Kaley Provance, 2021-05-30 The U S government viewed involvement in the war as a way to prevent a communist takeover of South Vietnam as part of their wider strategy of containment The North Vietnamese government viewed the war as a colonial war fought initially against France backed by the U S and later against South Vietnam which is regarded as a U S puppet state U S military advisors arrived beginning in 1950 U S involvement escalated in the early 1960s with U S troop levels tripling in 1961 and tripling again in 1962 U S combat units were deployed beginning in 1965 Operations spanned borders with Laos and Cambodia heavily bombed Involvement peaked in 1968 at the time of the Tet Offensive After this U S ground forces were withdrawn as part of a policy called Vietnamization Despite the Paris Peace Accords signed by all parties in January 1973 fighting continued Vietnam was the center of the universe during the years 1965 1973 Throughout that period American units fought Communist backed liberation forces over patches of ground neither side intended to hold for a people who did not understand their place on the world stage in a time lacking moral imperatives Our political leadership failed to recognize it was America s soul that was at stake **The End of Ambition** Mark Atwood Lawrence, 2024-11-26 A

groundbreaking new history of how the Vietnam War thwarted U S liberal ambitions in the developing world and at home in the 1960s At the start of the 1960s John F Kennedy and other American liberals expressed boundless optimism about the ability of the United States to promote democracy and development in Asia Africa the Middle East and Latin America With U

S power resources and expertise almost anything seemed possible in the countries of the Cold War's Third World developing postcolonial nations unaligned with the United States or Soviet Union Yet by the end of the decade this vision lay in ruins What happened In *The End of Ambition* Mark Atwood Lawrence offers a groundbreaking new history of America's most consequential decade He reveals how the Vietnam War combined with dizzying social and political changes in the United States led to a collapse of American liberal ambition in the Third World and how this transformation was connected to shrinking aspirations back home in America By the middle and late 1960s democracy had given way to dictatorship in many Third World countries while poverty and inequality remained pervasive As America's costly war in Vietnam dragged on and as the Kennedy years gave way to the administrations of Lyndon B Johnson and Richard M Nixon America became increasingly risk averse and embraced a new policy of promoting mere stability in the Third World Paying special attention to the U S relationships with Brazil India Iran Indonesia and southern Africa *The End of Ambition* tells the story of this momentous change and of how international and U S events intertwined The result is an original new perspective on a war that continues to haunt U S foreign policy today

The Columbia History of the Vietnam War David L. Anderson, 2010-11-26 Rooted in recent scholarship *The Columbia History of the Vietnam War* offers profound new perspectives on the political historical military and social issues that defined the war and its effect on the United States and Vietnam Laying the chronological and critical foundations for the volume David L Anderson opens with an essay on the Vietnam War's major moments and enduring relevance Mark Philip Bradley follows with a reexamination of Vietnamese revolutionary nationalism and the Vietminh led war against French colonialism Richard H Immerman revisits Eisenhower's and Kennedy's efforts at nation building in South Vietnam and Gary R Hess reviews America's military commitment under Kennedy and Johnson Lloyd C Gardner investigates the motivations behind Johnson's escalation of force and Robert J McMahon focuses on the pivotal period before and after the Tet Offensive
