for decades but are missing some critical elements when mirrored or judged via a Westernized lens. In order for these countries to successfully establish their identity and address issues that have held them back in the past, further study on the use of media and philosophy in correlation with development must be conducted. *The Handbook of Research on Connecting Philosophy, Media, and Development in Developing Countries* examines how media can be utilized to bridge the gap between the past and the future for developing countries and drive sustainable development. The book also seeks to reimagine development within developing regions through the prism of their unique cultures, religions, media, and philosophies so they can take hold of their identity and portrayals within the international arena. Covering topics such as human development, new media, language, and culture, this major reference work is ideal for government officials, policymakers, scholars, researchers, academicians, practitioners, instructors, and students.

A Proposal for the Re-founding of Nigeria 'Emeka O. Cyprian Nwagwu, 2006. This book covers the modalities and strategies of the re-founding of Nigeria relative to the political, socioeconomic, and leadership challenges facing Nigeria and its prospects for rebirth in the twenty-first century. It explores the idea that the African State can be re-founded conditional on its ability to learn from its history and that changes to the state can be made before significant political, economic, and social development can take place.

Workplace Rats Michael Owhoko (Ph.D), Do you know an unsuspecting employee or executive in your organization may be a thief and involved in unethical practices? Business failures are often linked to poor business model and financial management. These may be contributory, but stealing perpetrated through fraud is the major cause. Some employees and executives within the lowest and highest rung of organizational ladder are pilfers. They exploit any cavity within the system to generate unearned income for selfish ends. They are called Workplace Rats in this book. Their actions are likened to rats because they leave in their trail loss of valuables resulting in most times to bankruptcy or business closure. These dubious characters are also found among entrepreneurs, business executives, politicians, and top government functionaries. This book is therefore an exposition of methods deployed by Workplace rats and how organisations can prevent them from executing
