Digital inequality in a developing context Nobert R. Jere,Gardner Mwansa,Memory Ranga,Attlee M. Gamundani,Pardon B Maoneke,2025-04-15 Digital inequality in a developing context A multifaceted approach critically explores the complex and persistent nature of the digital divide in South Africa addressing a notable gap in existing scholarship Drawing on secondary data the book examines how digital inequalities manifest across key sectors such as education healthcare and agriculture sectors vital to national development and individual well being These disparities are shaped by intersecting socio economic technical and geographical factors particularly the urban rural divide The volume underscores the importance of infrastructure development digital literacy affordability and equitable access as central to bridging the digital gap It argues that without targeted and sustained interventions in these areas digital inequality will continue to hinder socio economic progress and deepen existing structural inequalities This scholarly book offers fresh perspectives and practical insights for researchers policymakers and practitioners seeking to advance digital inclusion in developing contexts

Products and Applications of Biopolymers Casparus Verbeek,2012-03-07 It is interesting to consider that biopolymers are by no means new to this world It is only because of our fascination with petrochemical products that these wonderful materials have been neglected for so long Today we face a different challenge Environmental pressure is pushing away from synthetic or petro chemically derived products while economic factors are pulling back from often more expensive green options This book presents two aspects of biopolymers potential products and some applications of biopolymers covering the current relevance of biopolymers

According to Tradition Nkosi Sango Phathekile Holomisa,2009 According to tradition a cultural perspective on current affairs is an insightful and thought provoking compilation of articles by Nkosi Phathekile Holomisa drawn largely from his popular columns in the Business Day and Natal Witness In it Holomisa provides a compelling indigenous African perspective on contemporary issues and seeks to resurrect traditional values as a framework for an alternative view on South African current affairs The book analyses pertinent issues relating to the state of African customs and traditions in contemporary South Africa and the challenges that the institution of traditional eldership faces in the interpretation and defence of cultural practices It examines how the nation might benefit from the enhancement of the role of traditional leadership in tackling national challenges like social disintegration and national identity The various contentious issues from land redistribution the dumping of babies aspirant Black capitalists and African traditional justice to the abuse and oppression of women and same sex marriages are confronted directly and with candour Holomisa challenges the people of modern day South Africa to once again engage with its ancestral roots He creates a convincing argument that the use of African languages and the recovery of religious and cultural practices suitably modified for the demands of democracy and gender equity and the promotion of communal ways of life are prerequisites for a prosperous African continent Publisher s website

Learning to Teach in South Africa W. E. Morrow,2007 Learning to Teach in South Africa is a collection of essays by one of South Africa s most respected thinkers in education These essays span the crucial years of democratic transition in South Africa and show the consistency of Morrow s thinking over this period He argues for the retrieval of the primacy of the practice of professional teaching in our thinking about the transformation of schooling and education in our country reveals the emergence of his seminal distinction between formal and epistemological access puts forward some definite views about teacher education and continues to struggle with relativism one of the strands of the legacies of colonialism and Apartheid These essays are an essential read for anyone interested in the transformation of education and especially those who have a role in shaping its future
