Identity Mediations in Latin American Cinema and Beyond Cecilia Nuria Gil Mariño, Laura Miranda, 2019-09-12 The appearance of sound film boosted entertainment circuits around the world drawing cultural cartographies that forged images of spaces nations and regions By the late 1920s and early 30s film played a key role in the configuration of national and regional cultural identities in incipient mass markets Over the course of the twentieth and early twenty-first centuries this transmedia logic not only went unthreatened but also intensified with the arrival of new media and the development of new technologies In this respect this book strikes a dialogue between analyses that reflect the flows and transits of music films and artists mainly in the Ibero American space although it also features

of Adversity explores the dynamics of translating texts that articulate particular notions of adverse circumstances The chapters illustrate how literary records of often painful experiences and dissenting voices are at risk of being stripped of their authenticity when not carefully handled by the translator how cultural moments in which the translation of a text that would have otherwise fallen into oblivion instead gave rise to a translator who enabled its preservation while ultimately coming into their own as an author as a result and how the difficulties the translator faces in intercultural or transnational constellations in which prejudice plays a role endangers projects meant to facilitate mutual understanding The authors address translation as a project of making available and preserving a corpus of texts that would otherwise be in danger of

becoming censored misperceived or ignored They look at translation and adaptation as a project of curating textual models of personal communal or collective perseverance and they offer insights into the dynamics of cultural inclusion and exclusion through a series of theoretical frameworks as well as through a set of concrete case studies drawn from different cultural and historical contexts The collection also explores some of the venues that artists have pursued by transferring artistic expressions from one medium into another in order to preserve and disseminate important experiences in different cultural settings media and arts
