Design for Inclusivity Roger Coleman, John Clarkson, Julia Cassim, 2016-04-08 Inclusive design not only ensures that products services interfaces and environments are easier to use for those with special needs or limitations but in doing so also makes them better for everyone Design for Inclusivity written by a team that has pioneered inclusive design practice internationally reviews the recent social trends and pressures that have pushed this subject to the fore and assesses design responses to date in an international context The authors make the business case for inclusive design and explain the formalisation of the approach in standards and legislation The text includes case studies which describe transport product development IT and service projects as well as industry university collaborative projects and highlights lessons that have been learned This is very much a practical book It offers tools techniques guidelines and signposts for the reader to key resources as well as including advice on research methods and working with users and industry partners *Industrial Applications of Natural Fibres* Jörg Müssig, 2010-04-15 Natural fibres are becoming increasingly popular for use in industrial applications providing sustainable solutions to support technical innovation These versatile natural based materials have applications in a wide range of industries from textiles and consumer products to the automotive and construction industries Industrial Applications of Natural Fibres examines the different steps of processing from natural generation fibre separation and fibre processing to the manufacturing of the final product Each step is linked to fibre properties and characterization highlighting how different fibres influence the product properties through a discussion of their chemical and structural qualities Considering the value added chain from natural generation to final product with emphasis on quality management this book reviews the current research and technical applications of natural fibres Topics covered include Introduction to the Chemistry and Biology of Natural Fibres Economic Aspects of Natural Fibres Vegetable Fibres Animal Fibres Testing and Quality Management Applications Current and Potential Industrial Application of Natural Fibres will be a valuable resource for scientists in industry and academia interested in the development of natural based materials and products It is particularly relevant for those working in chemical engineering sustainable chemistry agricultural sciences biology and materials sciences *Designing Accessible Technology* P. John Clarkson, P. Langdon, P. Robinson, 2006-08-02 Rapid and unprecedented population ageing poses a serious social and economic challenge across the developed world Shifts in dependency ratios point to escalating welfare and pensions costs which require radical and imaginative responses from Government and industry Key to this is a healthy population able and willing to work longer before retirement and who can be independent for as long as possible afterwards as well as bringing disabled people into mainstream life and employment This book was stimulated by the 3rd CWUAAT workshop the CWUAAT workshops have a general focus on product and solution development It was held in Cambridge UK in April 2006 Contributions from leading researchers focused on design issues for a more inclusive world enabling computer access and the development of new technologies assistive technology

and rehabilitation robotics and understanding users and involving them in design

The Demographic Challenge: A Handbook about Japan Florian Coulmas, Harald Conrad, Annette Schad-Seifert, Gabriele Vogt, 2008-03-30 This Handbook explores the challenges demographic change poses to today's Japan. The first part provides the fundamental data involved and the subsequent two parts address the social and cultural aspects of Japan's demographic change. Parts four and five are dedicated to the political, economic and social security aspects of demographic change. The Handbook brings together a group of international scholars of various disciplinary backgrounds to take issue with the world's fastest demographic transition. Topics include the dynamics of gender roles, images of age, policy formation, labour market structures, pension system, living arrangements, ethical values and many more. Against the background of Japan's demographic change, the latest developments in these fields are being introduced and whenever appropriate set into a context of historical and/or international comparison. This Handbook is the first comprehensive publication in English on Japan's demographic change. Contributors include Makoto Atoh, Hans Dieter Ischleger, Ryuichi Kaneko, Ralph L. Tzeler, Shigemi Kono, Matthias Koch, Sepp Linhart, Takeo Ogawa, Chikako Usui, Leng Leng Thang, Susan Orpett, Long Sawako, Shirahase Toshiko, Himeoka James, Raymo Miho, Iwasawa Akiko, S. Biodegradable Polymers David K. Platt, Rapra Technology Limited, 2006 Biodegradable polymers have experienced strong growth over the last three years and are set to make further inroads into markets traditionally dominated by conventional thermoplastics in future. Four main classes of biodegradable polymers are analysed in this report: polylactic acid (PLA), starch-based polymers, synthetic biodegradable polymers such as aromatic aliphatic co-polyesters and polyhydroxyalkanoates (PHA). The report analyses their key performance properties, applications, development, market drivers and future prospects. Each product section also contains an estimate of market size by world region and end use market, plus forecasts to 2010. There is also an analysis of key suppliers and their products.
