The Warrior State Pakistan In The Contemporary World:

The Warrior State T.V. Paul, 2014-01-02 Seemingly from its birth Pakistan has teetered on the brink of becoming a failed state Today it ranks 133rd out of 148 countries in global competitiveness Its economy is as dysfunctional as its political system is corrupt both rely heavily on international aid for their existence Taliban forces occupy 30 percent of the country It possesses over a hundred nuclear weapons that could easily fall into terrorists hands Why in an era when countries across the developing world are experiencing impressive economic growth and building democratic institutions has Pakistan been such a conspicuous failure In *The Warrior State* noted international relations and South Asia scholar T V Paul untangles this fascinating riddle Paul argues that the geostrategic curse akin to the resource curse that plagues oil rich autocracies is at the root of Pakistan s unique inability to progress Since its founding in 1947 Pakistan has been at the center of major geopolitical struggles the US Soviet rivalry the conflict with India and most recently the post 9 11 wars No matter how ineffective the regime is massive foreign aid keeps pouring in from major powers and their allies with a stake in the region The reliability of such aid defuses any pressure on political elites to launch the far reaching domestic reforms necessary to promote sustained growth higher standards of living and more stable democratic institutions Paul shows that excessive war making efforts have drained Pakistan s limited economic resources without making the country safer or more stable Indeed despite the regime s emphasis on security the country continues to be beset by widespread violence and terrorism In an age of transnational terrorism and nuclear proliferation understanding Pakistan s development particularly the negative effects of foreign aid and geopolitical centrality is more important than ever Painstakingly researched and brilliantly argued *The Warrior State* tackles what may be the world s most dangerous powder keg and uncovers the true causes of Pakistan s enormously consequential failure

Ethnic Diasporas and the Canada-United States Security Community David G. Haglund, 2015-03-25 Ethnic Diasporas and the Canada United States Security Community focuses on three diasporas and their impact on North American security relations the Irish and Germans which were mainly in the US and the Muslim diaspora which is based in both countries The book begins by examining the evolution of North America from a zone of war to a zone of peace i e a security community starting with the debate over the nature and meaning of the Canada US border It then assesses the role of ethnic diasporas in North American security looking as to whether ethnic interest groups have been gaining influence over the shaping of the US foreign policy This debate is also valid in Canada especially given the practice of federal political parties of catering to blocs of ethnic voters The second section of the book focuses on three case studies The first examines the impact of the Irish Americans on the quality of security relations between the US and the UK and therefore between the former and Canada The second looks at an even larger diaspora the German Americans whose political agenda by the start of twentieth century attempted to discourage Anglo American entente and eventual alliance The final case concentrates on the debates around the North American Muslim diaspora in the past two decades a time when policy attention turned toward the greater Middle East which in many ways constitute the kin community of this politically active diaspora This comparative assessment of the three cases provides contextualization for today s discussion of homegrown terrorism and its implication for bilateral security cooperation in North America

India-Pakistan Strategic Relations Christoph Mumtaz, Uzma Bluth, 2020-05-25 India and Pakistan have been in a state of persistent conflict that goes back to the very creation of these states after decolonization This conflict has resulted in several wars and continuing armed clashes After both states became nuclear powers one would have expected a

fundamental change in the way they wage war since it is a fundamental principle of International Relations theory that nuclear armed states do not go to war with each other But the situation in South Asia seems to defy this principle India's conventional superiority should be neutralized by Pakistan's nuclear capability while Pakistan's risk taking behavior should be reduced But as a matter of fact the situation has turned out quite differently Although large scale conventional wars have not occurred the nuclear status seems to have encouraged conflict and risk taking The number of armed clashes rose Bluth and Mumtaz scrutinize the atypical and seemingly paradoxical impact of nuclearization on the conflict between India and Pakistan paying extra attention on the question of how stable this paradoxical strategic relationship is They demonstrate that the dominant paradigm used in the International Relations literature is by far not adequate to explain the strategic relations between India and Pakistan and set to work on developing a more coherent explanation A must read for everyone interested in International Relations and conflict resolution research Enduring and Emerging Issues in South Asian Security Sumit Ganguly, Dinshaw Mistry, 2022-02-08 Anyone interested in South Asian security and U S policy toward the region will be rewarded with new insights on these topics written by academics and analysts specializing in the issues The chapter authors were close colleagues or advisees of long time Brookings Institution senior fellow Stephen Philip Cohen Cohen was the first American scholar to work on South Asian security studies He largely defined the field trained and mentored many of its leading analysts and was himself its most experienced and insightful scholar practitioner until his death in 2019 This book is dedicated to Cohen in recognition of his contributions to scholarship and policymaking on South Asia *Elusive Tipping Point, The: China-india Ties For A New Order* Pisupati Sadasiva Suryanarayana, 2021-02-08 The Elusive Tipping Point China India Ties for a New Order is a timely foreign policy relevant book This insightful book delves deep into the reasons for frequent diplomatic and strategic crises between Asia's two dynamic ancient civilisations with post modern capabilities Set in the context of seventieth anniversary of China India diplomacy the spotlight is turned on their complex search for neighbourliness and global good Often a mirage the positive tipping point in their state to state relations is traced through the past the present and the potential future A controversial missed opportunity in the past and a collective win approach for the present are explored For Beijing and Delhi imaginative all weather dialogue is the best option if they wish to stabilise their engagement for the uncertain future Despite their major military crisis PRC and India are expected to shape a realistic post COVID world order Kashmir in India and Pakistan Policies Piotr Balcerowicz, Agnieszka Kuszewska, 2022-05-26 This book examines the complex political structures of Pakistan and India that determine both the Kashmir conflict and the geostrategic environment underpinning it Providing comprehensive knowledge on both historical and contemporary dynamics of Indo Pakistani policies and relations this book combines a brief history of the Kashmir conflict with thorough politological analysis Analyses range from strategic dynamics in the aftermath of bifurcation of Indian administered Kashmir to ideologically motivated and state led narratives security dilemmas regional and geopolitical dynamics The book ultimately

