The word "JUNGLE" is overlaid in large, bold, orange capital letters across his chest. The background is filled with dense tropical foliage and trees, with a bright, hazy sky visible at the top.

Museums without Borders Robert R. Janes, 2015-12-14 Drawing together nearly 40 years of experience *Museums without Borders* presents the key works of one of the most respected practitioners and scholars in the field Through these

selected writings Robert R Janes demonstrates that museums have a broader role to play in society than is conventionally assumed He approaches the fundamental questions of why museums exist and what they mean in terms of identity community and the future of civil life This book consists of four Parts Indigenous Peoples Managing Change Social Responsibility and Activism and Ethics The Parts are ordered chronologically and each begins with an introduction and an overview of the ensuing articles which situates the papers in their historical and cultural contexts Using an interdisciplinary approach that combines anthropology ethnography museum studies and management theory Janes both questions and supports mainstream museum practice in a constructive and self reflective manner offering readers alternative viewpoints on important issues Considering concepts not generally recognized in museum practice such as the Roman leadership model of *primus inter pares* and the Buddhist concept of mindfulness Janes argues that the global museum community must examine how they can meet the needs of the planet and its inhabitants Museums without Borders charts the evolving role of the contemporary museum in the face of environmental societal and ethical challenges and explores issues that have and will continue to shape the museum sector for decades to come This book demonstrates that it is both reasonable and essential to expand the purpose of museums at this point in history not only because of their unique characteristics and value to society but also because of Janes respect and admiration for their rich legacy It is time that museums assist in the creation of a new caring and more conscious future for themselves and their communities This can only be done through authentic engagement with contemporary issues and aspirations

Look Who's Watching, Revised Edition Fen Osler Hampson, Eric Jardine, 2017-11-08 The Internet ecosystem is held together by a surprisingly intangible glue trust To meet its full potential users need to trust that the Internet works reliably and efficiently when providing them with the information they are seeking while also being secure private and safe When trust in the Internet wanes the network's stock of digital social capital falls and users begin to alter their online behaviour These often subtle changes in behaviour tend to be collectively highly maladaptive hindering the economic developmental and innovative potential of the globe spanning network of networks Look Who's Watching Surveillance Treachery and Trust Online confirms in vivid detail that the trust placed by users in the Internet is increasingly misplaced Edward Snowden's revelations that the United States National Security Agency and other government agencies are spying on Internet users the proliferation of cybercrime and the growing commodification of user data and regulatory changes which threaten to fragment the system are all rapidly eroding the confidence users have in the

Internet ecosystem Based on a combination of illustrative anecdotal evidence and analysis of new survey data Look Who's Watching clearly demonstrates why trust matters how it is being eroded and how with care and deliberate policy action the essential glue of the Internet can be restored
