*The Greatest Sci-Fi Novels of H. G. Wells* H. G.

Wells,2022-11-13 In *The Greatest Sci Fi Novels of H G Wells* readers are invited to traverse the imaginative realms crafted by one of science fiction's pioneering voices. This essential anthology features seminal works such as *The Time Machine*, *The War of the Worlds*, and *The Invisible Man*, showcasing Wells's distinctive narrative style which blends scientific inquiry with philosophical exploration. Set against the backdrop of the late 19th and early 20th centuries, Wells's prose not only entertains but also prompts critical reflections on humanity's relationship with technology, evolution, and the cosmos. His ability to interweave social commentary with speculative fiction places this anthology within the broader literary context of the Victorian era, illuminating the anxieties and aspirations of an age on the brink of modernity. H G Wells, often heralded as the father of science fiction, was profoundly influenced by the rapid advancements of his time, including the Industrial Revolution and the rise of imperialism. His experiences as a teacher and a journalist informed his perspectives, enabling him to explore complex social and ethical dilemmas through fantastical narratives. Wells's diverse background and deep engagement with contemporary scientific discourse uniquely equipped him to question the trajectory of human progress and its consequences. *The Greatest Sci Fi Novels of H G Wells* is a must-read for both aficionados of the genre and newcomers alike. This collection not only encapsulates Wells's inventive genius but also serves as a thought-provoking invitation to contemplate the implications of science and technology in our daily lives. Whether you are interested in social critique, imaginative storytelling, or the roots of speculative fiction, this anthology promises to be an enlightening journey through the visionary mind of H G Wells.

**Artificial Culture** Tama Leaver,2011-12-22 *Artificial Culture* is an examination of the articulation, construction, and representation of the artificial in contemporary popular cultural texts, especially science fiction films and novels. The book argues that today we live in an artificial culture due to the deep and inextricable relationship between people, our bodies, and technology at large. While the artificial is often imagined as outside of the natural order and thus also beyond the realm of humanity, paradoxically, artificial concepts are simultaneously produced and constructed by human ideas and labor. The artificial can thus act as a boundary point against which we, as a culture, can measure what it means to be human. Science fiction feature films and novels, and other related media, frequently and provocatively deploy ideas of the artificial in ways which the lines between people, our bodies, spaces, and culture more broadly blur, and at times dissolve. Building on the rich foundational work on the figures of the cyborg and posthuman, this book situates the artificial in similar terms but from a nevertheless distinctly different viewpoint. After examining ideas of the artificial as deployed in film, novels, and other digital contexts, this study concludes that we are now part of an artificial culture, entailing a matrix which, rather than separating minds and bodies or humanity and the digital, reinforces the symbiotic connection between identities, bodies, and technologies.

**American Fiction in the Cold War** Thomas H. Schaub, 1991 In *American Fiction in the Cold War* Thomas Hill Schaub makes it clear that Trilling s summary was in itself a mythic reconstruction a prominent example of the way liberal writers in the late 1940s and 1950s came to terms with their political past Schaub s book brilliantly analyzes their efforts to reshape an old liberalism alleged to hold naively optimistic views of human nature scientific reason and social progress into a new skeptical liberalism that recognized the persistence of human evil the fragility of reason and the ambiguity of moral decision Most important as *American Fiction in the Cold War* demonstrates these liberal reassessments of history politics human nature and destiny what Schaub calls the liberal narrative mediated the critical and imaginative production of the literary community after World War II Schaub shows that the elements of this narrative are visible in a wide spectrum of cultural

narratives in American history political philosophy and social criticism during the Cold War era His analysis of the dominant critical communities of the late 1940s led by critics such as Lionel Trilling and Irving Howe Cleanth Brooks and Allen Tate recovers the political meanings embedded within their debates over the nature of literary realism the definition of the novel and speculations on its death In the second part of his study Schaub turns to Ralph Ellison Flannery O Connor Norman Mailer and John Barth His readings of their fiction isolate the political and cultural content of works often faulted for their apparent efforts to transcend social history Reviewing John Barth's *End of the Road* for example he shows the politics of culture concealed within what seems to be a philosophical narrative In novel after novel he demonstrates the liberal narrative is operating from within tuning and steering the direction of the plot and the creation of the character Schaub's penetrating exploration of the relationship between U S political and social thought and the literary consciousness in the early postwar years will be of interest to intellectual historians and to students of American literary culture

**Discourse and the Other** W. Lawrence Hogue, 1986-11-25 The central thesis of Lawrence Hogue's book is that criticism of Afro American literature has left out of account the way in which ideological pressures dictate the canon This fresh approach to the study of the social ideological and political dynamics of the Afro American literary text in the twentieth century based on the Foucauldian concept of literature as social institution examines the universalization that power effects how literary texts are appropriated to meet ideological concerns and needs and the continued oppression of dissenting voices Hogue presents an illuminating discussion of the publication and review history of major and neglected texts He illustrates the acceptance of texts as exotica as sociological documents or as carriers of sufficient literary conventions to receive approbation Although the sixties movement allowed the text to move to the periphery of the dominant ideology providing some new myths about the Afro American historical past this marginal position

was subsequently sabotaged co-opted or appropriated Afros became a fad presidents gave the soul handshake the hip talking black was dressing one style and talking another This study includes extended discussion of four works Ernest J Gaines's *The Autobiography of Miss Jane Pittman* Alice Walker's *The Third Life of Grange Copeland* Albert Murray's *Train Whistle Guitar* and Toni Morrison's *Sula* Hogue assesses the informing worldviews of each and the extent and nature of their acceptance by the dominant American cultural apparatus
