Track Changes And White Lies:

White Lies Witi Ihimaera, 2013-06-07 A powerful prize winning novella from the much loved author of *The Whale Rider* plus a moving screenplay film stills and commentary on writing and movie making A medicine woman a giver of life is asked to hide a secret that may protect a position in society but could have fatal consequences When she is approached by the servant of a wealthy woman three very different women become players in a head on clash of beliefs deception and ultimate salvation This compelling story tackles moral dilemmas exploring the nature of identity societal attitudes to the roles of women and the tension between Western and traditional Maori medicine This book though is also about the richness of creativity illustrating the way a single story can take on different lives The original novella *Medicine Woman* has been rewritten and expanded by Witi Ihimaera to become *White Lies* It has also evolved into a screenplay by internationally acclaimed director and screenwriter Dana Rotberg which has been made into a superb film by South Pacific Pictures Thus this book offers an intriguing insight into the process of adapting work as well as offering new versions of this potent story Nga Kupu Ora Aotearoa Maori Book Awards 2013 winner of the Te Pakimaero Fiction category **Outliving the White Lie** James Wiggins, 2024-01-30 Part history part memoir *Outliving the White Lie* A Southerner's Historical Genealogical and Personal Journey charts conflicting narratives of American and southern identity through a blend of public family and deeply personal history Author James Wiggins who was raised in rural Mississippi pairs thorough historical research with his own lived experiences *Outliving the White Lie* looks squarely at the many untruths regarding the history and legacy of race that have proliferated among white Americans from the misrepresentations of Black Confederates to the myth of a postracial America Though the US was ostensibly established to achieve freedom and shrug off an oppressive English monarchy this mythology of the United States founding belies a glaring paradox that this is a country whose foundation depends entirely on coercion and enslavement How then could generations of decent people people who valued individual liberty and personal autonomy coexist within and alongside such a paradox Historians suggest an answer that these apparently dissonant points of view were reconciled in antebellum America by white citizens learning to live with slavery by learning to live a lie The operative lie throughout American history and the lie underpinning the institution of slavery they argue has always been the fallacy of race deliberately propagated tenets asserting skin color as the preeminent marker of identity and value Wiggins takes accepted delusions to task in this moving reconciliation of southern living **Pragmatic Version Control Using Git** Travis Swicegood, 2008-12-28 There's a change in the air High profile projects such as the Linux Kernel Mozilla Gnome and Ruby on Rails are now using Distributed Version Control Systems DVCS instead of the old standbys of CVS or Subversion Git is a modern fast DVCS But understanding how it fits into your development can be a daunting task without an introduction to the new concepts Whether you're just starting out as a professional programmer or are an old hand this book will get you started using Git in this new distributed world **White Lies** Rudolph Bader, 2018-07-04 In Nazi Germany young Manfred is

hardly aware of the influence that draws him into the existing political system After the War he changes his name and builds up a new career starting a family first in the States later in Britain While his friends and family have no idea of his activities during the War his daughter Nora and his grandson Andrew being interested in recent history begin to suspect their grandfather's dark secret How far does moral responsibility go Can really heavy guilt ever be expiated in Dostoyevsky's sense or is there no hope for atonement by later generations Is it ever too late to learn fundamental lessons from political developments