aims to investigate which policies India and Pakistan develop vis vis the territories of former Princely State of Jammu and Kashmir PSJ K in a balanced and impartial manner While placing the subject against the backdrop of Pakistan s and India s domestic and international policies this book emphasises why Kashmir is so important to both countries and how it is manifested in their policies Kashmir in India and Pakistan policies will appeal to students and scholars of peace and conflict studies international relations political science and South Asian studies Chapter 9 of this book is available for free in PDF format as Open Access from the individual product page at www.routledge.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Hubris, Self-Interest, and America's Failed War in Afghanistan Thomas P. Cavanaugh, 2015-07-22 This book describes the conduct of the US led post 9/11 war in Afghanistan Adopting a long term perspective it argues that even though Washington initially had an opportunity to achieve its security goals and give Afghanistan a chance to enter a new era it compromised any possibility of success from the very moment it let bin Laden escape to Pakistan in December 2001 and found itself locked in a strategic overreach Given the bureaucratic and rhetorical momentum triggered by the war on terror in America the Bush Administration was bound to deploy more resources in Afghanistan sooner or later despite its focus on Iraq The need to satisfy unfulfilled counter terrorism objectives made the US dependent on Afghanistan s warlords which compromised the country s stability and tarnished its new political system The extension of the US military presence made Washington lose its leverage on the Pakistan army leaders who aware of America s logistical dependency on Islamabad supported the Afghan insurgents their historical proxies more and more openly The extension of the war also contributed to radicalize segments of the Afghan and Pakistani populations destabilizing the area further In the meantime the need to justify the extension of its military presence influenced the US led coalition into proclaiming its determination to democratize and reconstruct Afghanistan While highly opportunistic the emergence of these policies proved both self defeating and unsustainable due to an inescapable collision between the US led coalition s inherent self interest hubris limited knowledge limited attention span and limited resources and on the other hand Afghanistan s inherent complexity As the critical contradictions at the very heart of the campaign increased with the extension of the latter s duration scale and cost America s leaders entrapped in path dependence lost their strategic flexibility Despite debates on troops resource allocation and more sophisticated doctrines they repeated the same structural mistakes over and over again The strategic overreach became self sustaining until its costs became intolerable leading to a drawdown which has more to do with a pervasive sense of failure than with the accomplishment of any noble purpose or strategic breakthrough

The Oxford Handbook of Indian Foreign Policy David M. Malone, C. Raja Mohan, Srinath Raghavan, 2015-07-23 Following the end of the Cold War the economic reforms in the early 1990s and ensuing impressive growth rates India has emerged as a leading voice in global affairs particularly on international economic issues Its domestic market is fast growing and India is becoming increasingly important to global geo strategic calculations at a time when it has

been outperforming many other growing economies and is the only Asian country with the heft to counterbalance China. Indeed so much is India defined internationally by its economic performance and challenges that other dimensions of its internal situation notably relevant to security and of its foreign policy have been relatively neglected in the existing literature. This handbook presents an innovative high profile volume providing an authoritative and accessible examination and critique of Indian foreign policy. The handbook brings together essays from a global team of leading experts in the field to provide a comprehensive study of the various dimensions of Indian foreign policy.

Sino-Pakistan Partnership Under the China-Pakistan Economic Corridor and the Burden of Expectations Murad Ali, 2025-07-18. This book has come up with the most up to date comprehensive and objective analysis of China's investments in Pakistan under the China-Pakistan Economic Corridor, a flagship project of the Belt and Road Initiative. It covers the broad range of Sino-Pakistan relations in the backdrop of Pakistan's complex political governance, security, socio-environmental and technological challenges that hinder implementation of CPEC projects. Backed by robust empirical evidence, a unique feature of this volume is that it demystifies several myths about CPEC concerning debt trap narrative, China's win-win proposition and Pakistan's mantra of game-changer and fate-changer. By examining Chinese infrastructure building initiative vis-à-vis competing economic initiatives such as the US G7-led Partnership for Global Infrastructure Investment, the Global Gateway strategy of the European Union and the India-Middle East-Europe Economic Corridor of the G20, a distinctive significance of this book is that it aptly situates the implications of China's growing role in Pakistan in broader regional and global context.
