The Wilderness Within Reflections On Leisure And Life:

The Wilderness Within DANIEL L. DUSTIN, 2018-09-09 It is time for the park and recreation profession to distinguish itself as a chief caretaker and celebrant of this planet's wondrous web of life. It is our obligation, our duty to do everything in our power to create a more peaceful world, a more connected world, a more caring world in our lifetime. What better use to make of our work? What better use to make of our leisure? What better use to make of our freedom? Help make our profession one that brings out the best in people, one that cultivates respect and compassion for all life, one that inspires each of us to ponder deeply what it means to be fully human. Think big thoughts. Help make the park and recreation profession one that can lead the way. *Children, Families and Leisure* Heike Schaenzel, Neil Carr, 2018-02-02 This book aims to further academic debate within the leisure and tourism studies community about the role of families in contemporary life and the experiences of families and their children in the leisure environment. It is based on the recognition of the diverse nature of the family in the contemporary era and the position of children in families and society in general as active and knowing social agents rather than as passive objects. The family is on the one hand our first community with its own special kind of human attachment and on the other a little world on which the larger society is modelled. Families form the closest and most important emotional bond in humans. This relationship is what drives humanity and society and positions families at the centre of leisure activities. This international and multi-disciplinary compilation of recent research into children and families examines progress made and challenges ahead for leisure studies. It extends the academic discourse to a wider understanding of what families, children and their leisure behaviour mean in today's societies. This book was originally published as a special issue of *Annals of Leisure Research*. *Recreation and Parks* Betty Van der Smitten, 2005 Gaining an understanding of the recreation and parks profession is crucial to success in the field and to effective leadership within the field. *Recreation and Parks: The Profession* is a one-of-a-kind resource that delineates the components that make this complex field a profession. Written by well-known recreation authority Betty van der Smitten, this book defines the marks of the recreation and parks profession and identifies the steps involved in becoming a professional in the field. Profiles of 62 professional organizations within the profession provide a Web site that features a time line of the development of areas and organizations of the profession and the most up-to-date Web addresses for organizations detailed in the text. Outlines a comparative history of 15 categories of the recreation and parks field in the United States and Canada and presents a classic to contemporary bibliography of resources that showcases an inclusive body of knowledge on the profession. Part I describes recreation and parks as a profession and provides students with steps to lay a solid foundation to become a professional. Part II grounds readers with a comparative historical overview of the recreation and parks field from the 1500s to the present day. The author divides the field into 15 categories and offers suggestions on how to use the time line. Part III profiles 62 professional organizations. Each profile includes the organization's mission, goals, structure, history, publications, services and

professional credentialing information In addition it lists the organization s Web sites contact information and other vital information that students use in completing course work in applying for internships and in researching various aspects of the profession Part IV contains a bibliography of selected resources on recreation and parks from classic to the present Recreation and Parks The Profession includes a Web site that not only provides links to other current Web sites for the organizations profiled but it also is linked to a color coded version of the time line The time line is ready to download print and use in the classroom or office This version of the time line provides the most effective way to obtain an overall picture of the historical comparison of the categories in the recreation and parks profession Recreation and Parks The Profession is a unique resource for students professors and professionals in recreation and parks The text brings together the important aspects of the field as a profession
