Unisa Past Exam Papers:

Kleio ,1969 **Daniel - a South African Chronicle** Daniel van der Merwe,2015-02-17 Despite being written mainly in the third person this book enables the perceptive reader to study a dramatic part of South Africa's history through the experiences of the main protagonist Because of his legal background Daniel is able to see how an initially fair legal system is corrupted in order to serve the increasingly desperate needs of the White minority This is a mere backdrop however to a love story that grows closer to tragedy as time passes because the heroine is an alcoholic The arrival of the computer alters the career of the hero dramatically and sends him on some overseas adventures to learn more about the legal implications of the new machine As a leader of a missionary team to Malawi Daniel also gets to grips with people with a totally different background and a differing worldview The book is sensitive to background and atmosphere and the hero encapsulates some of this in a few poems that form part of the main text Jealousy that green eyed monster also rears its head occasionally and further complicates relationships *Education and climate change* Samantha Govender,Mncedisi C Maphalala,Dumisani W. Mncube,2025-06-15 The book highlights the critical yet often overlooked role of education in combating climate change It advocates for a transformative educational framework that integrates social emotional learning and interdisciplinary collaboration Traditional education which focuses solely on factual knowledge is deemed insufficient Instead education should foster empathy provide hands on experiences and encourage active engagement in climate solutions The book outlines various ways education can drive climate action such as raising awareness preparing individuals for green jobs empowering communities and fostering innovation in higher education It highlights the interconnectedness of climate change and education particularly for marginalised populations showing how quality education can enhance both mitigation and adaptation strategies while supporting Sustainable Development Goal SDG 4 and SDG 13 Key chapters discuss successful initiatives such as the Keep it Cool Climate Change Education KIC CCE project in South Africa and offer strategies for integrating climate change education into subjects like Natural Sciences and Geography Ultimately the book positions education as a strategic tool for promoting sustainable development and building climate resilience New research findings presented in the book connect education to climate change highlighting education as both a tool to address climate issues and a domain affected by these issues The book integrates empirical evidence innovative theories and practical examples to ensure intellectual integrity and academic rigour It introduces a unique framework that emphasises social emotional learning action oriented teaching and interdisciplinary collaboration Case studies such as the KIC CCE initiative in South Africa illustrate these concepts The book critiques traditional models and advocates for transformative approaches to climate education aligning with SDG 4 Quality Education and SDG 13 Climate Action It also highlights the significance of teacher preparedness community empowerment gender equality and innovation providing valuable insights for scholars policymakers and practitioners addressing the climate crisis *South African Education Policy Review, 1993-2000* Linda

Chisholm, Shireen Motala, Salim Vally, 2003 *The South African Education Policy Review* is an invaluable historical archive. It is a source book on policies, conflicts, developments and perspectives on education policy in the period 1993 to 2000. Drawing from a selection of articles from the successful Quarterly Reviews of Education and Training produced by the Education Policy Unit of the University of Witwatersrand, this book provides readers with detailed accounts of educational changes in South Africa over the past decade. It reflects upon significant events, trends and debates and provides insightful analysis of this extremely momentous period of South Africa's history.

ICT Education Stefan Gruner, 2016-10-15. This book constitutes the refereed proceedings of the 45th Annual Conference of the Southern African Computer Lecturers Association on ICT Education SACLA 2016 held in Cullinan, South Africa, in July 2016. Macroeconomic Linkages Among Southern African Countries Udo Witulski, 1990.

Law, Language, and Science Diana Jeater, 2006-12-30. This book examines the mentalities of various communities within a district of Southern Rhodesia, Zimbabwe. Focusing in particular on white administrators and missionaries in the Melssetter District, it combines linguistic lexical analysis with historical interpretation in an attempt to reconstruct what whites and Africans actually meant by the words and practices they used in interactions with each other. Jeater provides a detailed study of translation work in Mt Selinda, an evangelical mission. It also examines formal and informal court hearings to contrast the perceptions and meanings ascribed to cases by white adjudicators and by African participants. This leads into an initial attempt to map out the birth of ethnography in Southern Rhodesia and to contrast it with anthropology in South Africa. By the 1920s, Africans' expertise in their own languages and culture had been usurped by self-referential white linguists and ethnographers. This account suggests that there is a tendency among archive-oriented historians to overestimate how far white missionaries and administrators really understood what Africans said and did. In addition to making a contribution to our empirical knowledge of Zimbabwe's history, the book focuses on how and why investigators first began to make claims to such knowledge. It urges those studying African history to be self-reflective about their practice, examining the historical roots of their claims to expertise such claims.

Advances in Web Based Learning - ICWL 2007 Howard Leung, 2008-04-14. This book contributes the thoroughly refereed post-conference proceedings of the 6th International Conference on Web Based Learning ICWL 2007 held in Edinburgh, UK, in August 2007. The 55 revised full papers presented together with 1 keynote talk were carefully reviewed and selected from about 180 submissions. The papers are organized in topical sections on personalized e-learning, learning resource organization and management, framework and standards for e-learning, test authoring, question generation and assessment, language learning, science education, visualization technologies for content delivery and learning behavior, practice and experience sharing, security, privacy and mobile e-learning as well as blended
