Transformations of Urban and Suburban Landscapes Gary Backhaus, John Murungi, 2002-01-01 The study of landscape and place has become an increasingly fertile realm of inquiry in the humanities and social sciences In this new book of essays selected from presentations at the first annual meeting of the Society for Philosophy and Geography scholars investigate the experiences and meanings that inscribe urban and suburban landscapes Gary Backhaus and John Murungi bring philosophy and geography into a dialogue with a host of other disciplines to explore a fundamental dialectic while our collective and personal activity modifies the landscape in turn the landscape

modifies human identities and social and environmental relations Whether proposing a peripatetic politics conducting a sociological analysis of building security systems or critically examining the formation of New York City s municipal parks each essay sheds distinctive light on this fascinating and engaging aspect of contemporary environmental studies **2018**

Register,2018-04-01 The Modern Urban Landscape (Routledge Revivals) Edward Relph,2016-04-06 First published in 1987 this book provides a wide ranging account of how modern cities have come to look as they do differing radically from their predecessors in their scale style details and meanings It uses many illustrations and examples to explore the origins and development of specific landscape features More generally it traces the interconnected changes which have occurred in architecture and aesthetic fashions in planning in economic and social conditions and which together have created the landscape that now prevails in most of the cities of the world This book will be of interest to students of architecture urban studies and geography **The Art of Classic Planning** Nir Haim Buras,2020-01-28 An accomplished architect and

urbanist goes back to the roots of what makes cities attractive and livable demonstrating how we can restore function and beauty to our urban spaces for the long term Nearly everything we treasure in the world s most beautiful cities was built over a century ago Cities like Prague Paris and Lisbon draw millions of visitors from around the world because of their exquisite architecture walkable neighborhoods and human scale Yet a great deal of the knowledge and practice behind successful city planning has been abandoned over the last hundred years not because of traffic population growth or other practical hurdles but because of ill considered theories emerging from Modernism and reactions to it The errors of urban design over the last century are too great not to question The solutions being offered today sustainability walkability smart and green technologies hint at what has been lost and what may be regained but they remain piecemeal and superficial In The Art of Classic Planning architect and planner Nir Haim Buras documents and extends the time tested and holistic practices that held sway before the reign of Modernism With hundreds of full color illustrations and photographs that will captivate architects planners administrators and developers The Art of Classic Planning restores and revitalizes the foundations of urban planning Inspired by venerable cities like Kyoto Vienna and Venice and by the great successes of L Enfant s Washington Haussmann s Paris and Burnham s Chicago Buras combines theory and a host of examples to arrive at clear guidelines for best practices in classic planning for today s world The Art of Classic Planning celebrates the enduring principles of urban design and invites us to return to building beautiful cities **Richard Long** Richard R. Friis-Hansen,1996 Disrupted City Manan Ahmed Asif,2024-10-22 A stunning history of Pakistan s cultural and intellectual capital from one of the preeminent scholars of South Asia Longlisted 2025 Cundill History Prize The city of Lahore was more than one thousand years old when it went through a violent schism As the South Asian subcontinent was partitioned in 1947 to gain freedom from Britain s colonial hold and the Islamic Republic of Pakistan was formed the city s large Hindu and Sikh

populations were pushed toward India and an even larger Muslim refugee population settled in the city This was just the latest in a long history of the city's making and unmaking Over the centuries the city has kept a firm grip on the imagination of travelers poets writers and artists More recently it has been journalists who have been drawn to the city as a focal point for a nation that continues to grab international headlines For this book acclaimed historian Manan Ahmed Asif brings to life a diverse and vibrant world by walking the city again and again over the course of many years Along the way he joins Sufi study circles and architects doing restoration in the medieval parts of Lahore and speaks with a broad range of storytellers and historians To this Asif juxtaposes deep analysis of the city's centuries old literary culture noting how it reverberates among the people of Lahore today To understand modern Pakistan requires understanding its cultural capital and Disrupted City uses Lahore's cosmopolitan past and its fractured present to provide a critical lens to challenge the grand narratives of the Pakistani nation state and its national project of writing history

Mapping China's Growth And Development In The Long Run, 221 Bc To 2020 Kent Deng, 2015-08-28 The narrative of China's history in this book is theme led rather than conventionally chronicle based It covers China's resource endowments historical contingencies such as civil wars invasions and climate changes and ideologies including Legalism Confucianism Social Darwinism nationalism and Marx Stalinism that shaped the particular path of growth and development in China over two millennia This book aims to take the reader through China's remarkably long and colourful saga of growth and development full of ups downs twists and turns It shows that China's experience has neither been linear nor trouble free China's long term experience showcases the two fundamentals in growth and development efficiency and equality The lesson that one can learn from China's long history is that distributing incomes equality is as important as producing them efficiency By the same token to secure growth and development the political economy of government and governance is as critical in determining growth and development as resource endowments technology and market exchanges This applied to China's past and will inevitably apply to China's future
