Mutua, 2006-11-06 In the struggle for pride and political agency the imperative to be a man has been central to the lives of black males Yet what it means to be a black man in terms of both racial and gender identity has been subject to continual debate in public and academic spheres alike **Progressive Black Masculinities** brings together leading black cultural critics including Michael Eric Dyson Mark Anthony Neal and Patricia Hill Collins to examine an alternatively demonized and mythologized black masculinity Collectively they offer a roadmap for new progressive models of black masculinity that may chart the course for the future of black men Eating the Black Body Carlyle Van Thompson, 2006 Textbook **Black Fathers** Michael E. Connor, Joseph White, 2006-08-15 In the parlance of social psychology social work and urban social scientists African American fathers have often been described as absent missing non residential non custodial unavailable non married irresponsible and immature It is wondered why it is was so difficult to find literature research and comments regarding positive attributes of African American families in general and African American fathers in particular This book fills a void in

attempting to offer a broader picture regarding the status of African American males in a father role The purpose is to get beyond the African American father invisibility syndrome and gloom and doom pathology oriented labels and tell another side of the story about the power of fathering in the African American experience The book brings these invisible social and biological fathers to life by telling their stories and letting the reader hear and feel the vibrancy of their voices as they struggle to meet the challenges of being fathers and Black men in America **Black Fathers An Invisible Presence in America** is divided into four sections Part I offers some research and theory regarding the impact of fathers on the lives of their children In Part II reactions and experiences from those men who had active involved and committed Black men in their lives as they were growing up are shared In Part III stories are shared from African American men who had problematic relationships with their fathers but who put forth the time energy and effort to work through the issues The primary focus of Part IV is on how to strengthen the role of Black fathers father figures and social fathers in family life and child rearing by discovering and internalizing psychological strengths anchored in African American psychological themes African values and spirituality This book will appeal to scholars and researchers in the fields of race ethnic relations family studies and Black studies **Black Power Encyclopedia** Akinyele Umoja, Karin L. Young, 2018-07-11 An invaluable resource that documents the Black Power Movement by its cultural representation and promotion of self determination and self defense and showcases the movement s influence on Black communities in America from 1965 to the mid 1970s Unlike the Civil Rights Movement s emphasis on the rhetoric and practice of nonviolence and social and political goal of integration Black Power was defined by the promotion of Black self determination Black consciousness independent Black politics and the practice of armed self defense Black Power changed communities curriculums and culture in the United States and served as an inspiration for social justice internationally This unique two volume set provides readers with an understanding of Black Power s important role in the turbulence social change and politics of the 1960s and 1970s in America and how the concepts of the movement continue to influence contemporary Black politics culture and identity Cross disciplinary and broad in its approach **Black Power Encyclopedia From Black Is Beautiful to Urban Uprisings** explores the emergence and evolution of the Black Power Movement in the United States some 50 years ago The entries examine the key players organizations and institutions trends and events of the period enabling readers to better understand the ways in which African Americans broke through racial barriers developed a positive identity and began to feel united through racial pride and the formation of important social change organizations The encyclopedia also covers the important impact of the more militant segments of the movement such as Malcolm X and the Nation of Islam and the Black Panthers **African American Males and Education** T. Elon Dancy II, M. Christopher Brown, 2012-10-01 **African American Males in Education Researching the Convergence of Race and Identity** addresses a number of research gaps This book emerges at a time when new social dynamics of race and other identities are shaping but also shaped by education Educational settings consistently perpetuate

racial and other forms of privilege among students personnel and other participants in education For instance differential access to social networks still visibly cluster by race continuing the work of systemic privilege by promoting outcome inequalities in education and society The issues defining the relationship between African American males and education remain complex Although there has been substantial discussion about the plight of African American male participants and personnel in education only modest attempts have been made to center analysis of identity and identity intersections in the discourse Additionally more attention to African American male teachers and faculty is needed in light of their unique cultural experiences in educational settings and expectations to mentor and or socialize other African Americans particularly males

A Fatherless Child Tara T. Green,2014-02-28 The impact of absent fathers on sons in the black community has been a subject for cultural critics and sociologists who often deal in anonymous data Yet many of those sons have themselves addressed the issue in autobiographical works that form the core of African American literature A Fatherless Child examines the impact of fatherlessness on racial and gender identity formation as seen in black men s autobiographies and in other constructions of black fatherhood in fiction Through these works Tara T Green investigates what comes of abandonment by a father and loss of a role model by probing a son s understanding of his father s struggles to define himself and the role of community in forming the son s quest for self definition in his father s absence Closely examining four works Langston Hughes s The Big Sea Richard Wright s Black Boy Malcolm X s The Autobiography of Malcolm X and Barack Obama s Dreams from My Father Green portrays the intersecting experiences of generations of black men during the twentieth century both before and after the Civil Rights movement These four men recall feeling the pressure and responsibility of caring for their mothers resisting public displays of care and desiring a loving noncontentious relationship with their fathers Feeling vulnerable to forces they may have identified as detrimental to their status as black men they use autobiography as a tool for healing a way to confront that vulnerability and to claim a lost power associated with their lost fathers Through her analysis Green emphasizes the role of community as a father substitute in producing successful black men the impact of fatherlessness on self perceptions and relationships with women and black men s engagement with healing the pain of abandonment She also looks at why these four men visited Africa to reclaim a cultural history and identity showing how each developed a clearer understanding of himself as an American man of African descent A Fatherless Child conveys important lessons relevant to current debates regarding the status of African American families in the twenty first century By showing us four black men of different eras Green asks readers to consider how much any child can heal from fatherlessness to construct a positive self image and shows that contrary to popular perceptions fatherlessness need not lead to certain failure
