American Christians and Islam Thomas S. Kidd, 2018-06-05 In the wake of the September 11 terrorist attacks many of America s Christian evangelicals have denounced Islam as a demonic and inherently violent religion provoking frustration among other Christian conservatives who

wish to present a more appealing message to the world's Muslims Yet as Thomas Kidd reveals in this sobering book the conflicted views expressed by today's evangelicals have deep roots in American history Tracing Islam's role in the popular imagination of American Christians from the colonial period to today Kidd demonstrates that Protestant evangelicals have viewed Islam as a global threat while also actively seeking to convert Muslims to the Christian faith since the nation's founding He shows how accounts of Mahometan despotism and lurid stories of European enslavement by Barbary pirates fueled early evangelicals' fears concerning Islam and describes the growing conservatism of American missions to Muslim lands up through the post World War II era Kidd exposes American Christians' anxieties about an internal Islamic threat from groups like the Nation of Islam in the 1960s and America's immigrant Muslim population today and he demonstrates why Islam has become central to evangelical end times narratives Pointing to many evangelicals' unwillingness to acknowledge Islam's theological commonalities with Christianity and their continued portrayal of Islam as an evil and false religion Kidd explains why Christians themselves are ironically to blame for the failure of evangelism in the Muslim world American Christians and Islam is essential reading for anyone seeking to understand the causes of the mounting tensions between Christians and Muslims today

The Next World War Grant R. Jeffrey, 2008-05-20 The first warning shots of WW III have already been fired The escalating terrorist attacks in the Middle East and in major cities in the West are not isolated acts of extremism They are the first warning shots fired in a coming world war For decades prophecy expert Grant R. Jeffrey has been analyzing geopolitical developments through the lenses of history, religion, and prophecy As current events unfold according to the prophecies of the Bible Jeffrey says Islamic extremists are preparing to attack Israel and conquer western civilization, destroying our freedom Drawing from firsthand interviews, intelligence reports, and ancient prophecy Jeffrey reveals Saddam Hussein's role in the 9/11 attack on America Where Iraq hid its Weapons of Mass Destruction How Russia and extreme Islam will launch World War III The Bible's prophecy of the destruction of extremist Islam How Israel will rebuild the Temple in Jerusalem With Grant Jeffrey's incisive and sometimes surprising analysis you can understand the hidden agenda and powerful players behind today's news headlines

[The Signature of God](#) Grant R. Jeffrey, 2009-01-21 The secret things belong unto the Lord our God but those things which are revealed belong unto us and to our children for ever that we may do all the words of this law Deuteronomy 29:29 This new expanded and completely documented edition of The Signature of God contains additional research and compelling documentation proving the Bible is inspired by God Remarkable new computer discoveries from the Bible Codes reveal astonishing details about the September 11 Islamic terrorist attack on America that were encoded in Hebrew text thousands of years ago Key topics include New Bible Codes reveal the details of September 11, 2001 terror attacks on the World Trade Center and Pentagon Historical documents confirm the supernatural darkness when Jesus was crucified Advanced scientific statements provide compelling evidence the Bible was inspired Incredibly modern medical statements prove that God inspired the Scriptures Hundreds of accurate

prophecies demonstrate the Bible is supernatural **The Signature of God, Revised Edition** Grant R. Jeffrey, 2010-07-20
YOU CAN BELIEVE THE BIBLE WITHOUT ANY DOUBT As American society becomes more secularized Christians need to know all the facts about the Bible Dr Grant R Jeffrey has spent decades researching history science archaeology medicine and prophecy finding that each discipline confirms the truth of Scripture This revised and updated edition of The Signature of God proves that the Bible is not only accurate in its spiritual claims but is completely reliable as well on matters of origins medicine history and science Historians of the ancient world as well as recent archaeological finds confirm the names of kings and kingdoms and the dates of wars and mass migrations mentioned in the Bible Recent breakthroughs in astronomy physics and medical science have shown that God s Word accurately described the universe and the processes of human life before scientific research caught up And hundreds of fulfilled prophecies show that God revealed the future to his prophets in order to undergird the faith of his people No matter how loudly the skeptics argue against Christian faith only one conclusion makes sense the Bible is God breathed You can believe every word every claim every prophecy and every miracle With no doubts Gods and Arms Kjell-Ake Nordquist, 2013-02-12 This book brings together a variety of perspectives on how religion can be related to violence and war both in a destructive and constructive way Religion can justify and mobilize violence even terrorism or guerilla wars just like political ideology But how is such a link between religion and violent behavior established in the first place How can we go further in understanding this possible connection between religion and war Is religious peace work just the flip side of religious support of war Or can peace work be informed by knowing about how religion promotes violence and war In the search for answers to the puzzle of religion and war it is easy to focus on conflict and war situations but maybe there is as much to learn from peace work as from war studies Therefore this book also analyses religious peace work from different contexts The multifaceted presence of religion in conflict situations whether justifying violence or promoting peace is illustrated in this book using a variety of situations in an enlightening panorama of one of today s most puzzling social connections religion and armed conflict Contributors include R Scott Appleby Goran Gunner Mariyahl Hoole Mark Juergensmeyer Anne Kubai Kjell Ake Nordquist Jehan Perera Jennifer Schirmer Nari Senanayake and Maria Smaberg *Culture of Conspiracy* Michael Barkun, 2003-11-07 What do UFO believers Christian millennialists and right wing conspiracy theorists have in common According to Michael Barkun in this fascinating yet disturbing book quite a lot It is well known that some Americans are obsessed with conspiracies The Kennedy assassination the Oklahoma City bombing and the 2001 terrorist attacks have all generated elaborate stories of hidden plots What is far less known is the extent to which conspiracist worldviews have recently become linked in strange and unpredictable ways with other fringe notions such as a belief in UFOs Nostradamus and the Illuminati Unraveling the extraordinary genealogies and permutations of these increasingly widespread ideas Barkun shows how this web of urban legends has spread among subcultures on the Internet and through mass media how a new style of conspiracy thinking has recently arisen and how this

phenomenon relates to larger changes in American culture This book written by a leading expert on the subject is the most comprehensive and authoritative examination of contemporary American conspiracism to date Barkun discusses a range of material involving inner earth caves government black helicopters alien abductions secret New World Order cabals and much more that few realize exists in our culture Looking closely at the manifestations of these ideas in a wide range of literature and source material from religious and political literature to New Age and UFO publications to popular culture phenomena such as The X Files and to websites radio programs and more Barkun finds that America is in the throes of an unrivaled period of millennial activity His book underscores the importance of understanding why this phenomenon is now spreading into more mainstream segments of American culture
