The White Continent The Story Of Antarctica:

The White Continent Thomas Robert Henry,1951 *The Race to the White Continent* Alan Gurney,2002 A fascinating account of the early days of Antarctic exploration from an expert storyteller **White Continent** David Poyer,2016-01-01 A NOVEL OF RELENTLESS SUSPENSE ON EARTH'S FINAL FRONTIER For thirty years diehard David Poyer fans searched used bookstores for the few tattered copies surviving of WHITE CONTINENT This sprawling first novel reads like a remix of ATLAS SHRUGGED and THE DOGS OF WAR as retold by Robert Heinlein It follows a team of adventurers mercenaries outcasts and entrepreneurs in a daring coup to take over the last unclaimed land on earth the terrifyingly hostile continent of Antarctica Using advanced technology to survive and surplus weaponry to defend their new possession they now must hold this new state against all comers and build a Utopian society unlike any that exists elsewhere on earth This new edition cuts 10 000 words from the original text reading faster and more smoothly The geopolitical scene has changed greatly since WHITE CONTINENT was written But the book is still prescient in its foreshadowing of today's conflicting claims and impending resource wars in places like the Arctic and the China Sea Fans of Poyer's later books will notice hints of themes he's still exploring such as the search for authentic authority conflicted heroes and deeply layered multidimensional characters who think as well as act **National Interests in Antarctica, an Annotated Bibliography, 1959** United States. Environmental stewardship and wilderness protection are core values in outdoor programs and require a participant to tell why natural resources are important to them and to the future of our country Today environmental curriculum and nature based lessons are taught in elementary and secondary schools Beyond the intellectual learning in classrooms experience in the wilderness and field research in nature is essential The mountains particularly have much to teach us Mountains are sacred places to people of all races cultures religions throughout the world Mountains and glaciers are also a barometer of climate change and a bellwether of environmental trends Mountains resemble leading indicators in the economic and political battle over climate change Altering our destructive trajectory will be like moving mountains and it will save them

first hand experiences of what Antarctica does and does not could and could not bring to the world Class and Colonialism in Antarctic Exploration, 1750-1920 Ben Maddison, 2015-10-06 Between 1750 and 1920 over 15 000 people visited Antarctica. Despite such a large number the historiography has ignored all but a few celebrated explorers. Maddison presents a study of Antarctic exploration telling the story of these forgotten facilitators; he argues that Antarctic exploration can be seen as an offshoot of European colonialism.
