Global Collaborations in Higher Education Institutions Abdulrahman Al-Youbi, Adnan H. M. Zahed, William G.

Tierney, 2019-08-15 This open access book presents deep investigation to the manifold topics pertaining to global university collaboration. It outlines the strategies King Abdulaziz University has employed to rise in global rankings and the reasons chosen to collaborate with other academic and research institutes. The environment in which universities currently exist is considered and subsequently how an innovative culture might be established and maintained to enable global partnerships to be implemented and to succeed is discussed. The book provides an intense focus on why collaboration is a necessary ingredient for knowledge transfer and explains how to do it. The last part of the book considers how to sustain partnerships. This is because one of the challenges of global partnerships is not just setting them up but also sustaining them. **Forces of Nature** David Fedman, Eleana J. Kim, Albert L. Park, 2023-05-15

Bringing together a multidisciplinary conversation about the entanglement of nature and society in the Korean peninsula, *Forces of Nature* aims to define and develop the field of the Korean environmental humanities. At its core, the volume works to foreground non-human agents that have long been marginalized in Korean studies, placing flora, fauna, mineral deposits, and climatic conditions that have hitherto been confined to footnotes front and center. In the process, the authors blaze new trails through Korea's social and physical landscapes. What emerges is a deeper appreciation of the environmental conflicts that have animated life in Korea. The authors show how natural processes have continually shaped the course of events on the peninsula: how floods, droughts, famines, fires, and pests have inexorably impinged on human affairs and how different forces have been mobilized by the state to variously control, extract, modernize, and showcase the Korean landscape. *Forces of Nature* suggestively reveals Korea's physical landscape to be not so much a passive context to Korea's history but an active agent in its transformation and reinvention across centuries. With support from the Henry Luce Foundation, our goal is to produce all titles in this series both in Open Access for reasons of global accessibility and equity as well as in print editions. **Focus on Asian Studies**, 1977 **Emotional Intelligence**
