Toward A Culture Of Nature Environmental Policy And Sustainable Development In Cuba:

Toward a Culture of Nature Pamela Stricker, 2007-01-01 In 1989 facing a grace shortage of petroleum Cuba moved toward a more sustainable society and lighter ecological footprint by adopting renewable energy resources organic agriculture green medicine strict environmental protection laws and incorporating environmental education and ethics into public education while maintaining a commitment to social development in health care and education to its people Toward a Culture of Nature rejuvenates the debate on sustainable development by linking social justice concerns with environmental protection *Cuba* Louis A. Pérez, 2015 Spanning the history of the island from pre Columbian times to the present this highly acclaimed survey examines Cuba s political and economic development within the context of its international relations and continuing struggle for self determination The dualism that emerged in Cuban ideology between liberal constructs of patria and radical formulations of nationality is fully investigated as a source of both national tension and competing notions of liberty equality and justice Author Louis A P rez Jr integrates local and provincial developments with issues of class race and gender to give students a full and fascinating account of Cuba s history focusing on its struggle for nationality

Surviving Collapse Christina Ergas, 2021 As environmental crises loom *Surviving Collapse* makes an argument for radical changes in the ways in which people live to avoid a dystopian future To foster readers imagination Christina Ergas reveals real utopian stories that counter climate apocalypse narratives Two eco communities offer examples of alternative futures with small environmental footprints and more egalitarian social practices They model solutions to the interconnected problems of rising social inequalities and environmental degradation Each case engages in community oriented practices direct democracy and ecological agricultural forms that attend to whole ecosystems These practitioners recognize the value of whole biotic communities human and nonhuman and practice reciprocity **At Nature's Edge** Gunnel Cederlöf, Mahesh Rangarajan, 2018-09-18 In an epoch when environmental issues make the headlines this is a work that goes beyond the everyday Ecologies as diverse as the Himalayas and the Indian Ocean coast the Negev desert and the former military bases of Vietnam or the Namib desert and the east African savannah all have in common a long time human presence and the many ways people have modified nature With research covering countries from Asia Africa and Australia the authors come together to ask how and why human impacts on nature have grown in scale and pace from a long pre history The chapters in this volume illumine specific patterns and responses across time going beyond an overt centring of the European experience The tapestry of life and the human reshaping of environments evoke both concern and hope making it vital to understand when why and how we came to this particular turn in the road Eschewing easy labels and questioning eurocentrism in today s climate vocabulary this is a volume that will stimulate rethinking among scholars and citizens alike **The Yearbook of European Environmental Law** Thijs Etty, Han Somsen, 2008-09-04 The Yearbook of European Environmental Law is a joint venture between leading academics practitioners and Community officials Academics and students will find a wealth of

information in the stimulating and clearly written articles The well structured and reliable Annual Survey is specifically designed to provide easy access to the very latest developments in environmental law at the European level Separate parts of the Yearbook are devoted to important policy documents and reviews of books Taking Food Public Psyche Williams Forson, Carole Counihan, 2013-09-13 The field of food studies has been growing rapidly over the last thirty years and has exploded since the turn of the millennium Scholars from an array of disciplines have trained fresh theoretical and methodological approaches onto new dimensions of the human relationship to food This anthology capitalizes on this particular cultural moment to bring to the fore recent scholarship that focuses on innovative ways people are recasting food in public spaces to challenge hegemonic practices and meanings Organized into five interrelated sections on food production consumption performance Diasporas and activism articles aim to provide new perspectives on the changing meanings and uses of food in the twenty first century Cuban Studies 39 Louis A. The Low-Carbon Contradiction Gustav Cederlof, 2023-09-19 In the pursuit of socialism Cuba became Latin America's most oil dependent economy When the Soviet Union collapsed the country lost 86 percent of its crude oil supplies resulting in a severe energy crisis In the face of this shock Cuba started to develop a low carbon economy based on economic and social reform rather than high tech innovation The Low Carbon Contradiction examines this period of rapid low carbon energy transition which many have described as a Cuban miracle or even a real life case of successful degrowth Working with original research from inside households workplaces universities and government offices Gustav Cederlof retells the history of the Cuban Revolution as one of profound environmental and infrastructural change In doing so he opens up new questions about energy transitions their politics and the conditions of a socially just low carbon future The Cuban experience shows how a society can transform itself while rapidly cutting carbon emissions in the search for sustainability

Agriculture in an Urbanizing Society Volume Two Rob Roggema, 2016-12-14 In two volumes selected papers presented at the sixth AESOP conference on Sustainable Food Planning are brought together representing the academic work of worldwide experts in the fields of food planning and urban agriculture This volume therefore provides an overview of the latest state of the art research in the field drawing from areas such as spatial planning urban design governance social innovation entrepreneurship and local initiatives among others to represent the current knowledge base for creating sustainable urban food projects

Shocks, States, and Sustainability Thomas K. Rudel, 2019 For the past two decades scientists have urged us to abandon fossil fuels as rapidly as possible and pursue a range of other environmental reforms to avert the many crises climate change will bring The reforms have not occurred at the expected rate and their absence raises questions about when they might occur In Shocks States and Sustainability Thomas K Rudel addresses this question He outlines a theory of environmental revolutions and when they will likely occur through a comparison of radical environmental reforms throughout the 20th century By looking at farmers in the American Dust Bowl land use planners in post war England small farmers in post Soviet Cuba and lobster fishers along the coast of Maine Rudel emphasizes how sudden focusing events can spur radical reforms by providing a fresh realization about the scarcity of natural resources Shocks States and Sustainability explains how earth shaking events like droughts depressions and wars can provide the foundations necessary

for the pursuit of global sustainability **The Global Food Crisis** Satish Kedia,2010-01-05 The NAPA Bulletin series is dedicated to the practical problem solving and policy applications of anthropological knowledge and methods These papers demonstrate the diverse ways in which anthropology can be used to address the global food crisis while directly responding to local realities Experts explore the dilemma of food insecurity in developing and industrialized countries Practicing and applied anthropologists sociologists and public health workers examine the global food crisis through a variety of theoretical and analytical frameworks Examines the ways in which food policies and economic restructuring have contributed to increasing food inequities across the globe *The War Against the Working Class* Will Podmore,2015-05-29 This book traces the history of revolutions and counterrevolutions since 1917 in Russia Korea Vietnam China the countries of Eastern Europe and Cuba I present the evidence of their achievements and describe the wars they were forced to fight in self defence We can learn from the efforts and the errors of the pioneers even though their conditions of being pre industrial and dependent societies were very different from Britains today The hope is that this book will provoke thought about the future of our nation in order to help us to decide what we need to do not to copy but to create **Religion and Politics: New Developments Worldwide** Roy C.
