Royalists, Radicals, and les Misérables Eric Martone, 2014-10-02 The year of 1832 marked a turning point in France as the country struggled to find its way in the wake of the French Revolution Following the Revolution of 1830 Legitimists supporters of the recently ousted Bourbon dynasty's claim to the throne continued to plot against King Louis Philippe and his July Monarchy In early 1832 after failing to launch a coup in Southern France Legitimists plotted an unsuccessful uprising in the Vendée a region in Western France that had supported the royalist cause during the French Revolution The Duchesse de Berry led the rebellion in the hopes of placing her son the Bourbon heir on the French throne The revolt marked the last attempt by the Bourbons to retake the throne by force and helped solidify the end of the Bourbon dynasty During the cholera outbreak which also spread throughout France in 1832 lower income areas suffered higher losses to the disease for they were more likely to have contaminated water supplies The lower classes spread rumors that the outbreak was an elitist plot to subdue the masses and the epidemic exacerbated class tensions Meanwhile conditions in France continued to be characterized by

violence during the early 1830s as Louis Philippe attempted to establish his regime's authority. The most significant of these uprisings was the republican dominated June Revolution of 1832. Victor Hugo and other contemporaries perceived the barricades of June as natural extensions of the cholera epidemic or the political continuation of a biological crisis. The sad fate of the uprising however prompted republicans to regroup and develop new strategies for success. As a whole then 1832 helped solidify the end of the Bourbon monarchy and class identities and was a crucial moment in the reorganization and growing solidification of French republicanism that paved the way for the Revolution of 1848. This edited collection examines these three pivotal events in French history in 1832 a royal Legitimist uprising led by the Duchesse de Berry the cholera epidemic and the June Revolution featured in the climax of Hugo's novel *Les Misérables* within the context of the legacy of the French Revolution. While the events of 1832 are significant they have been relatively ignored because scholars have been distracted by the Revolutions of 1830 and 1848. This collection is the first piece of scholarship to examine these three events in an interconnected pattern to better examine France as it transitioned from a monarchy to a republic. As a result this collection will be of value to both historians and academics studying diverse subfields within French and European studies.

After the Factory James J. Connolly,2010-10-14 The most pressing question facing the small and mid sized

cities of America's industrial heartland is how to reinvent themselves. Once thriving communities in the Northeastern and Midwestern U.S. have decayed sharply as the high wage manufacturing jobs that provided the foundation for their prosperity disappeared. A few larger cities had the resources to adjust but most smaller places that relied on factory work have struggled to do so. Unless and until they find new economic roles for themselves the small cities will continue to decline. Reinventing these smaller cities is a tall order. A few might still function as nodes of industrial production. But landing a foreign owned auto manufacturer or a green energy plant hardly solves every problem. The new jobs will not be unionized and thus will not pay nearly as much as the positions lost. The competition among localities for high tech and knowledge economy firms is intense. Decaying towns with poor schools and few amenities are hardly in a good position to attract the creative class workers they need. Getting to the point where they can lure such companies will require extensive retooling not just economically but in terms of their built environment, cultural character, political economy and demographic mix. Such changes often run counter to the historical currents that defined these places as factory towns. After the Factory examines the fate of industrial small cities from a variety of angles. It includes essays from a variety of disciplines that consider the sources and character of economic growth in small cities. They delve into the history of industrial small cities, explore the strategies that some have adopted and propose new tactics for these communities as they struggle to move forward in the twenty first century. Together they constitute a unique look at an important and understudied dimension of urban studies and globalization.

Skiing Heritage Journal, 1999-06. Skiing Heritage is a quarterly Journal of original entertaining and informative feature articles on skiing history. Published by the International Skiing History Association, its contents support ISHA's mission to preserve skiing history and to increase awareness of the sport's heritage. [A Heritage of East and West](#) Muhammed Al-Ahari, 2006. Selected articles by the noted Bosnian American Islamic leader Amil Avdi, 1914-1979. He was a graduate of three colleges on three continents: the College of Islamic Studies, Sarajevo; al-Azhar, Cairo; and Rosary College, Chicago. He started to write on Islam even as a student in his native Bosnia. Later he served on editorial boards of Arabic language journals in Egypt and on Lahore, Pakistan's periodical Islamic Literature. This book is a compilation of all of his known English language articles collected from various periodicals. They offer a unique perspective on issues of assimilation and acculturation in the Muslim community in the West as well as important aspects of post-Ottoman Bosnian history.
