Washed In Blood Male Sacrifice Trauma And The Cinema:

Washed in Blood Claire Sisco King, 2011-11-25 Will Smith in I Am Legend Leonardo DiCaprio in Titanic Charlton Heston in just about everything Viewers of Hollywood action films are no doubt familiar with the sacrificial victim hero the male protagonist who nobly gives up his life so that others may be saved *Washed in Blood* argues that such sacrificial films are especially prominent in eras when the nation and American manhood is thought to be in crisis The sacrificial victim hero continually imperiled and frequently exhibiting classic symptoms of post traumatic stress disorder thus bears the trauma of the nation Claire Sisco King offers an in depth study of three prominent cycles of Hollywood films that follow the sacrificial narrative the early to mid 1970s the mid to late 1990s and the mid to late 2000s From Vietnam era disaster movies to post 9 11 apocalyptic thrillers she examines how each film represents traumatized American masculinity and national identity What she uncovers is a cinematic tendency to position straight white men as America's most valuable citizens and its noblest victims

Heightened Genre and Women's Filmmaking in Hollywood Mary Harrod, 2021-05-24 Despite the widely publicised prejudice faced by women in Hollywood since around 1990 a significant minority of female directors have been making commercially and culturally impactful films there across the full range of genres This book explores movies by filmmakers Amy Heckerling Nora Ephron Nancy Meyers Catherine Hardwicke Sofia Coppola Kimberly Peirce Kathryn Bigelow and Greta Gerwig including many which are still critically neglected or derided seeing them as offering a new understanding of genre filmmaking That is like many other contemporary films but in a striking proportion within the smaller set of mainstream movies by women this body of work revels in a heightened genre status that allows its authors to simultaneously address intellectual cinephilic pleasures and bodily emotive ones Arguing through close analysis that these films demonstrate the inseparability of such strategies of engagement in contemporary genre cinema *Heightened Genre* reclaims women's mainstream filmmaking for feminism through a recalibration of genre theory itself

Stars and Masculinities in Contemporary Italian Cinema C. O'Rawe, 2014-06-18 *Stars and Masculinities in Contemporary Italian Cinema* is the first book to explore contemporary male stars and cinematic constructions of masculinity in Italy Uniting star analysis with a detailed consideration of the masculinities that are dominating current Italian cinema the study addresses the supposed crisis of masculinity

Abstinence Cinema Casey Ryan Kelly, 2016-03-08 From the perspective of cultural conservatives Hollywood movies are cesspools of vice exposing impressionable viewers to pernicious sexually permissive messages Offering a groundbreaking study of Hollywood films produced since 2000 *Abstinence Cinema* comes to a very different conclusion finding echoes of the evangelical movement's abstinence only rhetoric in everything from *Easy A* to *Taken* Casey Ryan Kelly tracks the surprising sex negative turn that Hollywood films have taken associating premarital sex with shame and degradation while romanticizing traditional nuclear families courtship rituals and gender roles As he demonstrates these movies are particularly disempowering for young women concocting plots in which the decision to refrain

from sex until marriage is the young woman's primary source of agency and arbiter of moral worth. Locating these regressive sexual politics not only in expected sites like the Twilight films but surprising ones like the raunchy comedies of Judd Apatow, Kelly makes a compelling case that Hollywood films have taken a significant step backward in recent years. **Abstinence Cinema** offers close readings of movies from a wide spectrum of genres and it puts these films into conversation with rhetoric that has emerged in other arenas of American culture. Challenging assumptions that we are living in a more liberated era, the book sounds a warning bell about the powerful cultural forces that seek to demonize sexuality and curtail female sexual agency.

Emotion Pictures Lucy Fischer, 2022-11-07 This book investigates a group of exceptional films that single-mindedly consider one particular emotion, be it pity, lust, grief, or anxiety, to examine cinematic emotion in depth. Drawing on philosophical and psychological approaches, Fischer's unique analysis offers unparalleled case studies for comprehending emotion in the movies. The book provides the reader with an opportunity to contemplate what notion of a particular emotion is advanced onscreen to describe how the unique tools and aesthetics of cinema are utilized to do so, to place such representations in dialogue with film theory as well as philosophical and psychological commentary, and to illustrate the important dichotomy between filmic portrayals and audience response. Beyond film and media scholars and students, this book will have resonance for academics and practitioners in several fields of psychology, including social work, psychiatry, and therapy.

The Dressing Room Desirée J. Garcia, 2025-01-14 A recurrent and popular setting in American cinema, the dressing room has captured the imaginations of filmmakers and audiences for over a century. In *The Dressing Room: Backstage Lives and American Film*, the only book-length study of the space, author Desirée J. Garcia explores how dressing rooms are dynamic realms in which a diverse cast of performers are made and exposed. Garcia analyzes the backstage film, which spans film history, modes, and genre, to show how dressing rooms have been a useful space for filmmakers to examine the performativity of American life. From the Black maid to the wife and mother to the leading man, dressing rooms navigate, shape, and challenge society's norms. The stakes are high in dressing rooms, Garcia argues, because they rehearse larger questions about identity and its performance, negotiating who can succeed and who cannot, and on what terms. *Millennial*

Masculinity Timothy Shary, 2012-12-17 Film and television scholars, as well as readers interested in gender and sexuality in film, will appreciate this timely collection.

War Representation in British Cinema and Television Kevin M. Flanagan, 2019-10-25 This book explores alternatives to realist, triumphalist, and heroic representations of war in British film and television. Focusing on the period between the Suez Crisis of 1956 and the Falkland War, but offering connections to the moment of Brexit, it argues that the lost continent of existential, satirical, simulated, and abstractly traumatic war stories is as central to understanding Britain's martial history as the mainstream inheritance. The book features case studies that stress the contribution of exiled or expatriate directors and outsider sensibilities, with particular emphasis on Peter Watkins, Joseph Losey, and Richard Lester. At the same time, it demonstrates concerns and stylistic emphases that continue to the present in

television series and films by directors such as Lone Scherfig and Christopher Nolan Encompassing everything from features to government information films the book explores related trends in the British film industry popular culture and film criticism while offering a sense of how these contexts contribute to historical memory Unfinished Business Dana Renga,2013-12-06 Unfinished Business is the first book to examine Italian mafia cinema of the past decade It provides insightful analyses of popular films that sensationalize violence scapegoat women or repress the homosexuality of male protagonists Dana Renga examines these works through the lens of gender and trauma theory to show how the films engage with the process of mourning and healing mafia related trauma in Italy Unfinished Business argues that trauma that has yet to be worked through on the national level is displaced onto the characters in the films under consideration In a mafia context female characters are sacrificed and non normative sexual identities are suppressed in order to solidify traditional modes of viewer identification and to assure narrative closure all so that the image of the nation is left unblemished

Combat Death in Contemporary American Culture Agnieszka Soltysik Monnet,2020-12-16 Combat Death in Contemporary American Culture Popular Cultural Conceptions of War since World War II explores how war has been portrayed in the United States since World War II with a particular focus on an emotionally charged but rarely scrutinized topic combat death Agnieszka Soltysik Monnet argues that most stories about war use three main building blocks melodrama adventure and horror Monnet examines how melodrama and adventure have helped make war seem acceptable to the American public by portraying combat death as a meaningful sacrifice and by making military killing look necessary and often even pleasurable Horror no longer serves its traditional purpose of making the bloody realities of war repulsive but has instead been repurposed in recent years to intensify the positivity of melodrama and adventure Thus this book offers a fascinating diagnosis of how war stories perform ideological and emotional work and why they have such a powerful grip on the American imagination
