The Real War on Terror Derek K. J. Kobilus, Jonathan Priebe, 2007-06-15. Do you ever find yourself confused about the war and violence that pervade our post 9/11 world? On the one hand, the Bible and Christ speak of loving enemies and self-sacrifice. On the other hand, the world around us teaches and most Christians seem to simply accept that violence is necessary in a world wrecked with sin. Are Christians a people of peace? Does that peace have to be won through war? Should we fight for our convictions? Or die for them? Jonathan and Derek invite you to come along with them as they explore the biblical teachings on war and violence and attempt to construct a solidly biblical and uniquely Christian view of war and violence.

Hall Jr., DMIN., 2025-08-02 Blood and Mercy explores what the Bible truly teaches about life justice and the taking of life From Genesis through Revelation Dr Hall examines difficult questions such as self-defense vengeance capital punishment and war showing how God defines the boundaries of justice He challenges modern assumptions and calls

Christians to live in a way consistent with the cross where justice is tempered with mercy Barnes Noble He argues that God's own standards not human opinions determine when and how force is justified and that believers must align themselves with His revealed will rather than cultural trends The book is as much about moral conviction as it is about biblical fidelity it seeks to equip readers to think biblically about life and death issues *The Anarchist Roots of Geography* Simon

Springer,2016-08-01 *The Anarchist Roots of Geography* sets the stage for a radical politics of possibility and freedom through a discussion of the insurrectionary geographies that suffuse our daily experiences By embracing anarchist geographies as kaleidoscopic spatialities that allow for nonhierarchical connections between autonomous entities Simon Springer configures a new political imagination Experimentation in and through space is the story of humanity's place on the planet and the stasis and control that now supersede ongoing organizing experiments are an affront to our survival Singular ontological modes that favor one particular way of doing things disavow geography by failing to understand the spatial as a mutable assemblage intimately bound to temporality Even worse such stagnant ideas often align to the parochial interests of an elite minority and thereby threaten to be our collective undoing What is needed is the development of new relationships with our world and crucially with each other By infusing our geographies with anarchism we unleash a spirit of rebellion that foregoes a politics of waiting for change to come at the behest of elected leaders and instead engages new possibilities of mutual aid through direct action now We can no longer accept the decaying archaic geographies of hierarchy that chain us to statism capitalism gender domination racial oppression and imperialism We must reorient geographical thinking towards anarchist horizons of possibility Geography must become beautiful wherein the entirety of its embrace is aligned to emancipation
