Towards Better Person H F:

Freedom and Negativity in Beckett and Adorno Natalie Leeder, 2017-05-04 Since his notorious 1961 lecture *Trying to Understand Endgame* Theodor W Adorno's name has been frequently coupled with that of Samuel Beckett This book offers a radical reappraisal of the intellectual affinities between these two figures whose paths crossed all too fleetingly Specifically the book argues for a preoccupation with the concept of freedom in Beckett's works one which situates him as a profoundly radical and even political writer Adorno's own more explicit reconceptualization of freedom and its scarcity in modernity offers a unique lens through which to examine the way Beckett's works preserve a minimal space of freedom that acts in opposition to an unfree social totality While acknowledging both the biographical encounters between Adorno and Beckett and the influence Beckett's writings had on Adorno's aesthetics Natalie Leeder goes further to establish a dialogue between their intellectual positions working with a range of texts from both writers and seeking insight in Adorno's less familiar works as well as his magnum opera *Aesthetic Theory* and *Negative Dialectics*

Doing Public Good? R. Pablo Guerrero O., 2017-07-05 This book examines the contributions of non public organizations such as foundations philanthropies charities non governmental organizations private businesses and entrepreneurs to public goods and services Too often the impact of the contributions of such private actors are overlooked However they are playing an increasing role in meeting societal needs across the developing world *Doing Public Good* lays out key elements that need to be considered in evaluating the net results achieved by these private actors It uses case studies and analysis to show how to answer such questions as Is it working How do they and the public know they are doing good And how to improve Such questions are particularly important since little is known about the net results of private avenues for delivering public value The contributors conclude that doing good organizations need to be more transparent and accountable regarding their operations and achievements The book suggests perspectives on how better monitoring and evaluation systems can improve their accountability
