Life After Cars Sarah Goodyear, Doug Gordon, Aaron Naparstek, 2025-10-21 NATIONAL BESTSELLER From the hosts of The War on Cars podcast a searing indictment of how cars ruin everything and what we can do to fight back When the very first cars rolled off production lines they were a technological marvel predicted to make life easier and better for all Americans yet a hundred years later that dream is running on empty Instead of unbounded freedom the never ending proliferation of automobiles has delivered a host of costs among them the demolition of our neighborhoods towns and cities to make way for car infrastructure an epidemic of violent death countless hours lost in traffic isolation from our fellow human beings and the ongoing destruction of the natural world Globally SUVs alone now emit more carbon than the nations of Germany South Korea or Japan That s why we need Life After Cars Through historical records revealing interviews and unflinching statistics Sarah Goodyear and Doug Gordon hosts of the podcast The War on Cars and former host Aaron Naparstek unpack the scale of damage that cars cause the forces that have created our current crisis and are invested in perpetuating it and the way that the fight for better transportation is deeply linked to the fight for a more equitable and just society Cars as we know them today are unsustainable but there is hope Life After Cars will arm readers with the tools they need to implement real transformative change from simply raising awareness to taking a stand at public forums It s past time to radically rethink and shrink society s collective relationship with the automobile Together let s create a better Life After Cars
