Liberalism as Utopia Timo H. Schaefer,2017-08-07 Liberalism as Utopia challenges widespread perceptions about the weakness of Mexico's nineteenth century state Schaefer argues that after the War of Independence non elite Mexicans peasants day laborers artisans local merchants pioneered an egalitarian form of legal rule by serving in the town governments and civic militias that became the local faces of the state's coercive authority These institutions were effective because they embodied patriarchal norms of labor and care for the family that were premised on the legal equality of male adult citizens The book also examines the emergence of new illiberal norms that challenged and at the end of the century during the dictatorship of Porfirio Díaz overwhelmed the egalitarianism of the early republican period By comparing the legal

cultures of agricultural estates mestizo towns and indigenous towns Liberalism as Utopia also proposes a new way of understanding the social foundations of liberal and authoritarian pathways to state formation in the nineteenth century world

Nabokov and Nietzsche Michael Rodgers, 2018-04-19 Awarded the Jane Grayson Prize by the International Vladimir Nabokov Society Shortlisted for The European Society for the Study of English ESSE Book Award Nabokov and Nietzsche Problems and Perspectives addresses the many knotted issues in the work of Vladimir Nabokov Lolita's moral stance Nabokov's relationship with memory Pale Fire's ambiguous internal authorship that often frustrate interpretation It does so by arguing that the philosophy of Friedrich Nietzsche as both a conceptual instrument and a largely unnoticed influence on Nabokov himself can help to untie some of these knots The study addresses the fundamental problems in Nabokov's writing that make his work perplexing mysterious and frequently uneasy rather than simply focusing on the literary puzzles and games that although inherent do not necessarily define his body of work Michael Rodgers shows that Nietzsche's philosophy provides new but not always palatable perspectives in order to negotiate interpretative impasses and that the uneasy aspects of Nabokov's work offer the reader manifold rewards Vladimir Nabokov's Lectures on Literature Ben Dhooge, Jürgen Pieters, 2017-12-18 This volume offers insight into Vladimir Nabokov as a reader and a teacher and sheds new light on the relationship of his views on literary aesthetics to the development of his own oeuvre The essays included focus on the lectures on European and Russian literature that Nabokov gave at a number of American universities in the years between his arrival in the United States and the publication of Lolita Nabokov's treatment of literary masterpieces by Austen Cervantes Chekhov Dickens Flaubert Gogol Kafka Joyce Proust and Stevenson is assessed by experts on these authors Contributors are Lara Delage Toriel Ben Dhooge Yannicke Chupin Roy Groen Luc Herman Flora Keersmaekers Arthur Langeveld Geert Lernout Vivian Liska Ilse Logie Jürgen Pieters Gerard de Vries

Fiction of the New Statesman, 1913-1939 Bashir Abu-Manneh, 2011-10-10 Fiction of the New Statesman is the first study of the short stories published in the renowned British journal the New Statesman This book argues that New Statesman fiction advances a strong realist preoccupation with ordinary everyday life and shows how British domestic concerns have a strong hold on the working class and lower middle class imaginative output of this period **Life On Air**, 2008-09-25 Radio Four has been described as the greatest broadcasting channel in the world the heartbeat of the BBC a cultural icon of Britishness and the voice of Middle England Defined by its rich mix encompassing everything from journalism and drama to comedy quizzes and short stories its programmes such as Today The Archers Woman's Hour The Hitchhiker's Guide To the Galaxy Gardeners Question Time and The Shipping Forecast have been part of British life for decades Others less successful have caused offence and prompted derision Born as it was in the Swinging Sixties Radio Four's central challenge has been to change with the times while trying not to lose faith with those who see it as a standard bearer for quality authoritativeness or simply old fashioned BBC values In this first major behind the scenes account of the station's history David Hendy a former producer for Radio Four draws on

privileged access to the BBC's own archives and new interviews with key personnel to illuminate the arguments and controversies behind the creation of some of its most popular programmes. He reveals the station's struggle to justify itself in a television age favouring clear branding and tightly targeted audiences with bitter disputes between the BBC and its fiercely loyal listeners. The story of these struggles is about more than the survival of one radio network. Radio Four has been a lightning rod for all sorts of wider social anxieties over the past forty years. A kaleidoscopic view of the changing nature of the BBC, the book provides a gripping insight into the very nature of British life and culture in the last decades of the twentieth century.

Clio's Bastards Curtis R. McManus, 2016-06-22 Clio's Bastards uses an examination of the discipline of history in Canadian universities as the point of entry for a much larger exploration of the intellectual, spiritual and moral crisis confronting Western civilization today. Over the past four decades, academic history was slowly perverted as historians adopted new sociological approaches to the study of the past. Historians altered the content, purpose and goals of the discipline as they sought not Truth but Justice as part of a larger ideological program of radical social change. And today the pervasive sociological way of seeing, understanding and explaining our world has become the new common sense right across the Western world, both inside and outside the academy. Sociological thought, however, is neither new nor advanced, nor is it progressive as its adherents claim. It is simply recrudescence. Sophistry and Cynicism, destructive philosophies which ruined and fouled ancient Athens, the source and inspiration for Western civilization.

Contemporary Fiction and Science from Amis to McEwan Rachel Holland, 2019-04-26 This book identifies in contemporary fiction a new type of novel at the interface of science and the humanities, working from the premise that a shift has taken place in the relations between the two cultures in the last two or three decades. As popular science comes to assume an ever greater cultural significance, contemporary authors are engaging in new ways with ideas that it disseminates. A new literary phenomenon is emerging in which the focus on language-based theories of the self and the world that has been predominant in the latter half of the previous century is making way for a renewed commitment to the material facts both of human existence and the universe beyond subjectivity. The book analyses the work of Martin Amis, William Boyd, David Lodge, Richard Powers, Michel Houellebecq, Jonathan Franzen, Margaret Atwood and Ian McEwan, revealing the ways in which these third culture novels negotiate the relationship between literature and science.

The Oxford English Literary History: Volume 12: The Last of England? Randall Stevenson, 2005-11-10 English Literature in the 1960s soon threw off its post-war weariness and the tepid influences of the previous decade. New voices, new visions and new commitments profoundly reshaped writing during the 60s and throughout the rest of the century. Drama thrived on its rapidly rebuilt foundations. New freedoms of style and form revitalised fiction. Poetry too gradually recovered the variety and inventiveness of earlier years. As well as comprehensively charting these changes in the literary field, Randall Stevenson persuasively pinpoints their origins in the historical, social and intellectual pressures of the times. Literary developments are revealingly related to the wider evolution and profound changes

in English experience in the late twentieth century to shadows of war and loss of empire declining influences of class shifting relations between the genders emergent minority and counter cultures and the broadening democratization of contemporary life in general Analyses of the rise of literary theory of publishing and the book trade and of the pervasive influences of modernism and postmodernism contribute further to an impressively thorough insightful description of writing in the later twentieth century a literary period Stevenson shows to be far more imaginative and exciting than has yet been recognised Lucid accessible and engaging this volume of the Oxford English Literary History presents a unique illumination of its age one we have lived through but are only just beginning to understand The first full account of its period it will set the agenda for discussion of late twentieth century literature for many years to come
