The Way We Eat Why Our Food Choices Matter

Marc Weissbluth, M.D., Eileen Behan

The Way We Eat Why Our Food Choices Matter:

The Way We Eat Peter Singer, Jim Mason, 2006-05-02 An investigation of the food choices people make and practices of the food producers who create this food for us leading to a discussion of how we might put more ethics into our shopping carts

The Ethics of What We Eat Peter Singer, Jim Mason, 2007-03-20 Peter Singer the groundbreaking ethicist whom The New Yorker calls the most influential philosopher alive teams up again with Jim Mason his coauthor on the acclaimed Animal Factories to set their critical sights on the food we buy and eat where it comes from how it is produced and whether it was raised humanely The Ethics of What We Eat explores the impact our food choices have on humans animals and the environment Recognizing that not all of us will become vegetarians Singer and Mason offer ways to make healthful humane food choices As they point out You can be ethical without being fanatical

The Animal Rights Debate Gary Lawrence Francione, Robert Garner, 2010 Annotation Francione maintains that we have no moral justification for using nonhumans arguing that because animals are property laws fail to provide any meaningful level of protection Garner favours a version of animals rights that focuses on eliminating animal suffering Here they deconstruct the animal protection movement

Peter Singer Under Fire Jeffrey A. Schaler, 2011-09-30 One of the leading ethical thinkers of the modern age Peter Singer has repeatedly been embroiled in controversy Protesters in Germany closed down his lectures mistakenly thinking he was advocating Nazi views on eugenics Conservative publisher Steve Forbes withdrew generous donations to Princeton after Singer was appointed professor of bioethics His belief that infanticide is sometimes morally justified has appalled people from all walks of life Peter Singer Under Fire gives a platform to his critics on many contentious issues Leaders of the disability rights group Not Dead Yet attack Singer's views on disability and euthanasia Economists criticize the effectiveness of his ideas for solving global poverty Philosophers expose problems in Singer's theory of utilitarianism and ethicists refute his position on abortion Singer's engaging Intellectual Autobiography explains how he came by his controversial views while detailed replies to each critic reveal further surprising aspects of his unique outlook

Animals and Ethics 101 Nathan Nobis, 2016-10-11 Animals and Ethics 101 helps readers identify and evaluate the arguments for and against various uses of animals such as Is it morally wrong to experiment on animals Why or why not Is it morally permissible to eat meat Why or why not Are we morally obligated to provide pets with veterinary care and if so how much Why or why not And other challenging issues and questions Developed as a companion volume to an online Animals Ethics course it is ideal for classroom use discussion groups or self study The book presupposes no conclusions on these controversial moral questions about the treatment of animals and argues for none either Its goal is to help the reader better engage the issues and arguments on all sides with greater clarity understanding and argumentative rigor Includes a bonus chapter Abortion and Animal Rights Does Either Topic Lead to the Other

The A-Z Encyclopedia of Food Controversies and the Law Elizabeth M. Williams, Stephanie Jane Carter, 2010-12-22 This two volume set is a broad compendium of the law policies and legal influences that affect the food on our plates today As food increasingly impacts our health and our wallets we need to understand the enormous effect of law both U S law and international regulations on the safety and availability of the food we eat The A Z Encyclopedia of Food Controversies and the Law was compiled to help readers do just that The most comprehensive work covering food and law the encyclopedia surveys laws related to organics obesity and fair trade It tackles the intersection of law and religious belief for example with kosher and halal foods as well as controversies over labeling practices and consumer protection in general And it looks at the relationship of class to food exposing poor urban areas that possess few sources of fresh food so that residents are forced to rely on convenience stores and fast food for nutrition As background the set also presents a basic history of food related law to show us how we got where we are

Philosophy and The Hitchhiker's Guide to the Galaxy N. Joll, 2016-04-30 The Hitchhiker s Guide to the Galaxy provides an excellent way of looking at some intriguing issues in philosophy from vegetarianism and Artificial Intelligence to God space and time This is an entertaining yet thought provoking volume for students philosophers and fans of The Hitchhiker s series

