The Life S.P. Chockalingam,2014-02-24 No one knows where from and what purpose one has taken the present avatar Also no one knows where one goes after death What will happen next moment is not known Why past has happened as the way it has

happened is not known Why the present is happening as it is happening is not known For some the life is mystical For many who face problems the life is real and painful For the rest who makes the life a happy existence the life is magical Whether the life is mystical or real and painful or magical the fact remains that it is shrouded in mystery But why should one worry about mystery Mystery by itself is beautiful The life is also as beautiful as mystery The life is the greatest gift in the world One by living the life will have to find answers to these questions Mystery will unfold itself in the course of one's life provided one takes the magical pathways and proceed to lead a purposeful life with meaning

In Dialogue with Classical Indian Traditions Brian Black, Chakravarthi Ram-Prasad, 2019-03-04 Dialogue is a recurring and significant component of Indian religious and philosophical literature Whether it be as a narrative account of a conversation between characters within a text as an implied response or provocation towards an interlocutor outside the text or as a hermeneutical lens through which commentators and modern audiences can engage with an ancient text dialogue features prominently in many of the most foundational sources from classical India Despite its ubiquity there are very few studies that explore this important facet of Indian texts This book redresses this imbalance by undertaking a close textual analysis of a range of religious and philosophical literature to highlight the many uses and functions of dialogue in the sources themselves and in subsequent interpretations Using the themes of encounter transformation and interpretation all of which emerged from face to face discussions between the contributors of this volume each chapter explores dialogue in its own context thereby demonstrating the variety and pervasiveness of dialogue in different genres of the textual tradition This is a rich and detailed study that offers a fresh and timely perspective on many of the most well known and influential sources from classical India As such it will be of great use to scholars of religious studies Asian studies comparative literature and literary theory

Vilas,2018-02-21 *The History of Earth* Dr. Prashobh Karunakaran,2005-06 Since ancient times humans have been asking why we are here where we come from and where we are going Science gives some clues This book amalgamates information gathered from the ancient culture of India with knowledge gathered through modern science to decipher what has transpired so far The book explains why the world will not end in nuclear conflict or global warming problems any time soon despite the overwhelming evidence for it The time spans or yugas will have to finish Another concern of people today is the increasing power in the hands of the few This is not something new and what happened to people who tried to gain absolute power in the past is depicted in this book as a reference for today s power brokers Almost absolute power was in the hands of the few many times in the past and if these few follow wrong paths God has consistently intervened
