The War On Human Trafficking Us Policy Assessed:

The War on Human Trafficking Anthony DeStefano, 2007-08-14 The United States has taken the lead in efforts to end international human trafficking the movement of peoples from one country to another usually involving fraud for the purpose of exploiting their labor Examples that have captured the headlines include the 300 Chinese immigrants that were smuggled to the United States on the ship Golden Venture and the young Mexican women smuggled by the Cadena family to Florida where they were forced into prostitution and confined in trailers The public's understanding of human trafficking is comprised of terrible stories like these which the media covers in dramatic but usually short lived bursts The more complicated long term story of how policy on trafficking has evolved has been largely ignored In *The War on Human Trafficking* Anthony M DeStefano covers a decade of reporting on the policy battles that have surrounded efforts to abolish such practices helping readers to understand the forced labor of immigrants as a major global human rights story DeStefano details the events leading up to the creation of the Trafficking Victims Protection Act of 2000 the federal law that first addressed the phenomenon of trafficking in persons He assesses the effectiveness of the 2000 law and its progeny showing the difficulties encountered by federal prosecutors in building criminal cases against traffickers The book also describes the tensions created as the Bush Administration tried to use the trafficking laws to attack prostitution and shows how the American response to these criminal activities was impacted by the events of September 11th and the War in Iraq Parsing politics from practice this important book gets beyond sensational stories of sexual servitude to show that human trafficking has a much broader scope and is inextricable from the powerful economic conditions that impel immigrants to put themselves at risk

The Slave Next Door Kevin Bales, Ron Soodalter, 2009-06-18 In this riveting book authors and authorities on modern day slavery Kevin Bales and Ron Soodalter expose the disturbing phenomenon of human trafficking and slavery that exists now in the United States In *The Slave Next Door* we find that slaves are all around us hidden in plain sight the dishwasher in the kitchen of the neighborhood restaurant the kids on the corner selling cheap trinkets the man sweeping the floor of the local department store In these pages we also meet some unexpected slaveholders such as a 27 year old middle class Texas housewife who is currently serving a life sentence for offences including slavery Weaving together a wealth of voices from slaves slaveholders and traffickers as well as from experts counselors law enforcement officers rescue and support groups and others this book is also a call to action telling what we as private citizens can do to finally bring an end to this horrific crime

Measurement Issues in Criminology and Criminal Justice Beth M. Huebner, Timothy S. Bynum, 2016-04-28 This volume of the series was designed to provide a comprehensive primer on the existing best practices and emerging developments in the study and design research on crime and criminology The work as a whole includes chapters on the measurement of criminal typologies the offenders offending and victimization criminal justice organizations and specialized measurement techniques Each chapter is written by experts in the field and they provide an excellent survey of the literature in the relevant area More importantly each chapter provides a description of the various methodological and substantive challenges presented in conducting research on these issues and denotes possible solutions to these dilemmas An emphasis was placed on research that has been conducted outside of the United States and was designed to give the reader a broader more global understanding of the social context of research The goal of this volume is to provide a definitive reference for professionals in the field researchers and students This volume in the Handbooks in Criminology and Criminal Justice series identifies the principal topical areas of research in this field and summarizes the various methodological and substantive challenges presented in conducting research on these issues In each chapter authors provide a summary of the prominent data collection efforts in the topical area provide an overview of the current methodological work discuss the challenges in the measurement of central concepts in the subject area and identify new horizons emerging in data collection and measurement We encouraged authors to discuss work conducted in an international context and to incorporate discussion of qualitative methodologies when appropriate **Trafficked Children and Youth in the United States** Elzbieta M.

