devices apps the cloud and data streams as new cultural platforms In *The Metainterface* Christian Ulrik Andersen and Søren Bro Pold examine the relationships between art and interfaces tracing the interface's disruption of everyday cultural practices They present a new interface paradigm of cloud services smartphones and data capture and examine how particular art forms including net art software art and electronic literature seek to reflect and explore this paradigm Andersen and Pold argue that despite attempts to make the interface disappear into smooth access and smart interaction it gradually resurfaces there is a metainterface to the displaced interface Art can help us see this the interface can be an important outlet for aesthetic critique Andersen and Pold describe the semantic capitalism of a metainterface industry that captures user behavior the metainterface industry's disruption of everyday urban life changing how the city is read inhabited and organized the ways that the material displacement of the cloud affects the experience of the interface and the potential of designing with an awareness of the language and grammar of interfaces *Making Leisure Work* Brian

**The Architect as Worker** Peggy Deamer, 2015-07-30 Directly confronting the nature of contemporary architectural work this book is the first to address a void at the heart of architectural discourse and thinking For too long architects have avoided questioning how the central aspects of architectural practice professionalism profit technology design craft and building combine to characterize the work performed in the architectural office Nor has there been a deeper evaluation of the unspoken and historically determined myths that assign cultural symbolic and economic value to architectural labor The Architect as Worker presents a range of essays exploring the issues central to architectural labor These include questions about the nature of design work immaterial and creative labor and how it gets categorized spatialized and monetized within architecture the connection between parametrics and BIM and labor theories of architectural work architectural design as a cultural and economic condition entrepreneurialism and the possibility of ethical and rewarding architectural practice The book is a call to arms and its ultimate goal is to change the practice of architecture It will strike a chord with architects who will recognize the struggle of their profession with students trying to understand the connections between work value and creative pleasure and with academics and cultural theorists seeking to understand what grounds the discipline

**TV Shows and Nonplace** Alexander Gutzmer, 2023-08-30 This book scrutinizes the relationship between contemporary TV shows and space focusing on the ways in which these shows use and narrate specific spatial structures namely spaces far away from traditional metropolises Beginning with the observation that many shows are set in specific spatial settings referred to in the book as nonplace territories e g North Jersey New Mexico or rural and suburban Western Germany the author argues that the link between such nonplace territories and shows such as The Sopranos Breaking Bad or Dark is so intense because the narrative structure functions similarly to these territories flat decentralized without any sense of structure or stable hierarchy The book takes three different perspectives first it looks at the rationale for combining TV shows and nonplace territories from the viewpoint of narrative strategy It then thinks through

what these strategies mean for practicing architects Finally it approaches the arguments made before from a user perspective what does this narrative mirroring of social spatial reality in places such as Albuquerque or Jersey City mean for people living in these places This new approach to architecture and space on screen will interest scholars and students of television studies screen architecture media and architectural theory and popular culture Loyola's Greater Narrative Frédéric Conrod, 2008 The Baroque imagination has its roots in Ignatius of Loyola's Spiritual Exercises 1547 which defined for the Counter Reformation era the parameters in which Catholic believers must confront the Enemy and the temporal corruption he embodies in order to enter a state of grace and obtain salvation Through complex interactions of different imaginative functions Loyola's text is able to superpose a variety of simultaneous narrative levels In order to reformulate the greater narrative the Magisterium of the Roman faith beyond what is revealed in Scripture the Spiritual Exercises require their exercitant to become an active participant in this narrative through constant visual contact with orders of corruption that is spaces in which virtue can be confronted with physical decay and sin Through these spaces Counter Reformation Rome La Roma Ignaziana would redefine the economy of salvation and diffuse the visual dynamics of the Spiritual Exercises throughout the Catholic world In their writings Spanish Golden Age authors Miguel de Cervantes and Baltasar Gracián use the rising modernity of the novel to transform Loyola's notion of orders of corruption by adapting it to the secular world Their encoded criticism of Loyolan imagination contributed to the epistemological crisis that marks the Baroque age but also prepared the way for the crucial debates that would take place during the Enlightenment such as the deconstruction of the Catholic greater narrative reflected in Loyola This book concludes with a discussion of the eventual negation of Loyolan imagination in the novels of the Marquis de Sade which undermine the Roman faith by parodying the Baroque forms of spiritual visual experience and negate the Loyolan projection into orders of corruption **Dead Precedents** Roy Christopher, 2019-03-19 The story of how hip hop created and came to dominate the twenty first century In *Dead Precedents* Roy Christopher traces the story of how hip hop invented the twenty first century Emerging alongside cyberpunk in the 1980s the hallmarks of hip hop allusion self reference the use of new technologies sampling the cutting and splicing of language and sound would come to define the culture of the new millennium Taking in the groundbreaking work of DJs and MCs alongside writers like Dick and Gibson as well as graffiti and DIY culture *Dead Precedents* is a counter culture history of the twentieth century showcasing hip hop's role in the creation of the world we now live in *Dark Places* Barry Curtis, 2009-02-15 Horror films revel in taking viewers into shadowy places where the evil resides whether it is a house a graveyard or a dark forest These mysterious spaces foment the terror at the heart of horror movies empowering the ghastly creatures that emerge to kill and torment With *Dark Places* Barry Curtis leads us deep inside these haunted spaces to explore them and the monstrous antagonists who dwell there In this wide ranging and compelling study Curtis demonstrates how the claustrophobic interiors of haunted spaces in films connect to the dark places of the human psyche He examines diverse

topics such as the special effects ranging from crude to state of the art used in movies to evoke supernatural creatures the structures projections and architecture of horror movie sets and ghosts as symbols of loss amnesia injustice and vengeance Dark Places also examines the reconfiguration of the haunted house in film as a motel an apartment a road or a spaceship and how these re imagined spaces thematically connect to Gothic fictions Curtis draws his examples from numerous iconic films including Nosferatu Psycho The Texas Chainsaw Massacre and The Shining as well as lesser known international works which allow him to consider different cultural ideas of haunting Japanese horror films and their Hollywood remakes such as Ringu and The Ring or Juon and The Grudge come under particular scrutiny as he explores Japanese cinema s preoccupation with malevolent forces from the past Whether you love the splatter of blood or prefer to hide under the couch Dark Places cuts to the heart of why we are drawn to carnage
