The Vatican Against Israel Jaccuse:

The Vatican Against Israel Giulio Meotti, 2013-10 For over a century and for over 50 years after the Holocaust the Vatican has been hostile to the creation of a Jewish homeland in the Middle East with its capital as Jerusalem For 60 years after the Jewish State gained independence in 1948 the Catholic Church adopted a policy fitting to Israel's Arab Islamic enemies total non recognition of Jewish statehood and peoplehood Despite acceptance by every Western nation Israel was not accorded formal diplomatic recognition by the Vatican before 1993 The Church formally recognized Israel's existence only two decades after Israel's foe Egypt's Sadat signed a peace treaty with the Jewish State Apparently only the Vatican considered the State of Israel undeserving of its recognition How do we explain this refusal Catholicism had long viewed Judaism as a pariah faith and the Jews a group destined to wander the earth for their complicity in the death of Jesus Although the Second Vatican Council partially revoked this anti Semitic doctrine in 1965 since then the Vatican rapprochement with the Jewish people took place at two levels which the Vatican separated theologically and politically Each advance on the first plane was counterbalanced by a deeper regression on the second as if the two movements were synchronized The closer the Vatican seemed to draw toward reconciliation and dialogue with Judaism the louder grew the clamor supporting the Arab cause against Israel The Vatican Against Israel J ACCUSE deciphers for the first time the Vatican's criminalization of the State of Israel and its appeasement of anti Semitic terrorism in the period between 1945 and 2013 This book urgently matters not only to Jews but also to Christians since the two religions share moral values and a common scripture Jesus was Jewish and for better or worse Jews and Christians have lived together in Europe and the Middle East for 2000 years In fact in many parts of the Christian world Christians have rediscovered their Jewish roots With its more than one billion adherents and strategic influence in the Middle East where Israel is under existential threat by Islamic terror groups and an Iranian apocalyptic revolution the Vatican has an intrinsic relationship with Israel different from Israel's relationship with any other group How the Vatican will relate to Israel and its Jews will affect future relations between Christians and Jews With Israel still establishing the terms of its existence and the Zionists current struggle for their own future the Vatican has the chance to redeem its past mistakes Will it do so

Israel/Palestine in World Religions S. Ilan Troen, 2024-04-24 The struggle over Israel Palestine is not just another contest by competing nationalisms or an instance of geopolitical competition It is also about control of sacred territory that involves local Jews Muslims and Christians as well as worldwide faith communities each with their own interests and stake in what transpires This balanced introduction to a complex subject presents the multiple positions within the great monotheistic traditions It demonstrates that the secular discourses in the public square concerning ownership privileges historical precedence political rights and justice that have allegedly replaced religious claims actually coexist with and often complement the theological It explores the century long tangle of secular and theological debates about Israel's legitimacy Whether readers support a Jewish state or are resolutely opposed the serious and substantial

scholarship of this well reasoned and innovative book will contribute to a nuanced and better informed understanding of this persistent issue that has entered its second century on the international agenda

The Holocaust, the Church, and the Law of Unintended Consequences

Anthony J. Sciolino, 2014-04-07 I admire greatly the way in which Deacon Sciolino has been able to absorb a vast amount of material and weave it into a coherent account of the R C Church vis vis the Holocaust Telling the story from the inside has an especial relevance and importance Rev Hubert G Locke cofounder of the Annual Scholars Conference on the Holocaust and the Churches The image of Jews as God killers and their refusal to convert to Christianity has fueled a long tradition of Christian intolerance hatred and violence It is no surprise then that when Adolf Hitler advocated the elimination of Jews he found willing allies within the Catholic Church and Christianity itself In this study author Anthony J Sciolino himself a Catholic cuts into the heart of why the Catholic Church and Christianity as a whole failed to stop the Holocaust He demonstrates that Nazisms racial anti Semitism was rooted in Christian anti Judaism While tens of thousands of Christians risked their lives to save Jews many more including some members of the hierarchy aided Hitlers campaign with their silence or their participation Sciolinos solid research and comprehensive interpretation provide a cogent and powerful analysis of Christian doctrine and church history to help answer the question of what went wrong He suggests that Christian tradition and teaching systematically excluded Jews from the circle of Christian concern and thus led to the tragedy of the Holocaust From the origins of anti Judaism and anti Semitism and the controversial position of Pope Pius XII to the Catholic Churchs current endeavors to hold itself accountable for their role The Holocaust the Church and the Law of Unintended Consequences offers a vital examination of one of historys most disturbing issues theholocaustandchurch.com

Congressional Record , *The Holocaust and After* Jacob Robinson, Mrs. Philip Friedman, 1973 **Constantine's Sword** James Carroll, 2002-04-01 The monumental New York Times bestseller in which a Catholic explores the problem of anti-Semitism through Church history The Washington Post A Los Angeles Times Best Book of the Year and a New York Times Notable Book In this masterly history Time National Book Award winning author James Carroll maps the profoundly troubling two thousand year course of the Church's battle against Judaism and faces the crisis of faith it has provoked in his own life as a Catholic More than a chronicle of religion this dark history is the central tragedy of Western civilization its fault lines reaching deep into our culture The Church's failure to protest the Holocaust the infamous silence of Pius XII is only part of the story the death camps Carroll shows are the culmination of a long entrenched tradition of anti Judaism From Gospel accounts of the death of Jesus on the cross to Constantine's transformation of the cross into a sword to the rise of blood libels scapegoating and modern anti-Semitism Carroll reconstructs the dramatic story of the Church's conflict not only with Jews but with itself Yet in tracing the arc of this narrative he implicitly affirms that it did not necessarily have to be so There were roads not taken heroes forgotten new roads can be taken yet Demanding that the Church finally face this past in full Carroll calls for a fundamental rethinking of the deepest questions of Christian faith Only then can Christians Jews and all who carry the burden of this history begin to forge a new future Carroll discusses the history of Christian Jewish relations honestly touchingly and personally Carroll investigates his own prejudices as a believing Christian a former Catholic priest and a long time civil rights activist As he unearths history using all the best sources he also encounters emotions he didn't realize he had and shows how his historical journey was also a personal pilgrimage of faith Booklist A triumph Atlantic Monthly