Gozdziak, 2016-05-10 Trafficked children are portrayed by the media and even by child welfare specialists as hapless victims who are forced to migrate from a poor country to the United States where they serve as sex slaves But as Elzbieta M Gozdzia reveals in Trafficked Children in the United States the picture is far more complex Basing her observations on research with 140 children most of them girls from countries all over the globe Gozdzia debunks many myths and uncovers the realities of the captivity rescue and rehabilitation of trafficked children She shows for instance that none of the girls and boys portrayed in this book were kidnapped or physically forced to accompany their traffickers In many instances parents or smugglers paid by family members brought the girls to the U S Without exception the girls and boys in this study believed they were coming to the States to find employment and in some cases educational opportunities Following them from the time they were trafficked to their years as young adults Gozdzia gives the children a voice so they can offer their own perspective on rebuilding their lives getting jobs learning English developing friendships and finding love Gozdzia looks too

at how the children's perspectives compare to the ideas of child welfare programs noting that the children focus on survival techniques while the institutions focus not helpfully on vulnerability and pathology Gozdziaik concludes that the services provided by institutions are in effect a one size fits all trauma based model one that ignores the diversity of experience among trafficked children Breaking new ground Trafficked Children in the United States offers a fresh take on what matters most to these young people as they rebuild their lives in America

The Economies of Violence ,2024-09-16 The covert interplay between violence and economies has long eluded public scrutiny remaining a neglected topic in academic and policy circles alike Amidst the proclamation of the liberal peace democratic nations in the 90s sidestepped discussions on violent influences within their borders Yet the repercussions of economic violence spanning psychological trauma to societal upheaval persist globally Beyond preconceived ideas limiting violence to geographic areas and certain political regimes identifying the profiteers and veiled beneficiaries of such systems is paramount This understanding is crucial in dismantling the undemocratic underpinnings of economies of violence fostering a path towards equity and peace Contributors are Arturo Alvarado Alain Bauer Clotilde Champeyrache Julien Dechanet Nazia Hussain David Izadifar Louise Shelley and Guillaume Soto Mayor

Life Interrupted Denise Brennan,2014-03-18 Having spent nearly a decade following the lives of formerly trafficked men and women Denise Brennan recounts in close detail their flight from their abusers and their courageous efforts to rebuild their lives Life Interrupted is a riveting account of life in and after trafficking and a forceful call for meaningful immigration and labor reform

Caribbean Anti-Trafficking Law and Practice Jason Haynes,2019-07-11 This monograph investigates the International European and Commonwealth Caribbean approaches to human trafficking from an Analytical Eclectic perspective It presents a compelling empirically based argument that although there is currently a panoply of measures aimed at preventing human trafficking prosecuting offenders and protecting trafficked victims in both Europe and the Commonwealth Caribbean these measures have in practice been fraught with a number of challenges whether of a

normative institutional or individual nature The continued existence of these challenges strongly suggests that there exists a disconnect between anti trafficking law and practice which is not peculiar to small island developing States since they also extend to developed States including the United Kingdom Although these challenges are not insurmountable this monograph advances the argument that sustained social economic political and legal commitments are both necessary and desirable and that without such commitments only pyrrhic victories would be won in the fight to eradicate the scourge of the twenty first century Given the importance of the issue of human trafficking and its inescapable impact on victims families communities nations regions and the international community as a whole this monograph will serve as an important resource for policy makers scholars students and practitioners actively working in this increasingly dynamic area of law

such evil inflicts Regardless the scourge will continue and tomorrow s press will detail more tragedy for the victims of human trafficking All of the author s proceeds for the writing of this book go directly to Blazing Hope Ranch to support the care and rehabilitation of female victims of human trafficking **Sex, Drugs, and Body Counts** Peter Andreas,Kelly M.

