Modern Just War Theory Michael P. Farrell, 2013-06-20 Contributions to Illuminations A Scarecrow Press Series of Guides to Research in Religion provide students and scholars lay readers and clergy with a road map to research in key areas of religious study All commonly constructed with introductions to the topic and reviews of key thinkers concepts and events each volume includes surveys of the primary and secondary sources with critical evaluations of their places in the canon of thought and research on the topic Focusing primarily on the knowledge required by today s students and scholars each guide is a must have for any student of religion The twentieth century saw an explosion of wars and an accompanying explosion of literature on the morality of war Thinking among Christian clerics and scholars on the idea of just war shifted with developments on the battlefield Alternatives to just war theory such as pacifism and realism found new proponents in the published work of the neo Anabaptists and Niebhurians Meanwhile proponents of

Christian just war theory had to address challenges from competing ideologies as well as those presented by the changing nature of warfare. **Modern Just War Theory: A Guide to Research** by scholar and librarian Michael Farrell serves as a manual for students and scholars studying Christian just war theory, helping them navigate the wealth of just war literature produced in the twentieth and twenty-first centuries. Farrell's guide provides an introduction to the major developments of just war theory in the twentieth century, including sections on how to research just war theory, an overview of some of the most important theorists and developments of the twentieth century, and discussions of key search terms and related topics. Farrell then surveys and evaluates key primary and secondary sources for researchers on just war theory, as well as related sources on Christian realism and the responses of just war theorists to proponents of pacifism and secular just war theories. **Modern Just War Theory** will appeal to students and scholars of theology, military history, international law, and Christian ethics.

The Dialectic of the Holy Robert E. Meditz, 2016-09-12. This is the first published book-length treatment on Paul Tillich and Judaism, which is a neglected aspect of Tillich's thought. It has three compelling features. First, pivotal biographical details show the importance of Judaism for Tillich and that he ardently opposed anti-Semitism before WWII and after the Holocaust. Second, Tillich's theological method is examined in key primary sources to show how he maintains continuity between Judaism and Christianity. The primary source analysis includes his 1910 and 1912 dissertations on Schelling, the 1933 *The Socialist Decision*, the 1952 Berlin lectures on the Jewish Question, and his final public lecture on the importance of the history of religion for systematic theology. Particular attention is paid to his dialectical and theological history of religion. Third, Tillich's positive theology of Judaism contrasts sharply with the many complex negative ways in which Judaism is portrayed in Western thought. This contributes significantly to our understanding of the evolving history of Christian anti-Judaism.
