The Pop Documentary Since 1980 Richard Wallace,2025-07-10 In *The Pop Documentary Since 1980* Richard Wallace examines the representation of pop music musicians and music making in documentary film and television He draws together conceptual frameworks from within and outside of film and television studies including performance studies musicology celebrity studies and fan studies to provide a critical interrogation of the central issues in this genre A common criticism of the music documentary is that it lacks artistic integrity because of its close affiliation with its subject Wallace argues that music documentaries can be artful and conceptually complex and be part of a broader process of image curation under the control of the artist and their management This contradiction is key to the form s vitality and Wallace explores two competing lines of enquiry First the contribution that such documentaries make to the public perception of their subjects Second he argues that its official status does not preclude music documentaries from being artistic or engaging with the theoretical questions that underpin documentary media more broadly Other issues addressed include how documentaries about song writing attempt to represent intangible concepts like creativity and inspiration how the experiential and affective aspects of music are communicated through the visual image ethical considerations Each of these conceptual questions is examined through detailed analysis of a variety of music documentaries ranging from *Stop Making Sense* to *Tokyo Idols* via *Beyonc* and *The Beatles*
