If you like this book write a review **Up Your Score: ACT, 2016-2017 Edition** Chris Arp, Ava Chen, Jon Fish, Zack Swafford, Devon Kerr, Veritas Tutors and Test Prep, 2015-07-14 It's the ACT's turn. No longer considered a regional test and accepted at all four-year colleges throughout the United States, it's the most popular college admissions test in the country. More than 1.8 million students from the class of 2013 took it. Now updated to address the changes planned for the ACT in 2015, *Up Your Score ACT* is the test prep and survival guide that kids will actually want to use. Written by Chris Arp, a Princeton graduate and top ACT tutor with the help of four students who aced the test and went on to the colleges of their choice, it's a true insider's guide filled with effective strategies and tips delivered with the attitude, smarts, and wit that make *Up Your Score* the best-selling alternative test prep series in print. Beginning in 2015, the ACT will include more layers in its scoring, including separate STEM, English, language arts, and progress toward career readiness sub-scores. In some places, it will be administered digitally, and those tests will include optional constructed response questions in which students will have to come up with the answers, not select among multiple choices, and the essay will be less open-ended, requiring more analysis. In addition to addressing these changes, the book explains how to crush the reading section by developing the Five Habits of Lean Forward Reading, Master the math section through techniques like plugging in an amazing trick that simplifies all algebra word problems, Annihilate the English section by absorbing six key punctuation and eight essential grammar rules, And sail through the science section by understanding that it actually tests reasoning. Plus, there is an ACT fitness regime, tongue-in-cheek fashion and beauty tips, and a recipe for energy-boosting GameFace Quintuple Sugar Blast Bars. Good luck finding that in any other test prep book.

Up Your Score: ACT, 2014-2015 Edition Chris Arp, Ava Chen, Jon Fish, Zack Swafford, Veritas Tutors and Test Prep, 2013-07-30 Yes, kids, there is an alternative to the big bad SAT. It's called the ACT. And yes, there's now an alternative to the big bad boring ACT study books. *Up Your Score ACT* is the prep and survival guide with attitude. Like *Up Your Score SAT*, *Up Your Score ACT* is the underground guide for the 1.65 million kids who take the ACT every year, more than take the SAT. It's written by Chris Arp, age 26, a Princeton graduate along with his colleagues at Manhattan's prestigious Veritas Test Prep company and three high school seniors who each scored an ACT perfect 36. They take the guerrilla guide *Up Your Score* approach of combining a thorough knowledge of how the test works and the subjects it covers with, for student-by-student tips and strategies, lively pop culture references and jokes, and a fresh knowledge of what it's like to actually take the test. Ace the reading section by developing the Five Habits of Lean Forward Reading, including Treat reading like a conversation and Pay attention to direction words. Master the math section through techniques like plugging in an amazing trick that simplifies all algebra word problems. The ACT is heavy on grammar, so the book delves into commas, semicolons, pronouns, transitions, and more. It covers the science the way the test does, showing how to use science reasoning. Plus, how to make GameFace Quintuple Sugar Blast Bars for that needed burst of energy. Veritas Prep GMAT Series, 2009 **Analytical Writing Assessment** Chad Troutwine, Markus Moberg, Brian Galvin, 2010-06 The GMAT

test makers designed the Analytical Writing Assessment AWA to assess your ability to think critically and write persuasively. Failing Law Schools Brian Z. Tamanaha, 2022-12-22 An essential title for anyone thinking of law school or concerned with America's dysfunctional legal system. Library Journal. On the surface, law schools today are thriving. Enrollments are on the rise, and law professors are among the highest paid. Yet behind the flourishing facade, law schools are failing abjectly. Recent front-page stories have detailed widespread dubious practices, including false reporting of LSAT and GPA scores, misleading placement reports, and the fundamental failure to prepare graduates to enter the profession. Addressing all these problems and more is renowned legal scholar Brian Z. Tamanaha. Piece by piece, Tamanaha lays out the how and why of the crisis and the likely consequences if the current trend continues. The out-of-pocket cost of obtaining a law degree at many schools now approaches 200,000. The average law school graduate's debt is around 100,000, the highest it has ever been, while the legal job market is the worst in decades. Growing concern with the crisis in legal education has led to high-profile

coverage in the Wall Street Journal and the New York Times and many observers expect it soon will be the focus of congressional scrutiny Bringing to the table his years of experience from within the legal academy Tamanaha provides the perfect resource for assessing what's wrong with law schools and figuring out how to fix them Failing Law Schools presents a comprehensive case for the negative side of the legal education debate and I am sure that many legal academics and every law school dean will be talking about it Stanley Fish Florida International University College of Law