Nietzsche and Other Buddhas Jason M. Wirth, 2021-03-12 A tour de force that both challenges and expands our understanding of the very practice of philosophy and comparative philosophy in particular Joseph Markowski Reading Religion In Nietzsche and Other Buddhas author Jason M Wirth brings major East Asian Buddhist thinkers into radical dialogue with key Continental philosophers through a series of exercises that pursue what is traditionally called comparative or intercultural philosophy In the process he reflects on what makes such exercises possible and intelligible The primary questions Wirth asks are How does this particular engagement and confrontation challenge and radicalize what is sometimes called comparative or intercultural philosophy How does this task reconsider what is meant by philosophy The confrontations that Wirth sets up between Dogen Hakuin Linji Shinran Nietzsche Schopenhauer James and Deleuze consider the nature of philosophy and especially comparative philosophy from a global perspective This global perspective in turn opens up a new and challenging space of thought within and between the cutting edges of Western Continental philosophy and East Asian Buddhist practice

Food and Morality Susan R. Friedland, 2008 A wide range of essays from English American and overseas scholars who ponder contemporary questions such as eating foie gras

The Ecophobia Hypothesis Simon Estok, 2018-06-27 The Ecophobia Hypothesis grows out of the sense that while the theory of biophilia has productively

addressed ideal human affinities with nature the capacity of the biophilia hypothesis as an explanatory model of human environment relations is limited The biophilia hypothesis cannot adequately account for the kinds of things that are going on in the world things so extraordinary that we are increasingly coming to understand the current age as the Anthropocene Building on the usefulness of the biophilia hypothesis this book argues that biophilia exists on a broader spectrum that has not been adequately theorized The Ecophobia Hypothesis claims that in order to contextualize biophilia literally the love of life and the spectrum on which it sits it is necessary to theorize how very unphilic human uses of the natural world are This volume offers a rich tapestry of connected comparative discussions about the new material turn and the urgent need to address the agency of genes about the complexities of 21st century representations of ecophobia and about how imagining terror interpenetrates the imagining of an increasingly oppositional natural environment Furthermore this book proposes that ecophobia is one root cause that explains why ecomedia a veritably thriving industry is having so little measurable impact in transforming our adaptive capacities The ecophobia hypothesis offers an equation that determines the variable spectrums of the Anthropocene by measuring the ecophobic implications and inequalities of speciesism and the entanglement of environmental ethics with the writing of literary madness and pain This work also investigates how current ecophobic perspectives systemically institutionalize the infrastructures of industrial agriculture and waste management This is a book about revealing ecophobia and prompting transformational change

Vegetarianism Jill Hamilton, 2009-06-26 As children mature they start to exercise independence in a number of choices which includes what they are going to eat Give your readers a balanced rich survey of the vegetarian choice Essays present a for or against array of information on the topic starting off with how our anatomy offers clues to what the human diet should be While one essay states that a vegetarian diet is not healthy another essay outlines its health benefits One essay states that it's possible to be a conscientious carnivore while another states there is no such thing as guilt free meat Solutions such as laboratories that grow meat are also debated The global impact of this dietary choice is examined giving readers much to consider while exercising their right to choose what they eat

For Love of Animals Charles Camosy, 2013-10-25 For Love of Animals is an honest and thoughtful look at our responsibility as Christians with respect to animals Many Christians misunderstand both history and their own tradition in thinking about animals They are joined by prominent secular thinkers who blame Christianity for the Western world's failure to seriously consider the moral status of nonhuman animals This book explains how traditional Christian ideas and principles like nonviolence concern for the vulnerable respect for life stewardship of God's creation and rejection of consumerism require us to treat animals morally Though this point of view is often thought of as liberal the book cites several conservatives who are also concerned about animals Camosy's Christian argument transcends secular politics The book's starting point for a Christian position on animals from the creation story in Genesis to Jesus's eating habits in the Gospels rests in Scripture It then moves to explore the views of the Church Fathers the teachings of the Catholic Church and current

discussions in both Catholic and Protestant theology Ultimately however the book is concerned not with abstract ideas but with how we should live our everyday lives Should Christians eat meat Is cooperation with factory farming evil What sort of medical research on animals is justified Camosy also asks difficult questions about hunting and pet ownership This is an ideal resource for those who are interested in thinking about animals from the perspective of Christian ethics and the consistent ethic of life Discussion questions at the end of each chapter and suggestions for further reading round out the usefulness of this important work
