War Machines Of The Lost And The Damned:

The War Machines James Rouch, **Mugabe's War Machine** Paul Moorcraft, 2012-02-17 Mugabe's War Machine is the first full account of one man's military ambitions. It contains shocking stories of massacre and murder at home and powerful accounts of neighbouring wars and international intelligence intrigues. This revealing book tracks the rise of Robert Mugabe and decodes his psychology in the context of Zimbabwe's military history. His leadership of a guerrilla army against white rule explains how Mugabe continued to rule Zimbabwe as though he were still running an insurgency. Mugabe used military power: the armed forces, militias, police and the dreaded Central Intelligence Organization to enforce his will against a series of perceived enemies. Along with inflicting massacres in Matabeleland in the early 1980s, Mugabe's forces also fought a covert war against apartheid South Africa. A large army was sent to intervene in the civil war in Mozambique. After 1998 Zimbabwean troops engaged in the massive conflict in the Congo, dubbed Africa's First World War. Domestically, Mugabe crushed all his alleged opponents: from the Ndebele to white farmers, and then the media, judiciary, civic groups, churches, unions and homosexuals. The book recounts South African attempts to keep the current government of national unity alive despite the growing oppression. It also considers how Zimbabwe can be saved from its own self-destruction. Professor Paul Moorcraft is a prolific author and war correspondent who has served in the Rhodesian Zimbabwean Police and worked closely with the British Armed Forces. His book *The Rhodesian War: Pen and Sword* 2008 has been a huge success. The German War Machine in World War II David T. Zabecki, 2019-12-02 This invaluable resource offers students a comprehensive overview of the German war machine that overran much of Europe during World War II, with close to 300 entries on a variety of topics and a number of key primary source documents. This book provides everything the reader needs to know about the German war machine that developed into the potent armed force under Adolf Hitler. This expansive encyclopedia covers the period of the German Third Reich from January 1933 to the end of World War II in Europe in May 1945. Dozens of entries on key battles and military campaigns, military and political leaders, military and intelligence organizations, and social and political topics that shaped German military conduct during World War II are followed by an illuminating epilogue that outlines why Germany lost World War II. A documents section includes more than a dozen fascinating primary sources on such significant events as the Tripartite Pact among Germany, Italy, and Japan, the Battle of Stalingrad, the Normandy Invasion, the Ardennes Offensive, and Germany's surrender. In addition, six appendices provide detailed information on a variety of topics such as German aces, military commanders, and military medals and decorations. The book ends with a chronology and a bibliography of print resources. **The Cyborg and the Sorcerers/The Wizard and the War Machine (Wildside Double #5)** Lawrence Watt-Evans, 2010-09-01 In the tradition of the old Ace Doubles, two in one books flip one over to read the second title. Here is the fifth Wildside Double, the two-volume War Surplus series by Lawrence Watt-Evans: *The Cyborg and the Sorcerers* and *The Wizard and the War Machine*. THE CYBORG AND THE SORCERERS The cyborg code named Slant was

sent out as an Independent Reconnaissance Unit during an interstellar war between Earth and its colonies The fighting ended three hundred years ago but Slant's computer does not admit this he is compelled to carry on as if the war were still raging Then he comes across a planet where his sensors register gravitational anomalies The computer interprets these as enemy weapons research The local inhabitants call the anomalies magic THE WIZARD AND THE WAR MACHINE At the end of The Cyborg and the Sorcerers Sam Turner was making a life for himself on the planet Dest He thought he had left the long lost interstellar war between Earth and its rebellious colonies behind him forever Forever turned out to be eleven years That was how long it took for another Independent Reconnaissance Unit to respond to the distress call his ship had sent before it was destroyed And this one made his own berserk killer computer look sane *War Machine* Andy Remic, 2007-11-05 In a time of post Singularity and FTL travel the Helix War has raged across galaxies Ex soldier Keenan now works as a private investigator on a planet at the peaceful fringes of the Quad Gal Following the brutal death of his family he's run up hefty debts gained a bad reputation and become a heavy drinker When a prince from the Jervai Province offers him a case on a dangerous colony world in exchange for clues that may lead him to his family's murderer he accepts the job without hesitation However to have any chance of success he must gather together his old military unit a group who swore they'd never work together again
