Training Christianity Princeton Legacy Library:

Training in Christianity Søren Kierkegaard, 2015-12-08 Kierkegaard in his late and confirmed Christian period discusses the sharp separation of Christianity from Christendom as seen in the official church Originally published in 1944 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Education Ted Newell, 2019-01-17 Education has the power to shape culture through the passing on of traditions narratives and values across generations Profiling five distinct paradigms of education through different eras in history this book casts a vision for a renewal of Christian education essential for bringing hope to our postmodern world Understanding the role of education in the reformation of societies will enable churches families and schools to reclaim their task for the spread of the gospel in our world today

Economics and Ageing José Luis Iparraguirre, 2019-11-29 This upper level textbook provides a coherent introduction to the economic implications of individual and population ageing Placing economic considerations into a wider social sciences context this is ideal reading not only for advanced undergraduate and masters students in health economics and economics of ageing but policy makers professionals and practitioners in gerontology sociology health related sciences and social care This volume introduces topics in labour economics including the economic implications of ageing workforces It covers pension economics and pension systems with their macroeconomic and distributive effects and the question of risk Finally it describes macroeconomic consequences of ageing populations on aggregate saving inflation international trade and financial markets

Believing in Shakespeare Claire McEachern, 2018-04-19 This ground breaking and accessible study explores the connections between the English Reformation's impact on the belief in eternal salvation and how it affected ways of believing in the plays of Shakespeare Claire McEachern examines the new and better faith that Protestantism imagined for itself a faith in which scepticism did not erode belief but worked to substantiate it in ways that were both affectively positive and empirically positivist Concluding with in depth readings of Richard II King Lear and The Tempest the book represents a markedly fresh intervention in the topic of Shakespeare and religion With great originality McEachern argues that the English reception of the Calvinist imperative to know with God allowed the very nature of literary involvement to change transforming feeling for a character into feeling with one

A Legacy of Learning Edward J. Power, 1991-07-03 A Legacy of Learning examines the principal periods in the history of European and American education beginning in ancient Greece and ending in twentieth century America It is a superior textbook for courses in the history of western education tightly organized to cover the territory while developing a strong central theme addressing the continuities of western educational experience Special attention is given to

philosophies of knowledge the content of instruction cultural evolution and educational policy The history of education can be construed so broadly as to be unmanageable Power's thoughtful organization and clear story telling prose delineates and brings to life the watershed epochs in educational history **'All my books in foreign tongues'** Kasper van

Ommen,2025-02-19 In 1609 the renowned scholar Joseph Scaliger 1540 1609 bequeathed all my books in foreign tongues to the library of Leiden University Scaliger's gift marked the foundation of the extensive Oriental collections in Leiden How and why did Scaliger collect these rare and precious books The books and manuscripts printed and written in Hebrew Arabic Ethiopian Armenian Russian and other non western languages were kept separate from the rest of the collection of Leiden University Library in an ornamental cupboard the Arca Scaligerana This study offers the first systematic exploration of the printed books in Scaliger's bequest The books remain extant in Leiden University Library albeit spread across the collection By reconstructing the collection we gain a deeper understanding of Scaliger's extensive scholarly network the development of oriental philology the early modern book trade and the early modern use of catalogues and the development of libraries

Christ's Idea of Authority in the Church John Wijngaards,2023-08-23 The Catholic Church like other churches has created institutions to support its spiritual mission The exercise of authority plays a central role in how they function The truth is that ugly accretions have attached themselves to that authority in the course of the centuries Like weeds scallops and rubbish clinging to the bottom of a ship Think of unchristian cultural views customs and practices from the Roman Empire the barbarian tribes in Europe and the feudalistic Middle Ages that nailed themselves to the ministries These cancerous growths have even been enshrined in church laws This booklet identifies what is wrong by going back to Jesus original intentions Find out how Jesus wanted the spiritual authority he gives to be exercised in practice *Will Schooling Ever Change?* Piotr

Mikiewicz,Marta Jurczak-Morris,2023-03-28 This book is an insightful meta narrative about schooling which explores the global natural experiment of the COVID 19 pandemic and its potential impact on school culture The proposed book discusses how the abrupt and somewhat forced digital transformation of schooling on a global scale caused by the COVID 19 pandemic did not change the educational status quo It states that online teaching and learning failed to transform the role of the key school actors students and teachers as well as the relationship between them despite megatrends such as digitalisation automation and the development of artificial intelligence This focus text discusses why the global experience of distance education did not translate into a significant qualitative change and provides a theoretical framework which enables the reader to interpret and explain the processes that occurred during distance education as well as understand why extraordinarily little if nothing has changed in school culture It will appeal to scholars and students from the sociology of education and from education studies particularly those interested in school culture innovation in education online teaching and learning curriculum studies and education policy The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0
