Way of Blessing Way of Life Clark M. Williamson, 1999

Theological Cartographies Benjamin Valentin, 2015-03-14

Benjamin Valentin presents a substantive yet accessible introduction to the three central doctrines of Christian theology: God, humanity, and Christ. In an engaging style, Valentin offers an overview of each of these doctrines, delving into its tradition within the Christian community throughout history from the writing of Scripture forward. He further explores what contemporary life tells us about this doctrine and how that compares to traditional understandings and then determines how we can reconstruct this doctrine in light of our new assessment of it. Each chapter concludes with suggested readings for further study. Throughout, Valentin highlights the diversity of Christian thought, bringing together past tradition and contemporary questions to arrive at a new understanding of what these important doctrines can mean for us today. **You**

Never Step into the Same Pulpit Twice Ronald J. Allen, 2022-06-23 This volume develops an approach to preaching that brings together two important forces. One is process theology, and the other is a homiletic of conversation based on mutual critical correlation. In this approach, the preacher does not unilaterally announce the Word of God but is the leader of an exciting conversation involving the biblical text, process theology, the congregation, and voices from the larger world. The preacher seeks to help the congregation identify God's invitations towards inclusive well-being and to imagine how to respond in ways that are consistent with those invitations that promote inclusive well-being. The book begins with a crisp and clear summary of the worldview of process theology, highlighting its distinctive views on how God operates in the world through invitation and on the interrelationship of all things. The work then outlines an approach to biblical exegesis informed by process perspectives and sketches a method for bringing the biblical voice into dialogue with voices from tradition, contemporary theology, and the congregation and preacher. The volume suggests shaping the sermon to honor process theology and conversation. The volume concludes by noticing how perspectives from process and conversation help the preacher embody the sermon in engaging ways. Preaching the Manifold Grace of God, Volume 2 Ronald J.

Allen, 2022-07-05 *Preaching the Manifold Grace of God* is a two-volume work describing theologies of preaching from the historical and contemporary periods. Volume 1 focuses on historical theological families: Orthodox, Roman Catholic, Lutheran, Reformed, Anabaptist, Anglican, Episcopal, Wesleyan, Baptist, African American, Stone, Campbell, Friends, and Pentecostal. Volume 2 focuses on families that are evangelical, liberal, neo-orthodox, postliberal, existential, radical, orthodox, deconstructionist, Black liberation, womanist, Latinx liberation, Mujerista, Asian American, Asian American feminist, LGBTQAI, Indigenous, postcolonial, and process. In each case, the author describes the circumstances in which the theological family emerged, describes the purposes and characteristics of preaching from that perspective, and assesses the strengths and limitations of the approach. **Freedom in Resistance and Creative Transformation** Michael St. A. Miller, 2013-04-11 In

Freedom in Resistance and Creative Transformation Michael Miller addresses the concept of freedom that is central to the

grammar of Christian faith and important in a wide range of religious and nonreligious settings across the globe He confronts the fact that despite the claimed importance of freedom there continues to be interpersonal socio political and religious power hierarchies that keep some people dominant and others subjugated The book suggests that often these hierarchies are informed by Christian teachings that deny freedom to human beings on the basis of their humanity per se Having classified humanity as fallen we are instructed that freedom is experienced by disparaging our humanity as we actually experience it seeing ourselves as our own worst enemies and accepting bondage to God the bondage reflected in the character of relations with those seen as God's special representatives in the world Miller presents a case against this understanding of the human situation and in the process he critically engages the Old and New Testaments along with ideas of significant representatives of Christian orthodoxy As an alternative he promotes freedom that is finite realistically libertarian and relational as most compatible with the character of human beings that are partially self creating and self determining Contributing to this position is the view that an infinitely temporal God by character and desire participates in human life in a way that ensures the requisite space for authentic decision making from which emerges genuinely novel possibilities for human life This dynamic has implications for the continued development of the human species and the quality of life in the cosmos as a whole

