Joyce J. Fitzpatrick, Geraldine McCarthy

The Van Gogh Blues The Creative Persons Path Through Depression:

The Van Gogh Blues Eric Maisel, 2008 Creative people will experience depression that's a given. It's a given because they are regularly confronted by doubts about the meaningfulness of their efforts. There's a kind of depression that does not respond to pharmaceutical treatment. What's required is healing in the realm of meaning. In this groundbreaking book, Eric Maisel teaches creative people how to handle these recurrent crises of meaning and how to successfully manage the anxieties of the creative process. Using examples both from the lives of famous creators such as van Gogh and from his own creativity coaching practice, Maisel explains that despite their inevitable difficulties, creative people possess the ability to forge relationships, repair themselves, and find meaning in their work and their lives. Maisel presents a step-by-step plan to help creative people handle their special brand of depression and rediscover the reasons they are driven to create in the first place.

Gendered Frames, Embodied Cameras Cybelle H. McFadden, 2014-05-29 *Gendered Frames Embodied Cameras* Varda Akerman Cabrera Calle and Ma wenn is the first book to link these five filmmakers together through an analysis of the relationship between filming one's own body and the creative body. Through engaged artistic practices, these female filmmakers turn the camera to their bodies as a way to show the process of artistic creation and to produce themselves as filmmakers and artists in their work from 1987-2009. By making visible their bodies, they offer a wider range of representation of women in French film. Through avant-garde form in which tangible corporeal elements are made image, they transform representational content and produce new cinematic bodies with the power to influence signifying practices in contemporary French culture. By rendering visible their artistic practice and praxis and their camera in their work, reflexive practices that also unite these filmmakers, these women also visually claim the role of filmmaker and creative subject. Thus, they establish their authority in a film industry in which women's participation and recognition of their achievements have historically been lower than that of their male counterparts.
