The Violence of Representation (Routledge Revivals) Nancy Armstrong, Leonard Tennenhouse, 2014-06-17 First published in 1989 this collection of essays brings into focus the history of a specific form of violence that of representation The contributors identify representations of self and other that empower a particular class gender nation or race constructing a history of the west as the history of changing modes of subjugation The essays bring together a wide range of literary and historical work to show how writing became an increasingly important mode of domination during the modern period as ruling ideas became a form of violence in their own right This reissue will be of particular value to literature students with an interest in the concept of violence and the boundaries and capacity of discourse [Darfur Allegory](#) Rogaia Mustafa Abusharaf, 2021-03-15 The Darfur conflict exploded in early 2003 when two rebel groups the Sudan Liberation Movement and the Justice and Equality Movement struck national military installations in Darfur to send a hard hitting message of resentment over the region's political and economic marginalization The conflict devastated the region's economy shredded its fragile social fabric and drove millions of people from their homes Darfur Allegory is a dispatch from the humanitarian crisis that explains the historical and ethnographic background to competing narratives that have informed international responses At the heart of the book is Sudanese anthropologist Rogaia Abusharaf's critique of the pseudoscientific notions of race and ethnicity that posit divisions between Arab northerners and African Darfuris Elaborated in colonial times and enshrined in policy afterwards such binary categories have been adopted by the media to explain the civil war in Darfur The narratives that circulate internationally are thus highly fraught and cover over to counterproductive effect forms of Darfurian activism that have emerged in the conflict's wake Darfur Allegory marries the analytical precision of a committed anthropologist with an insider's view of Sudanese politics at home and in the diaspora laying bare the power of words to heal or perpetuate civil conflict **Mothers and Other Clowns (Routledge Revivals)** Magdalene Redekop, 2014-03-14 First published in 1992 this is the first study of the work of Alice Munro to focus on her obsession with mothering and to relate it to the hallucinatory quality of her magic realism A bizarre collection of clowning mothers parade across the pages of Munro's fiction playing practical jokes performing stunts and dressing in disguises that recycle vintage literary images Magdalene Redekop studies this with the aim of gaining increased understanding of Munro's evolving comic vision [Executing Democracy](#) Stephen John Hartnett, 2012-01-01 Executing Democracy Capital Punishment the Making of America 1683 1807 is the first volume of a rhetorical history of public debates about crime violence and capital punishment in America This examination begins in 1683 when William Penn first struggled to govern the rowdy indentured servants of Philadelphia and continues up until 1807 when the Federalists sought to impose law and order upon the New Republic This volume offers a lively historical overview of how crime violence and capital punishment influenced the settling of the New World the American Revolution and the frantic post war political scrambling to establish norms that would govern the new republic By

presenting a macro historical overview and by filling the arguments with voices from different political camps and communicative genres Hartnett provides readers with fresh perspectives for understanding the centrality of public debates about capital punishment to the history of American democracy

At the Violet Hour Sarah Cole, 2012-11-01 Literature has long sought to make sense of the destruction and aggression wrought by human civilization Yet no single literary movement was more powerfully shaped by violence than modernism As Sarah Cole shows modernism emerged as an imaginative response to the devastating events that defined the period including the chaos of anarchist bombings World War I the Irish uprising and the Spanish Civil War Combining historical detail with resourceful readings of fiction poetry journalism photographs and other cultural materials *At the Violet Hour* explores the strange intimacy between modernist aesthetics and violence in the late nineteenth and early twentieth centuries The First World War and T S Eliot's *The Waste Land* demonstrate the new theoretical paradigm that Cole deploys throughout her study what she calls enchanted and disenchanted violence the polarizing perceptions of violent death as either the fuel for regeneration or the emblem of grotesque loss These concepts thread through the literary historical moments that form the core of her study beginning with anarchism and the advent of dynamite violence in late Victorian England As evinced in novels by Joseph Conrad Henry James and others anarchism fostered a vibrant modern consciousness of violence entrenched in sensationalism and melodrama A subsequent chapter offers four interpretive categories keening generative violence reprisal and allegory for reading violence in works by W B Yeats J M Synge Sean O Casey and others around the time of Ireland's Easter Rising The book concludes with a discussion of Virginia Woolf's oeuvre placing the author in two primary relations to the encroaching culture of violence deeply exploring and formalizing its registers and veering away from her peers to construct an original set of patterns to accommodate its visceral ubiquity in the years leading up to the Second World War A rich interdisciplinary study that incorporates perspectives from history anthropology the visual arts and literature *At the Violet Hour* provides a resonant framework for refiguring the relationship between aesthetics and violence that will extend far beyond the period traditionally associated with literary modernism