Greenhill,2011-05-15 At least 200 000 250 000 people died in the war in Bosnia There are three million child soldiers in Africa More than 650 000 civilians have been killed as a result of the U S occupation of Iraq Between 600 000 and 800 000 women are trafficked across borders every year Money laundering represents as much as 10 percent of global GDP Internet child porn is a 20 billion a year industry These are big attention grabbing numbers frequently used in policy debates and media reporting Peter Andreas and Kelly M Greenhill see only one problem these numbers are probably false Their continued use and abuse reflect a much larger and troubling pattern policymakers and the media naively or deliberately accept highly politicized and questionable statistical claims about activities that are extremely difficult to measure As a result we too often become trapped by these mythical numbers with perverse and counterproductive consequences This problem exists in myriad policy realms But it is particularly pronounced in statistics related to the politically charged realms of global crime and conflict numbers of people killed in massacres and during genocides the size of refugee flows the magnitude of the illicit global trade in drugs and human beings and so on In *Sex Drugs and Body Counts* political scientists anthropologists sociologists and policy analysts critically examine the murky origins of some of these statistics and trace their remarkable proliferation They also assess the standard metrics used to evaluate policy effectiveness in combating problems such as terrorist financing sex trafficking and the drug trade *Modern Slavery* Laura J. Lederer,2018-02-08 This book provides a sobering look at modern day slavery which includes sex trafficking domestic servitude and other forms of forced labor and documents the development of the modern anti slavery movement from grassroots activism to the passage of anti slavery laws Slavery was formally abolished across most of the world by the end of the 19th century but it continues to lurk in the shadows of the modern world As with slavery of yesteryear modern slavery hinges on the exploitation of vulnerable populations and especially women and children The result is the same as in bygone centuries when slavery was practiced in the open unimaginable misery for those exploited and financial gain for the exploiter *Modern Slavery A Documentary and Reference Guide* is an invaluable resource for students researchers academics policymakers community leaders and others who want to learn about modern day slavery Covering forms of modern slavery that include sex trafficking labor trafficking and domestic servitude the book provides a complete examination of the modern day anti slavery movement Its coverage includes historical antecedents the various and sometimes opposing schools of thought about how to combat modern slavery and the legislative processes that united them and resulted in a groundbreaking approach to combating human trafficking The book uses primary source material including survivor stories witness testimony case law and other materials to discuss the nature and scope of modern day slavery the grassroots movement to stop it and U S leadership in the international arena

Examples of primary source material include the Trafficking Victims Protection Reauthorization Act 2005 remarks and statements from Presidents Bush Clinton and Obama on human trafficking and modern slavery the United Nations Office of Drugs and Crime report A Global Report on Trafficking in Persons 2009 excerpts from the U S Department of State Trafficking in Persons Report including harrowing victims stories from around the world 2013 and 2014 and excerpts from 2015 Senate hearings including testimony from Holly Austin Smith trafficking survivor and from Malika Saada Saar Human Rights Project for Girls

Global Child Welfare and Well-being Susan C. Mapp, 2011 Using the Convention on the Rights of the Child as a framework issues such as child trafficking child soldiers and child maltreatment are examined in nations around the world as well as efforts to solve these problems

Up for Sale Alison Marie Behnke, 2014-09-01 Trafficking thrives in the shadows And it can be easy to dismiss it as something that happens to someone else somewhere else But that is not the case Trafficking is a crime that involves every nation on earth and that includes our own US secretary of state Hillary Rodham Clinton 2009 Human trafficking is as old as slavery and continues to be practiced in the modern world Victims of human traffickers include workers in restaurants and in garment factories maids and nannies in the homes of wealthy families child sex workers beggars on the street boy soldiers even infants kidnapped for foreign adoptions Women and children are more likely to be coerced or seized than men and boys especially if they are poor and uneducated Traffickers sell their victims for their bodies or for their labor and reap an enormous profit Human trafficking is estimated to be a 30 to 45 billion industry on an annual basis rivaling weapons and drug trafficking as one of the most profitable criminal undertakings in the world Up for Sale takes a hard look at human trafficking identifying perpetrators and telling the stories of victims through their own words You ll discover why some people become vulnerable to trafficking and you ll read about what their lives are like on a daily basis You ll also meet some of the courageous individuals and organizations working to free people from lives in bondage so that in the words of US president Barack Obama each person can forge a life equal to their talents and worthy of their dreams
