The Watcher By The Threshold Shorter Scottish Fiction:

The Watcher by the Threshold John Buchan, 2009-05-01 This is the first ever complete collection of all Buchan's shorter Scottish fiction. Set largely in his beloved Borders, these stories and novellas show the full range and depth of Buchan's writing. Featuring shepherds, poachers, gamekeepers and drovers, they are worlds away from the tales of aristocratic adventure with which he is so often associated. Shot through with characters and places he returned to in his full-length fiction, the Buchan that emerges from this collection is a very different and much more complex writer than he is often held to be.

The Cambridge History of the English Short Story Dominic Head, 2016-11-14 The Cambridge History of the English Short Story is the first comprehensive volume to capture the literary history of the English short story. Charting the origins and generic evolution of the English short story to the present day and written by international experts in the field, this book covers numerous transnational and historical connections between writers, modes and forms of transmission. Suitable for English literature students and scholars of the English short story generally, it will become a standard work of reference in its field.

The Routledge Handbook to the Ghost Story Scott Brewster, Luke Thurston, 2017-11-14 The Handbook to the Ghost Story sets out to survey and significantly extend a new field of criticism which has been taking shape over recent years, centring on the ghost story and bringing together a vast range of interpretive methods and theoretical perspectives. The main task of the volume is to properly situate the genre within historical and contemporary literary cultures across the globe and to explore its significance within wider literary contexts as well as those of the supernatural. The Handbook offers the most significant contribution to this new critical field to date, assembling some of its leading scholars to examine the key contexts and issues required for understanding the emergence and development of the ghost story.

Journey to the Hebrides Samuel Johnson, James Boswell, 2009-05-01 Samuel Johnson and James Boswell spent the autumn of 1773 touring the Highlands and Western Islands of Scotland. Both kept detailed notes of their impressions and later published separate accounts of their journey. These accounts of their great tour contain some of the finest pieces of travel writing ever produced; they are magnificent historical documents and also portraits of two extraordinary personalities. In the vivid prose of these two famous men of letters, the Highlands and the Western Islands spring to life. The juxtaposition of the two very different accounts creates an unsurpassed portrait of a society which was utterly alien to the Europe of the Enlightenment and which was straining on the brink of calamitous change. These great masterpieces, entertaining, profound and marvellously readable, are also our last chronicles of a lost age and people.

The Invention of the Countryside Donna Landry, 2001-08-20 Today's hunting debate began in the eighteenth century when the idea of the countryside was being invented through the imaginative displacement of agricultural production in favour of country sports and landscape tourism. Between the Game Act of 1671 and its repeal in 1831, writers on walking and hunting often held opposed views but contributed equally to the origins of modern ecology while sharing a commitment to trespass that preserved common rights.