Under the Oak Tree Ronald J. Allen, John S. McClure, O. Wesley Allen Jr., 2013-11-06 Two trends in the early twenty first century intersect to give this volume immediate relevance 1 The emerging postmodern ethos in North America is calling into question many things we have taken for granted including the purposes of the church and 2 our time is increasingly fractious as groups with distinct worldviews become polarized and often antagonistic Eleven noted contributors join a growing current that sees conversation as an image to refresh our thinking about the nature and purpose of the church and as a process in which individuals and communities with different perspectives come together for real understanding Under the Oak Tree employs the image of Sarah and Abraham greeting three visitors under the Oaks of Mamre as an image for the church as a community of conversation a community that opens itself to the otherness of the Bible voices in history and tradition others in the contemporary social and ecological worlds Furthermore the book shows how conversation can lead the church to action The book takes a practical approach by exploring how conversation can shape key parts of the church's life Topics include preaching worship formation evangelism pastoral care mission and ecumenism social witness and the relationship of Christianity to other religions Foundational chapters consider God as conversational the church as community of conversation and the minister as conversation leader

The Triune Nature of God Robert D. Cornwall, 2019-06-11 The doctrine of the trinity is probably the most complex and mysterious topic in Christian theology yet it impacts our understanding of many other doctrines Pastor Theologian Robert D Cornwall brings his knowledge of church history to the task of examining this doctrine looking at how it developed and what justifies its presence in Christian theology He uses the history of his own Disciples of Christ tradition as one of the expressions of the Stone Campbell movement which avoids

creeds very effectively in examining how we distinguish between the statements and events of scripture and our theological reflections on them Can a doctrine not mentioned in scripture be of value Are creeds necessary or even useful Cornwall threads a careful course between the value of the creeds and within them the doctrine of the trinity in defining our ecumenical relationships and task on the one and on the other the danger of having creeds as a test of fellowship and faith While rooted in his own denomination's traditions this is very valuable to other denominations and movements as we examine what defines us while at the same time seeking freedom in non essentials This book is especially strong in examining the history of the development of this doctrine and connecting this to our ongoing reflection on scripture and what our tradition and experience provides This short volume is valuable to all those who seek to understand the trinity not just as an element in a doctrinal system but as it aids us in thinking about elements of our faith **A Grammar of Christian Faith**

Joe R. Jones, 2002-06-03 A Grammar of Christian Faith is a two volume set that aims to confront the widespread disarray in the language and practices of Christian faith today As a grammar it explains how Christian faith provides special ways of speaking and acting that make sense of human life by giving it meaning practicality and hope It advances the thesis that learning how to speak Christian language in worship and life is crucial to learning how to be a Christian Rather than supposing that Christian language and theology need continual updating in order to be relevant to the world Jones urges the church to recover anew how Christian concepts and understanding are intended to form Christian life in all its rich depths Construing theology as confessional theology in the context of the church Jones understands the church as that liberative and redemptive community called into being by the Gospel of Jesus Christ to witness in word and deed the triune God for the benefit of the world The full range of doctrinal themes that are deemed essential to the witness of the church are explored including clear explanations of why they are essential and how they are to be understood In pursuit of a truthful and beneficial witness of the church the work centers on a trinitarian understanding of God in which God freely and lovingly interacts with the world as Creator Reconciler and Redeemer The work throughout affirms the belief that the gracious triune God is the Ultimate Companion who will redeem all creation **Thematic Threads in the Book of the Twelve** Paul L.

Redditt, Aaron Schart, 2012-08-06 For some years the view has become established that the Book of the Twelve is a systematically structured literary unity An exegesis which takes the final canonical text seriously undertakes to understand the structure and theological intention of this unity The papers collected here attempt to reveal significant structures which overarch the individual components Particular emphasis is placed on the reconstruction of thematic threads which are created when individual prophets take up topics from their predecessors e g Jehovah's Day conversion role of the peoples and intensify them The papers were written between 1999 and 2002 under the aegis of the Society of Biblical Literature's Working Group on The Formation of the Book of the Twelve **Called to Bless** Robert D. Cornwall, 2021-09-29 What does your spiritual DNA look like In terms of your spiritual identity where do you come from and where are you going We live in

an age when many Christians have experienced several denominational and religious communities Many wonder what to do with these experiences At the same time many congregations are made up of people who come from different traditions and the question is how to bring these diverse experiences into the life of the congregation in an enriching way If we take as our starting point the call of Abraham and Sarah to take a journey to an unknown land with the promise that their descendants would be a blessing to the nations what might this look like in terms of our spiritual lives Join with the author as he draws on his spiritual journey that has taken him into several denominational traditions as well as his experiences as a pastor and historical theologian to discern values and concepts that can help congregations and individuals make sense of their diverse spiritual experiences so that together we might fulfill the Abrahamic calling reaffirmed in Christ to be a blessing to the nations
