[Fifteen Lectures On Traditional Chinese Culture](#) Peng-cheng Kung, 2022-01-10 This book is edited based on a series of lectures on Chinese cultural history delivered at the Peking University in 2004. It stands out with its distinctive methodology and unique stand and is popular with readers with 17 reprints for the Chinese edition since 2006. Before the 1980s, traditional culture was often the target of criticisms and put in a negative light in China. After the 1980s, due to the belief that traditional culture can contribute to modernization, people decided to take its essence and discard its dregs. As of today, most books on this theme have been written in accordance with this principle. However, in this book, the author argues that many problems have emerged from the modernization of the Western society and thus the need for reflection and re-examining. Traditional Chinese culture is a source for comparison and reflection. As such, when we discuss traditional culture nowadays, not only should we excavate its long hidden meanings but we should also develop contrastive resources to facilitate our collaborative development in future. The discussions in this book adopt a vertical structure that begins with how Chinese define a human, followed by topics on the human body, Qi, food, male and female, home and state, the relationship between heaven and human beings, ritual systems, historical consciousness, thinking patterns, the art of expressing sentiments, commitments to the politics of virtues and achievements and cultural practices. In every chapter, there is also a horizontal method of comparison on Chinese, Western and Indian cultures to foreground the particularities and advantages of the

Chinese culture Apart from elaborating on the major characteristics of traditional Chinese culture there is also a discussion on how the modern disdain for and misunderstandings of the traditional culture originated from the West The author also elaborates on Montesquieu s views of China and the various misconceptions and misunderstandings of the traditional Chinese legal systems Finally it ends with the author s thoughts on the revitalization of the Chinese civilization

**Homosexuality, Transsexuality, Psychoanalysis and Traditional Judaism** Alan Slomowitz,Alison Feit,2019-03-04 Homosexuality Transsexuality Psychoanalysis and Traditional Judaism explores the often incommensurable and irreconcilable beliefs and understandings of sexuality and gender in the Orthodox Jewish community from psychoanalytic rabbinic feminist and queer perspectives The book explores how seemingly irreconcilable differences might be resolved The book is divided into two separate but related sections The first highlights the divide between the psychoanalytic academic and traditional Orthodox Jewish perspectives on sexual identity and orientation and the acute psychic and social challenges faced by gay and lesbian members of the Orthodox Jewish world The contributors ask us to engage with them in a dialogue that allows for authentic conversation The second section focuses on gender identity especially as experienced by the Orthodox transgender members of the community It also highlights the divide between theories that see gender as fluid and traditional Judaism that sees gender as strictly binary The contributors write about their views and experiences from both sides of the divide They ask us to engage in true authentic dialogue about these complex and crucial emotional and religious challenges Homosexuality Transsexuality Psychoanalysis and Traditional Judaism will be of great interest to psychoanalysts and psychoanalytic psychotherapists as well as members and leaders of Jewish communities working with LGBTQ issues Tradition vs. Traditionalism Avi Sagi,2008-01-01 This book is a first attempt to examine the thought of key contemporary Jewish thinkers on the meaning of tradition in the context of two models The classic model assumes that tradition reflects lack of dynamism

and reflectiveness and the present's unqualified submission to the past. This view, however, is an image that the modernist ethos has ascribed to the tradition so as to remove it from modern existence. In the alternative model, a living tradition emerges as open and dynamic, developing through an ongoing dialogue between present and past. The Jewish philosophers discussed in this work, Joseph B. Soloveitchik, Yeshayahu Leibowitz, David Hartman, and Eliezer Goldman, ascribe compelling canonic status to the tradition, and the analysis of their thought discloses the tension between these two models. The book carefully traces the course they have plotted along the various interpretations of tradition through their approach to Scripture and to Halakhah.

The African American Sonnet Timo Müller, 2018-08-02. Some of the best known African American poems are sonnets: Claude McKay's "If We Must Die," Countee Cullen's "Yet Do I Marvel," Gwendolyn Brooks's "First Fight," and "Fiddle." Yet few readers realize that these poems are part of a rich tradition that formed after the Civil War and comprises more than a thousand sonnets by African American poets. Paul Laurence Dunbar, Jean Toomer, Langston Hughes, Margaret Walker, and Rita Dove all wrote sonnets. Based on extensive archival research, *The African American Sonnet: A Literary History* traces this forgotten tradition from the nineteenth century to the present. Timo Müller uses sonnets to open up fresh perspectives on African American literary history. He examines the struggle over the legacy of the Civil War, the trajectories of Harlem Renaissance protest, the tensions between folk art and transnational perspectives in the thirties, the vernacular modernism of the postwar period, the cultural nationalism of the Black Arts movement, and disruptive strategies of recent experimental poetry. In this book, Müller examines the inventive strategies African American poets devised to occupy and reshape a form overwhelmingly associated with Europe. In the tightly circumscribed space of sonnets, these poets mounted evocative challenges to the discursive and material boundaries they confronted.
