on the trail how to deal with various illness while on the trail Next up is how you should pack what gears you need how to plan a through hike and how to actually get started on this amazing trip In the second part of the book I share how to hike each section day by day and what you can expect what you need to be looking for what you need to be aware of one each section of your hike After hiking through this great Appalachian Trail twice I can assure you it can be done and no it is not a monumental task but yes it will take effort and a strong willingness to go through with it I know if I could do it anyone can I know you can do it too Good luck Alan Greenfield