Feminism, Violence, and Representation in Modern Italy Giovanna Parmigiani, 2021-12-22 A study of how violence and language affect women in Italy Can the way a word is used give legitimacy to a political movement Feminism Violence and Representation in Modern Italy traces the use of the word femminicidio or femicide as a tool to mobilize Italian feminists particularly the Union of Women in Italy UDI Based on nearly two years of fieldwork among feminist activists Giovanna Parmigiani takes a broad look at the many ways in which violence inflects the lives of women in Italy From unchallenged gendered grammar rules to

the representation of women as victims Parmigiani examines the devaluing of women's contribution to their communities through the words and experiences of the women she interviews She describes the first uses of the word *femminicidio* as a political term used by and within feminist circles and traces its spread to ultimate legitimization and national relevance The word redefined women as a political subject by building an imagined community of potentially violated women In doing so it challenged Italians to consider the status of women in Italian society and to make this status a matter of public debate It also problematized the connection between women and tropes of women as objects of suffering and victimhood Parmigiani considers this exchange within the context of Italian Catholic heritage a precarious economy and long held notions of honor and shame Parmigiani provides a careful and searing consideration of the ways in which representations of violence and the politics of this representation are shaping the future of women in Italy and beyond **Cover Stories (Routledge Revivals)**

Resisting Novels (Routledge Revivals) Lennard J. Davis, 2014-06-27 By making friends with signs Lennard Davis argues we are weakening the bond that anchors us to the social world the world of action and binding ourselves to the ideological For the reader this power of the novel needs to be resisted But there is a double resistance at work the novel is also a defensive structure positioning us against alienation and loneliness the dehumanising symptoms of modern life While discussions surrounding ideology in novels traditionally concentrate on thematics in this study first published in 1987 Davis approaches the subject through such structural features as location character dialogue and plot Drawing on a wide range of novels from the seventeenth century to the present day and on psychoanalysis as well as philosophy *Resisting Novels* explores how fiction works subliminally to resist change and to detach the reader from the world of lived experience This controversial critique will engage students and academics with a particular interest in literary theory **Architecture, Media, Populism... and Violence** Graham Cairns, 2022-10-07 The Storming of the Capitol was for many the culminating media performance of the four year presidency of Donald Trump His presidency and its final act bore all the hallmarks of a 21st century form of populism and media politico spectacle that may yet come to dominate the political scene in the US and worldwide for years to come The questions that such events raise are complex varied and operative across a multitude of disciplines This book engages with these vexed questions in the broad fields of politics and media but does so uniquely through the prism of architecture This book does not however limit its view to the recent events in Washington DC or the United States Rather it seeks to use those events as the starting point for a critique of architecture in the tapestry of mediated forms of protest and political action more generally Each chapter draws on case studies from across timeframes and across nations The book sharpens our critique of the relationship between direct political action its media representation and the role it assigns to architecture as played out globally in the age of mass media In doing so it opens up broader debates about the past present and future roles of architecture as a political tool in the context of international political systems now dominated by changing and unpredictable uses of media and characterised by an increasingly volatile and at times violent form of political activism It is essential reading for any student or researcher engaging with these questions **The Violence of Liberation** Charlene E.
