knowledge mingled in encounters with lively displays of animated artifacts shows that the exhibits had a forceful and transformative impact on visitors one that moved them toward Protestant reform Deeply researched and decidedly original *The Moving Statues of Seventeenth Century Amsterdam* uncovers a wealth of information about these nearly forgotten public pleasure parks situating them within popular culture religious controversies global trade relations and intellectual debates of the seventeenth century It will appeal in particular to scholars in art history and early modern studies *Old Age in Art* Larry Silver, 2025-05-13 A sweeping history of aging in European art across centuries *Old Age in Art* shows how elders have been depicted from ancient Greece and Rome to the present century The book explores portraits including self portraits and stories of older figures in religion myth and history focusing on the theme of wisdom versus folly Larry Silver also discusses the concept of old age within the Middle Ages and early modern periods The final chapter examines how renowned artists like Michelangelo Titian and Monet turned to experimental forms and new subjects in their later years This book provides a comprehensive overview of old age in European art history *The Man Who Broke Michelangelo's Nose* Felipe Pereda, 2024-08-20 Renaissance sculptor Pietro Torrigiano has long held a place in the public imagination as the man who broke Michelangelo's nose Indeed he is known more for that story than for his impressive prowess as an artist This engagingly written and deeply researched study by Felipe Pereda a leading expert in the field teases apart legend and history and reconstructs Torrigiano's work as an artist Torrigiano was in fact one of the most fascinating characters of the sixteenth century After fighting in the Italian wars under Cesare Borgia the Florentine artist traveled across four countries working for such patrons as Margaret of Austria in the Netherlands and the Tudors in England Torrigiano later went to Spain where he died in prison accused of heresy by the Inquisition for breaking a sculpture of the Virgin and Child that he had made with his own hands In the course of his travels Torrigiano played a crucial role in the dissemination of the style and the techniques that he learned in Florence and he interacted with local artisanal traditions and craftsmen developing a singular terracotta modeling technique that is both a response to the authority of Michelangelo and a unique testimony to artists mobility in the period As Pereda shows Torrigiano's life and work constitute an ideal example to rethink the geography of Renaissance art challenging us to reconsider the model that still sees the Renaissance as expanding from an Italian center into the western periphery *The Modeller* Frits Scholten, 2025-06-30 In these days the most famous modeller this is how the Dutch sculptor Adriaen de Vries 1556 1626 was characterised in 1621 A virtuoso modeller De Vries explored new ways to enliven his art His bronze sculptures were made in a radically new sketchy style with free figure compositions and a vigorous treatment of human anatomy often balancing on the border between realism and distortion This book explores how and why a Late Renaissance sculptor broke so drastically with the prevailing stylistic paradigm of his time in search of *vivezza* natural liveliness and the *viva figura* the statue on the brink of coming to life Adriaen de Vries aimed to create sculptures that move in the metaphorical no man's land between death and life back and forth from inert bronze to apparent vitality as this study
